

license renewal rule) and Part 51 (environmental issues). The purpose of the workshop is to exchange information between applicant, the NRC staff reviewers, and other stakeholders that will lead to enhancing the license renewal application (LRA) in a manner that provides the most efficient review by the NRC staff and enhances public confidence. The workshop is intended to allow for an open exchange between the stakeholders. It will provide an opportunity to discuss lessons learned in the license renewal process. On day one, part 54 is discussed, and on the second day, part 51 is discussed.

The NRC staff will consider the comments received from the workshop participants to improve the license renewal guidance documents NUREG-1800, "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants", NUREG 1801, "Generic Aging Lessons Learned (GALL) report," and Regulatory Guide (RG) 1.188 "Standard Format and Content for Applications to Renew Nuclear Power Plant Operating Licenses." NEI will consider the comments to improve NEI 95-10, "Industry Guideline for Implementing the Requirements of 10 CFR part 54—The License Renewal Rule," as appropriate.

The workshop will be conducted in a roundtable format to allow for interaction between presenters and attendees. This is a Category 3 Meeting. The public is invited to participate in this meeting by providing comments and asking questions throughout the meeting.

### Louisiana Energy Services Gas Centrifuge Enrichment Facility

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Opportunity to provide public comments.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is requesting comments from members of the public concerning a series of "white papers" presented to the NRC by the Louisiana Energy Services addressing licensing issues for a gas centrifuge uranium enrichment facility to be located in the area of Hartsville, Tennessee. The Commission will consider comments received in response to this notice in developing its position on the issues raised in these "white papers."

**DATES:** Comments are due by (30 days). Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

**FOR FURTHER INFORMATION CONTACT:** Mr. Timothy C. Johnson, Project Manager, Special Projects and Inspection Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Mail Stop T-8A33, Washington, DC 20555. Telephone (301) 415-7299, e-mail [TCJ@nrc.gov](mailto:TCJ@nrc.gov).

**SUPPLEMENTARY INFORMATION:** On December 17, 2001, Louisiana Energy Services (LES) notified the NRC of its intention to apply for a license to construct and operate a gas centrifuge enrichment facility in the United States. Subsequently, LES and the NRC staff have met in several public meetings to discuss pre-application issues. LES currently intends to submit its application in December 2002. By letter dated April 24, 2002, LES presented six pre-application policy issues "white papers" to the NRC. LES submitted these white papers to the Commission as LES believes that Commission direction on these issues will be essential to the conduct of an efficient regulatory review process. The white papers addressed the following subjects:

1. Analysis of need for the facility and the no-action alternative under the National Environmental Policy Act
2. Environmental justice
3. Financial qualifications
4. Antitrust review
5. Foreign ownership

## 6. Disposition of depleted uranium tails

A public meeting was held on April 30, 2002, to discuss these papers. Comments on the papers were submitted by two attendees at the meeting: the Department of Energy and the United States Enrichment Corporation. The NRC prepared a meeting summary, dated May 28, 2002, which is publicly available. At the time of the April meeting, LES had not chosen a site for the facility.

On September 9, 2002, LES notified the NRC that it had selected a site in Hartsville, Tennessee, where the Tennessee Valley Authority had planned at one time to build a nuclear power plant. By letter dated, September 11, 2002, the Nuclear Information and Resource Service requested an opportunity to submit comments. Now, that a site has been chosen, the NRC is providing a 30 day public comment period on the issues proposed by LES.

The April 24, 2002, LES "white papers;" the May 28, 2002, NRC Meeting Summary; DOE's July 25, 2002, comments; and USEC's June 19, 2002, comments are accessible electronically from the NRC Agency wide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. The ADAMS Accession Numbers for these documents are: ML022350051, ML021480298, ML022350130, and ML021770197 respectively. These documents may also be examined and/or copied for a fee at NRC's Public Document Room located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland.

Members of the public may provide comments on the subject application within 30 days of the publication of this notice in the **Federal Register**. The comments may be provided to Micheal Lesar, Chief, Rules Review and Directives Branch, Division of Administration Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington DC 20555.

Dated at Rockville, Maryland, this 26th day September, 2002.
