

government operates, and national defense is conducted. Those three functions now depend on an interdependent network of critical information infrastructures." In the Executive Order, the President directed the Board to "recommend policies and coordinate programs for protecting information systems for critical infrastructure," and called for the Board to "coordinate outreach to and consultation with the private sector, * * * State and local governments, [and] communities and representatives from academia and other relevant elements of society."

Pursuant to the President's charge, the Board has been engaged in development of the National Strategy to Secure Cyberspace. On September 18, 2002, the Board released to the public a draft Strategy "For Comment," identifying 24 strategic goals and listing over 80 recommendations. The Strategy was made available online at <http://www.securecyberspace.gov> for viewing and downloading.

The Strategy was developed based on input from a broad spectrum of individuals and groups that represent the owners and operators of cyberspace, as well as from the key sectors that rely on cyberspace, including Federal departments and agencies, private companies, State and local governments, educational institutions, nongovernmental organizations, and the general public. Town hall meetings to facilitate discussion and stimulate input were held during the Spring in Denver, Chicago, Portland, Oregon, and Atlanta and this month in Philadelphia and Boston. In addition, a list of 53 key questions was compiled, published, and publicized to spark public debate and facilitate informed input. The Board will convene additional town hall meetings around the country in the next few weeks to raise awareness about cybersecurity issues, and to solicit and receive the views and input of concerned citizens regarding the Strategy. Town hall meetings will be held in Pittsburgh, PA (October 24), New York, NY (November 7), Phoenix, AZ (November 14). For further information about specific town hall meetings, see <http://www.securecyberspace.gov>.

At the time of the release of the Strategy, the Board invited public comments and set a deadline of November 18, 2002 for such comments. By this Notice, the Board continues to solicit further comments and views from the public on the draft Strategy. The most efficient way to provide public comment is to do so online through the feedback link at <http://www.securecyberspace.gov>.

www.securecyberspace.gov. In order to facilitate review and consideration of public comment, commenters are requested to use this electronic feedback link if at all possible. Comments will also be accepted if mailed to the postal address listed below, but it is requested that such commenters also provide an electronic version of their comments as well as the hard copy (e.g., CD or floppy disc) if possible. In addition, it is requested that all commenters, including those submitting their comments in hard copy form rather than online, make every effort to organize the comments by reference to specific sections of the Strategy and if applicable) the numbered recommendation or discussion topic commented upon.

Those preferring to submit their comments by hard copy (preferably with an accompanying electronic version of the comment) should send them to: PCIPB/Strategy Public Comment; The White House; Washington, DC 20502. The Board will consider all relevant comments in the further development of the Strategy. However, there are no plans to respond individually to each comment.

Dated: October 11, 2002.

Richard A. Clarke,

Chair, President's Critical Infrastructure Protection Board

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

October 5, 2002.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a current valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the

Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before December 16, 2002. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554, or via the Internet to lesmith@fcc.gov

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s) contact Les Smith at 202-418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0387.
Title: On Site Verification of Field Disturbance Sensors—Section 15.201(d).
Form Number: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit entities.
Number of Respondents: 200.
Estimated Time per Response: 18 hours.

Frequency of Response: Recordkeeping; On occasion reporting requirement; Third party disclosure.
Total Annual Burden: 3,600 hours.
Total Annual Cost: \$40,000.

Needs and Uses: FCC rules permit the operation of field disturbance sensors in the low VHF region of the spectrum. To monitor non-licensed field disturbance sensors operating in the low VHF television bands, a unique procedure for on-site equipment testing of the systems is required to ensure suitable safeguards for the operation of these devices. Data are retained by the holder of the equipment authorized/issued by the FCC and made available only at the request of the Commission.

OMB Control Number: 3060-0436.
Title: Equipment Authorization—Cordless Telephone Security Coding.
Form Number: N/A.

Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit entities.
Number of Respondents: 200.

Estimated Time per Response: 1 hour.
Frequency of Response: On occasion reporting requirement; Third party disclosure.

Total Annual Burden: 200 hours.

Total Annual Cost: None.

Needs and Uses: The FCC requires cordless telephone security features to protect the public switched telephone network from unintentional line seizure and telephone dialing. These features prevent unauthorized access to the telephone line, the dialing of calls in response to signals other than those from the owner's handset, and the unintentional ringing of a cordless telephone handset. Use of the cordless telephone security features reduces the harm caused by some cordless telephones to the "911" Emergency Service Telephone System and the telephone network in general.

OMB Control Number: 3060-1015.

Title: Ultra Wideband Transmission Systems Operating Under Part 15—Section 15.525, (ET Docket No. 98-153).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 500.

Estimated Time per Response: 2 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure.

Total Annual Burden: 1,000 hours.

Total Annual Cost: None.

Needs and Uses: 47 CFR Section 15.2525 requires operators of Ultra Wideband (UWB) transmission systems to coordinate their operations to avoid interference with sensitive U.S. government radio systems. Initial operation in a particular area may not commence until authorized by the FCC. The UWB operators must provide the name, address, and other pertinent contact information of the user, the desired geographical area of operation, the FCC ID number, time period during which operations will take place, and other nomenclature of the UWB device. The FCC collects this information and forwards it to the National Telecommunications and Information Administration (NTIA) under the U.S. Department of Commerce). This information collection is essential to control potential interference to Federal radio communications. (Please note that on June 12, 2002, OMB approved this collection under the "emergency processing" provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. Section 3507.)

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-10-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

October 7, 2002.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments by December 16, 2002. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley Herman, Federal Communications Commission, 445 12th Street, SW., Room 1-C804, Washington, DC 20554 or via the internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judy Boley Herman at 202-418-0214 or via the internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0900.

Title: Compatibility of Wireless Services with Enhanced 911; Second Report and Order in CC Docket No. 94-102.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, state, local, or tribal government, not-for-profit institutions.

Number of Respondents: 100.

Estimated Time Per Response: 20 hours.

Frequency of Response: One-time and on occasion reporting requirements.

Total Annual Burden: 2,190 hours.

Annual Reporting and Recordkeeping Cost Burden: N/A.

Needs and Uses: The information submitted by manufacturers or carriers wishing to incorporate new or modified E911 call processing modes will be used to keep the Commission informed of technological developments and thus to ensure that the Commission's regulations are kept current and reflect the preferences of the industry in complying with E911 regulations. The information to be submitted with applications for equipment authorizations for analog cellular telephones is necessary to ensure industry compliance with E911 call completion regulations. The voluntary education program will enable consumers to use wireless analog sets to make E911 calls in an informative manner, ensuring a fast, reliable response.

OMB Control No.: 3060-0147.

Title: Section 64.804, Extension of Unsecured Credit for Interstate and Foreign Communications Services to Candidates for Federal Office.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 13.

Estimated Time Per Response: 8 hours.

Frequency of Response: Annual and on occasion reporting requirements, recordkeeping requirement.

Total Annual Burden: 104 hours.

Annual Reporting and Recordkeeping Cost Burden: N/A.

Needs and Uses: Pursuant to section 64.804 of FCC rules, a carrier must obtain a signed, written application for service which shall identify the applicant and the candidate and state whether or not the candidate assumes responsibility for charges, and which
