Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice.

SUMMARY: The Leader, Regulatory Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before December 16, 2002.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: October 11, 2002.

Federal Student Aid

Type of Review: New.

Title: FSA Students Portal (JS).

Frequency: On Occasion, Monthly, Annually.

Affected Public: Individuals or household; Federal Government; State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden: Responses: 5,000,000. Burden Hours: 200,000.

Abstract: Federal Student Aid (FSA) of the U.S. Department of Education seeks to establish a registration system within the 'Students Portal', an Internet Portal Website (hereafter 'the Website'). The Website will make the college application process more efficient, faster, and accurate by making it an automated, electronic process that targets financial aid and college applications. The Website uses some personal contact information criteria to automatically fill out the forms and surveys initiated by the user. The Website will also provide a database of demographic information that will help FSA target the distribution of financial aid materials to specific groups of students and/or parents. For example, studies have shown that providing student financial assistance information to middle school (or elementary school) students and/or their parents dramatically increases the likelihood that those students will attend college. The demographic information from the Website will help us to identify potential customers in the middle school age range and is information that was previously unavailable to us.

Background

The claim in question arose when the Chief of the Department's Indirect Cost Group, Office of the Chief Financial Officer (Chief) issued a program determination letter (PDL) on June 28, 2001. The PDL demanded a refund of \$3,171,296 of funds provided to the LSDE for fiscal years 1992-98 under various Department programs. Specifically, the Chief found that the LSDE had failed to carry out its administrative responsibilities to ensure that the New Orleans Parish School Board (NOPS) complied with applicable Federal statutes and regulations regarding proper accounting for Federal education funds. More specifically, the Chief found that NOPS charged Federal funds for unemployment compensation insurance premiums disproportionately and therefore overcharged Federal funds in relation to the benefits received. Accordingly, the Chief disallowed the percent of the total premium costs for 1992-98 in excess of the amount that should have been paid using Federal funds based upon the percentage of Federal funds and State and local funds.

During settlement discussions, the LSDE submitted substantial documentation to demonstrate that the actual amount of excess unemployment compensation premiums that NOPS charged to Federal programs during fiscal years 1997 and 1998 was \$664,990.67, rather than \$906,084, as stated in the PDL. The LSDE also submitted documentation to demonstrate that \$2,650,010.13 in disallowed costs for fiscal years 1992-96 and part of fiscal year 1997 were barred from recovery by the statute of limitations of the General Education Provisions Act (GEPA). 20 U.S.C. 1234a(k). After conducting a thorough review of this documentation, the Chief has decided to accept the LSDE's documentation, thereby reducing the claim to \$280,192.54 for the remainder of fiscal years 1997 and 1998.

The Department proposes to compromise this remaining claim to \$250,192.54. Based on litigation risks and the costs of proceeding through the administrative and, possibly, court process for this appeal, the Department has determined that it would not be practical or in the public interest to continue this proceeding. In addition, in light of NOPS' corrective action performed in 1998, there is little or no likelihood of a recurrence of this problem. As a result, under the authority in 20 U.S.C. 1234a(j), the Department has determined that compromise of this claim for \$250,192.54 is appropriate. The public
