### BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

#### **Sunshine Act Meeting**

**AGENCY HOLDING THE MEETING:** Board of Governors of the Federal Reserve System

TIME AND DATE: 12 p.m., Monday, November 4, 2002.

**PLACE:** Marriner S. Eccles Federal Reserve Board Building, 20th and C Streets, NW., Washington, DC 20551

STATUS: Closed.

#### **MATTERS TO BE CONSIDERED:**

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.

2. Any items carried forward from a previously announced meeting.

FOR MORE INFORMATION PLEASE CONTACT: Michelle A. Smith, Assistant to the

Michelle A. Smith, Assistant to Board; 202–452–2955.

supplementary information: You may call 202–452–3206 beginning at approximately 5 p.m. two business days before the meeting for a recorded announcement of bank and bank holding company applications scheduled for the meeting; or you may contact the Board's Web site at <a href="http://www.federalreserve.gov">http://www.federalreserve.gov</a> for an electronic announcement that not only lists applications, but also indicates procedural and other information about the meeting.

Dated: October 25, 2002.

#### Robert deV. Frierson,

Deputy Secretary of the Board.

# Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404)498–1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the

proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Racial and Ethnic Approaches to Community Health Information Network (REACH IN)-New-National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC)The REACH IN is a customized internet-based support system that will allow the Racial and Ethnic Approaches to Community Health 2010 (REACH 2010) Program grantees to perform remote data entry and retrieval of data on the grantees' actions, intervention activities, community/systems change, and change among change agents. This support system is also designed to create on-demand graphs and reports of the grantees' actions and accomplishments. There is no cost to respondents.

Respondents	Number of respondents	Number of responses/ respondent	Avg. burden/ response (in hours)	Total burden (in hours)
REACH 2010 Grantees	37	4	30/60	74
Total				74

Dated: October 24, 2002.

#### Nancy E. Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

## Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of

the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498–1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road,

MS–D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

*Proposed Project:* Outcome Evaluation of CDC's Youth Media Campaign: Follow up Survey to Baseline Data Collection—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

#### **Background**

In FY 2001, Congress established the Youth Media Campaign at the Centers for Disease Control and Prevention (CDC). Specifically, the House Appropriations Language said: "The Committee believes that, if we are to have a positive impact on the future health of the American population, we must change the behaviors of our children and young adults by reaching them with important health messages.' CDC, working in collaboration with federal partners, is coordinating an effort to plan, implement, and evaluate a campaign designed to clearly communicate messages that will help

youth develop habits that foster good health over a lifetime. The Campaign is based on principles that have been shown to enhance success, including: designing messages based on research; testing messages with the intended audiences; involving young people in all aspects of Campaign planning and implementation; enlisting the involvement and support of parents and other influencers; refining the messages based on research; and measuring the effect of the campaign on the target audiences.

To measure the effect of the campaign on the target audiences, CDC designed a baseline survey for tween and parent dyads (Children's Youth Media Survey and Parents' Youth Media Survey) that assessed aspects of the knowledge, attitudes, beliefs, and levels of involvement in positive activities of tweens and a parent or guardian. The baseline survey was conducted prior to the launch of the campaign from April 8, 2002 through June 21, 2002. The methodology was to use a panel design and to survey 3000 dyads (3000 parents

and 3000 tweens) from a nationally representative sample and to survey 3000 dyads (again 3000 parents and 3000 tweens) from the six "high dose" communities for a total of 6000 dyads or 12,000 respondents. The survey was conducted using random digit dial.

The next steps in the measurement of effects of the campaign is to collect follow-up data one year post baseline survey and two years post baseline survey. The same panel members (minus attrition) of 6000 tween/parent dyads used in the baseline survey nationally and in the six selected metropolitan areas—would be recontacted to complete a survey that would be similar to that used at baseline. Items on campaign awareness would be added to the survey to enable segmentation of the respondents by awareness of the campaign. Thus, the data collection would be with approximately 6000 tween/parent dyads in spring 2003 and 6000 tween/parent dyads in 2004. There is no cost to respondents.

Respondents	Number of respondents	Number of responses/ respondent	Average burden/ response (in hours)	Total burden (in hours)
Tweens (9 to 13 year olds)	6000	2 (1st 2003) (2nd 2004)	15/60	3000
Parents	6000	(1st in 2003) (2nd in 2004)	15/60	3000
Total				6000

Dated: October 24, 2002.

Proposed Project: Intimate Partner Violence Screening: A Randomized Trial Comparing Computerized Questionnaires and Nursing Staff Interviews—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

The purpose of this project is to determine effective ways to screen for intimate partner violence (IPV) in clinical settings. The project will compare the sensitivity, specificity and cost of screening for intimate partner violence (IPV) through a randomized trial using two modes of administering the screening questionnaire. Modes to be compared are computer administration and face-to-face interviews by a nurse. Computerized screens will be of two different lengths. Three questions on the face-to-face interview will be identical to a short computer screen; a longer computer
