Fish and Wildlife Service

Togiak National Wildlife Refuge; Information Collection To Be Submitted to the Office of Management and Budget (OMB) for Approval

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice, information collection.

The Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement provisions of the Paperwork reduction Act of 1995 (Public Law 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and record keeping activities (see 5 CFR 1320.8(d)). We will submit a request to OMB to approve the collection of information for preserving the unwritten knowledge (oral history) of the long-term residents of the southwest Alaska region in the vicinity of the Togiak National Wildlife Refuge. We are requesting a 3-year term of approval of this new information collection activity. Pursuant to our request for OMB approval of this new information collection, we invite comments on (1) whether the collection of information is necessary for the proper performance of our functions, including whether the information will have practical utility; (2) the accuracy of our estimate of burden, including the validity of the methodology and assumptions used, and (3) ways to enhance the quality, utility, and clarity of the information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The proposed information collection form follows. A copy of the complete draft study proposal is available upon request at no cost. Direct requests to Patricia McClenahan, Office of Subsistence Management, 907/786-3888, extension 3875.

Togiak NWR TEK Interview Questionnaire (checklist)

For each species a respondent has knowledge of that they are willing to share this will serve as a guideline a checklist for initial and follow up interviews.

1 a. Describe your annual seasonal activities. (From the life stages interview complete a general description of their seasonal subsistence activities—what species they rely on most and when they target them).

b. How has this changed over time?

2 a. Where does [species] occur ?
(mapping exercise)

b. Special concentrations? (staging, nesting, feeding, haul out, spawning?)
c. Have you observed changes over time?

d. Are there indicators/predictors that involve this species? (Either this species as an indicator or other things that provide predictions about this species)

3 a. Where and when does harvest occur? (mapping/access/timing)

b. Has this changed over time?

4 a. What methods are used for harvest and processing this species?

b. Has this changed over time?

5 a. Have you observed any changes in this animals behavior or abundance over time?

b. Have you observed any changes in response to human harvest methods changes?

c. Do you have solutions/recommendations for changes to management strategies or regulations to improve or address increases/decreases observed in this species?

6 a. With whom do you share your subsistence resources?

b. How has this changed over time?

7 a. How did you pass along your subsistence knowledge & skills to your children/grandchildren or others in the community?

8 a. When did you first recall that non-residents came to this area to access these resources?

9 a. What environmental, physical or climatological changes have you observed?

10 a. What species occur now that didn't before?

b. What species used to occur (be plentiful), but are no longer?

DATES: Comments must be submitted on or before November 26, 2002.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the University of Pennsylvania Museum of Archaeology and Anthropology, Philadelphia, PA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human

remains and associated funerary objects in the possession of the University of Pennsylvania Museum of Archaeology and Anthropology, Philadelphia, PA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by University of Pennsylvania Museum of Archaeology and Anthropology professional staff in consultation with representatives of the Native Village of Kotzebue.

In 1895, human remains representing one individual were removed from an unknown location on Choris Peninsula in Kotzebue Sound, AK, by Mr. Benjamin Sharp. Mr. Sharp collected these human remains for the Academy of Natural Sciences, Philadelphia, PA, and in 1997, the human remains were transferred from the Academy of Natural Sciences to the University of Pennsylvania Museum of Archaeology and Anthropology. No known individual was identified. No associated funerary objects are present.

Museum documentation and published sources describe the human remains as "Eskimo" and date them to the 19th century. Published sources and consultation information indicate that the Native Village of Kotzebue, which is represented by Kotzebue IRA government, occupied the area where the human remains were recovered during the 19th century.

Based on the above-mentioned information, officials of the University of Pennsylvania Museum of Archaeology and Anthropology have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the University of Pennsylvania Museum of Archaeology and Anthropology also have determined that pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Native Village of Kotzebue.

This notice has been sent to officials of the Native Village of Kotzebue, the Kikiktagruk Inupiat Corporation, and the NANA Regional Corporation. Representatives of any other Indian tribe that believes itself to be culturally

affiliated with these human remains should contact Dr. Jeremy Sabloff, the Williams Director, University of Pennsylvania Museum of Archaeology and Anthropology, 33rd and Spruce Streets, Philadelphia, PA 19104-6324, telephone (215) 898-4051, fax (215) 898-0657, before October 28, 2002.

Repatriation of the human remains to the Native Village of Kotzebue may begin after that date if no additional claimants come forward.

Dated: August 8, 2002.

Robert Stearns,

Manager, National NAGPRA Program.
