#### Stock Assessment of Large Coastal Sharks in the U.S. Atlantic and Gulf of Mexico

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability.

**SUMMARY:** NMFS announces the availability of a stock assessment report on large coastal sharks (LCS) in the Atlantic and Gulf of Mexico, prepared by the NMFS Southeast Fisheries Science Center, and a final meeting report of the shark evaluation workshop held in Panama City, FL, June 24 through June 28, 2002.

**ADDRESSES:** Written requests for copies of these reports should be sent to Karyl Brewster-Geisz, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service (NMFS), 1315 East-West Highway, Silver Spring, MD 20910, or may be sent via facsimile (fax) to 301-713-1917.

**FOR FURTHER INFORMATION CONTACT:**

Karyl Brewster-Geisz, (301) 713-2347; fax (301) 713-1917.

**SUPPLEMENTARY INFORMATION:** Numerous species of LCS are caught in directed and incidental fisheries by commercial and recreational fishermen along the U.S. Atlantic and Gulf of Mexico coasts. The species in this management group presently include, but are not limited to, sandbar, blacktip, silky, tiger, spinner, and bull sharks. The previous stock assessment of LCS was conducted in 1998 and classified this group as being overfished. A substantial amount of information has become available since then, including four more years of catch estimates, new biological data, and extended fishery-independent and fishery-dependent catch rate series. The final meeting report summarizes discussions of the available data, how the data should be used, and the types

of models and sensitivity tests that should be conducted. The stock assessment report uses this information to estimate the status of LCS and to project their future abundance under a variety of future catch levels in waters off the U.S. Atlantic and Gulf of Mexico coasts.

*Chairman, Committee for the Implementation of Textile Agreements.*

**Committee for the Implementation of Textile Agreements**

October 10, 2002.

Commissioner of Customs,  
*Department of the Treasury, Washington, DC 20229.*

Dear Commissioner: Pursuant to section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended; and the Uruguay Round Agreement on Textiles and Clothing (ATC), you are directed to prohibit, effective on January 1, 2003, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Costa Rica and exported during the twelve-month period beginning on January 1, 2003 and extending through December 31, 2003, in excess of the following restraint limits:

Category	Twelve-month limit
340/640 .....	1,728,466 dozen.
342/642 .....	638,074 dozen.
347/348 .....	2,912,850 dozen.
443 .....	234,722 numbers.
447 .....	12,655 dozen.

The limits set forth above are subject to adjustment pursuant to the provisions of the ATC and administrative arrangements notified to the Textiles Monitoring Body.

Products in the above categories exported during 2002 shall be charged to the applicable category limits for that year (see directive dated October 25, 2001) to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such products shall be charged to the limits set forth in this directive.

Also pursuant to the ATC, and under the terms of the Special Access Program, as set forth in 63 FR 16474 (April 3, 1998), you are

directed to establish guaranteed access levels for properly certified cotton, wool and man-made fiber textile products in the following categories which are assembled in Costa Rica from fabric formed and cut in the United States and re-exported to the United States from Costa Rica during the period beginning on January 1, 2003 and extending through December 31, 2003:

443 .....	200,000 numbers.
447 .....	4,000 dozen.

Any shipment for entry under the Special Access Program which is not accompanied by a valid and correct certification in accordance with the provisions of the certification requirements established in the directive of May 15, 1990 (55 FR 21074), as amended, shall be denied entry unless the Government of Costa Rica authorizes the entry and any charges to the appropriate specific limit. Any shipment which is declared for entry under the Special Access Program but found not to qualify shall be denied entry into the United States.

These specific limits and guaranteed access levels do not apply to goods that qualify for quota-free entry under the Trade and Development Act of 2000.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.
