### Proposed Modification of Class D Airspace; Knot Noster, Whiteman AFB, MO; and modification of Class E Airspace; Knob Noster, Whiteman AFB, MO; Correction

**AGENCY:** Federal Aviation Administration (FAA), DOT. **ACTION:** Notice of proposed rulemaking; correction.

**SUMMARY:** This action corrects an error in the airspace classification of a notice of proposed rulemaking that was published in the **Federal Register** on Wednesday, August 28, 2002 (67 FR 55180). The proposal was to modify Class D and Class E airspace at Knob Noster, Whiteman AFB, MO.

FOR FURTHER INFORMATION CONTACT: Brenda Mumper, Air Traffic Division, Airspace Branch, ACE–520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329–2524.

SUPPLEMENTARY INFORMATION:

## History

Federal Register Document 02–21136 published on Wednesday, August 28, 2002 (67 FR 55180), proposed to modify Class D, Class E2, and ZE5 Airspace at Knob Noster, Whiteman AFB, MO. Class E5 Airspace was incorrectly labeled as Class E2 Airspace thereby proposing two conflicting legal descriptions of Class E2 Airspace and omitting any legal description of Class E5 Airspace.

Accordingly, pursuant to the authority delegated to me, the error for the proposed Class E5 Airspace misidentified as Class E2 Airspace, Knob Noster, Whiteman AFB, MO, as published in the **Federal Register** Wednesday, August 28, 2002 (67 FR 55180) (FR Doc. 01–21136), is corrected as follows:

#### §71.1 [Corrected]

On page 55181, Column 3, first line, correct the heading "ACE MO E2 Knob Noster, MO" to read "ACE MO E5 Knob Noster, MO".

Issued in Kansas City, MO, on September 3, 2002.

### Proposed Revision of Class E Airspace; Point Hope, AK

**AGENCY:** Federal Aviation Administration (FAA), DOT. **ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This action proposes to revise Class E airspace at Point Hope, AK. Two new Standard Instrument Approach Procedures (SIAP) are being established for the Point Hope Airport. In addition, the Non Directional Beacon (NDB) Runway 1 and NDB Runway 19 SIAPs are being amended. The existing Class E airspace at Point Hope is insufficient to contain aircraft executing the new and revised SIAPs and thus needs to be increased. Adoption of this proposal would result in the addition and revision of Class E airspace at Point Hope, AK.

**DATES:** Comments must be received on or before November 12, 2002.

**ADDRESSES:** Send comments on the proposal in triplicate to: Manager, Operations Branch, AAL–530, Docket

## The Proposal

The FAA proposes to amend 14 CFR part 71 by revising Class E airspace at Point Hope, AK. The intended effect of this proposal is to extend that Class E controlled airspace above 1,200 feet to enable IFR operations at Point Hope, AK to be contained within controlled airspace.

The FAA Instrument Flight Procedures Production and Maintenance Branch has developed two new SIAPs for the Point Hope Airport. The new approaches are (1) Area Navigation (Goblal Positioning System) (RNAV GPS) Runway 1, original; and (2) RNAV (GPS) Runway 19, original. In addition, two SIAPs are being amended: (1) The Non-directional Radio Beacon/ Distance Measuring Equipment (NDB) or GPS Runway 1 approach will become the NDB Runway 1 approach, and (2) the NDB or GPS Runway 19 approach will become the NDB Runway 19 approach. Navigation intersections on existing airways have also been created to initiate transitions to the new SIAPs. The transitions require more airspace than currently exists to contain Instrument Flight Rules (IFR) aircraft.

That airspace currently extending upward from 700 feet above the surface within a 6.4 mile radius (with extensions) of the Point Hope Airport will not be affected by this action. That airspace extending upward from 1,200 feet above the surface will be revised and expanded if this action is taken. The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 in FAA Order 7400.9J, *Airspace Designations and Reporting Points*, dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## **The Proposed Amendment**
