In addition, unless otherwise indicated, all citations to the Department of Commerce (the Department) regulations refer to the regulations codified at 19 CFR part 351 (April 2002).

Background

On July 25, 2002, the Department of Commerce (the Department) published the final results of the administrative review of the antidumping duty order on pencils from the People's Republic of China (PRC). *See Notice of Final Results and Partial Rescission of Antidumping Duty Administrative Review: Certain Cased Pencils from the People's Republic of China*, 67 FR 48612 (July 25, 2002) (*Final Results*). On July 30, 2002, Kaiyuan Group Corporation (Kaiyuan) timely filed an allegation that the Department made three ministerial errors in calculating the final margin for Kaiyuan. On July 31, 2002, the respondents, China First Pencil Co., Ltd. (CFP), Orient International Holding Shanghai Foreign Trade Co., Ltd (OIHSFTC), Guangdong Stationery &

Sporting Goods Import & Export Co., Ltd (Guangdong), and Three Star Stationery Industry Co., Ltd. (Three Star) timely filed an allegation that the Department made several ministerial errors in the final results. The Writing Instrument Manufacturers Association, Inc., Pencil Section; Sanford Corp.; Berol Corp.; General Pencil Co., Inc.; J.R. Moon Pencil Co.; Tennessee Pencil Co.; and Musgrave Pencil Co., filed comments regarding the respondents' allegations of ministerial errors on August 5, 2002.

Scope of The Investigation

Imports covered by this review are shipments of certain cased pencils of any shape or dimension which are writing and/or drawing instruments that feature cores of graphite or other materials, encased in wood and/or man-made materials, whether or not decorated and whether or not tipped (e.g., with erasers, etc.) in any fashion, and either sharpened or unsharpened. The pencils subject to this order are classified under item number 9609.10.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Specifically excluded from the scope of this order are mechanical pencils, cosmetic pencils, pens, non-cased crayons (wax), pastels, charcoals, and chalks. Although the HTSUS item number is provided for convenience and customs purposes our written description of the scope of the order is dispositive.

Allegation of Ministerial Errors

In their July 30 and 31, 2002 submissions, respondents alleged that the Department: (1) Used an incorrect surrogate to value the wax used by Kaiyuan, (2) assigned Guangdong an incorrect dumping margin, (3) used an incorrect averaging methodology in calculating the average surrogate value for lacquer, paint and dipping lacquer (collectively lacquer), and (4) used an incorrect surrogate to value black and color cores.

Section 751(h) of the Act authorizes the Department to correct ministerial errors. In that vein, 19 CFR 351.224(e) notes that "the Secretary will analyze any comments received and, if appropriate, correct any significant ministerial error by amending the preliminary determination, or correct any ministerial error by amending the final determination or the final results of review (whichever is applicable)." A ministerial error is defined under 19 CFR 351.224(f) as "an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of

unintentional error which the Secretary considers ministerial."

After reviewing respondents' allegations we have determined, in accordance with 19 CFR 351.224(e), that the *Final Results* were based on several ministerial errors. We agree with respondents that the Department used an incorrect averaging methodology in calculating the average surrogate value for lacquer. The Department also found that it used this same incorrect averaging methodology in calculating the average value for a number of other factors. *See Memorandum from Holly A. Kuga to Bernard T. Carreau*, regarding the ministerial error allegations with respect to the final results of the instant review, dated concurrently with this notice (Ministerial Errors Memorandum), a public version of which is on file in room B-099 of the main Commerce building.

The alleged ministerial errors with which we do not agree concern the respondents' assertion that the Department assigned Guangdong an incorrect dumping margin and used incorrect surrogates to value the wax used by Kaiyuan and the black and color cores. For a detailed description of all these allegations and, where applicable, our resultant corrections, *see* the Ministerial Errors Memorandum. Therefore, in accordance with 19 CFR 351.224(e), we are amending the final results of the antidumping duty administrative review of certain cased pencils from the People's Republic of China to reflect the correction of the ministerial errors outlined above. The revised weighted-average dumping margins are in the Amended Final Results section, below.
