

to the proceedings for this project should, on or before February 27, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this

project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. The preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments

or to intervene as early in the process as possible.

Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

**PG&E Dispersed Generating Company, LLC, et al.; Electric Rate and Corporate Regulation Filings**

February 5, 2002.

Take notice that the following filings have been made with the Commission.

Any comments should be submitted in accordance with Standard Paragraph E at the end of this notice.

### 1. PG&E Dispersed Generating Company, LLC

[Docket No. EG02-79-000]

Take notice that on January 31, 2002, PG&E Dispersed Generating Company, LLC (PG&E Dispersed Gen), a Delaware limited liability company with its principal place of business at 7500 Old Georgetown Road, Bethesda, MD 20814, filed with the Federal Energy Regulatory Commission (Commission) an application for redetermination of exempt wholesale generator (EWG) status pursuant to Part 365 of the Commission's regulations.

PG&E Dispersed Gen previously has been determined to be an EWG. This filing is occasioned by PG&E Dispersed Gen's acquisition of interests in two additional eligible facilities, and to notify the Commission that certain other eligible facilities are no longer operational. All output from its facilities will be sold exclusively at wholesale within the meaning of Section 32 of PUHCA.

*Comment Date:* February 26, 2002.

### 2. B.L. England Power LLC

[Docket No. EG02-80-000]

Take notice that on February 1, 2002, B.L. England Power LLC filed with the Federal Energy Regulatory Commission (Commission) an application for determination of exempt wholesale generator status pursuant to section 32(a)(1) of the Public Utility Holding Company Act of 1935 (PUHCA). The applicant states that it is a limited liability company organized under the laws of the State of Delaware that is acquiring the B.L. England Station (Facilities) in Beesley's Point, New Jersey. Determinations pursuant to section 32(c) of PUHCA have been received from the State commissions of Delaware, Maryland, Virginia, and New Jersey.

*Comment Date:* February 26, 2002.

### 3. Deepwater Power LLC

[Docket No. EG02-81-000]

Take notice that on February 1, 2002, Deepwater Power LLC filed with the Federal Energy Regulatory Commission (Commission) an application for determination of exempt wholesale generator status pursuant to section 32(a)(1) of the Public Utility Holding Company Act of 1935 (PUHCA). The applicant states that it is a limited liability company organized under the laws of the State of Delaware that is acquiring the Deepwater Station in

Pennsville, New Jersey (Facilities) and selling electric energy at wholesale. The total capacity of the operating units of the Facilities is 239 MW.

Determinations pursuant to section 32(c) of PUHCA have been received from the State commissions of Delaware, Maryland, Virginia, and New Jersey.

*Comment Date:* February 26, 2002.

### 4. Otter Tail Power Company

[Docket No. ER02-912-000]

Take notice that on January 31, 2002, Otter Tail Power Company submitted a Control Area Services and Operations Tariff and requested termination of its Open Access Transmission Tariff. The Control Area Services and Operations Tariff and the termination of the Open Access Transmission Tariff are proposed in order to accommodate the start-up of Midwest Independent Transmission System Operator, Inc. Open Access Transmission Tariff administration.

*Comment Date:* February 21, 2002.
