Title: The National Survey of Attitudes Regarding Comp Time and Balancing Work and Family.

OMB Number: 1225-ONEW.

Frequency: One time.

Affected Public: Individuals or household.

Number of Respondents: 1,000.

Annual Responses: 1,000.

Estimated Time for Response: 6 minutes.

Total Burden Hours: 100.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintaining): \$0.

Description: Many indicators suggest that the world is a very different place now a little over a year past the tragedy of 9-11. Many Americans are focusing more on their emotional relationships with family and friends and have a desire to do a better job balancing their work and family lives.

Both President George W. Bush and Secretary of Labor Elaine L. Chao support the modernization of the 1938 Fair Labor Standards Act (FLSA). By updating the FLSA, private sector workers would have the opportunity to choose one and one-half hours of compensatory time (comp time) for every hour of overtime pay to help them balance their work and family responsibilities.

This short telephone survey will collect information from a random sample of 1,000 adults in the American workforce to understand their opinions regarding the need for, and their success in balancing work and family responsibilities, and their potential desire to have the option of comp time in lieu of overtime pay. The collected information will be used by the Department of Labor and Congress to help make decisions regarding changes in legislation that would offer greater flexibility to employers and employees.

Departmental Clearance Officer.
