

Type of Request: Extension of currently approved information collection.

OMB Control Number: 2133-0514.

Form Numbers: None.

Expiration Date of Approval: Three years from date of OMB approval.

Summary of Collection of Information: This collection of information requires U.S.-flag operators to submit vessel operating costs and capital costs data to MARAD officials on an annual basis.

Need and Use of the Information: This information is needed by MARAD to establish fair and reasonable guideline rates for carriage of specific cargoes on U.S. vessels.

Description of Respondents: U.S. citizens who own and operate U.S.-flag vessels.

Annual Responses: 175.

Annual Burden: 700 hours.

Comments: Comments should refer to the docket number that appears at the top of this document. Written comments may be submitted to the Docket Clerk, U.S. DOT Dockets, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. Comments may also be submitted by electronic means via the Internet at <http://dmses.dot.gov/submit>. Specifically address whether this information collection is necessary for proper performance of the functions of the agency and will have practical utility, accuracy of the burden estimates, ways to minimize this burden, and ways to enhance the quality, utility, and clarity of the information to be collected. All comments received will be available for examination at the above address between 10 a.m. and 5 p.m. EDT (or EST), Monday through Friday, except Federal Holidays. An electronic version of this document is available on the World Wide Web at <http://dms.dot.gov>.

By Order of the Maritime Administrator.

Dated: October 29, 2002.

Joel C. Richard,

Secretary, Maritime Administration.

BILLING CODE 4910-81-P

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket No. MARAD-2002-13701]

Information Collection Available for Public Comments and Recommendations

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Maritime Administration's (MARAD's) intentions to request extension of approval for three years of a currently approved information collection.

DATES: Comments should be submitted on or before January 6, 2003.

FOR FURTHER INFORMATION CONTACT:

Richard Walker, Maritime Administration, MAR-810, 400 7th Street, SW., Washington, DC 20590. Telephone: 202-366-5076, FAX: 202-366-6988 or E-MAIL:

richard.walker@marad.dot.gov. Copies of this collection can also be obtained from that office.

SUPPLEMENTARY INFORMATION:

Title of Collection: Inventory of American Intermodal Equipment.

Type of Request: Extension of currently approved information collection.

OMB Control Number: 2133-0503.

Form Numbers: None.

Expiration Date of Approval: Three years from date of approval by Office of Management and Budget.

Summary of Collection of Information: This collection consists of an intermodal equipment inventory that provides data essential to both the government and the transportation industry in planning for the most efficient use of intermodal equipment. Further, this collection is intended to assure that containers and related intermodal equipment are obtainable in the event of a national emergency.

Need and Use of the Information: The information contained in the inventory provides data about U.S.-based companies that own or lease intermodal equipment and is essential to both government and industry in planning for contingency operations.

Description of Respondents: Owners of U.S. steamship and intermodal equipment leasing companies.

Annual Responses: 22.

Annual Burden: 66 hours.

Comments: Comments should refer to the docket number that appears at the top of this document. Written comments may be submitted to the Docket Clerk, U.S. DOT Dockets, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. Comments may also be submitted by electronic means via the Internet at <http://dmses.dot.gov/submit>. Specifically address whether this information collection is necessary for proper performance of the functions of the agency and will have practical utility, accuracy of the burden estimates, ways to minimize this burden, and ways to enhance the

quality, utility, and clarity of the information to be collected. All comments received will be available for examination at the above address between 10 a.m. and 5 p.m. EDT (or EST), Monday through Friday, except Federal Holidays. An electronic version of this document is available on the World Wide Web at <http://dms.dot.gov>.

By Order of the Maritime Administrator.

Dated: October 29, 2002.

Joel C. Richard,

Secretary, Maritime Administration.

BILLING CODE 4910-81-P

DEPARTMENT OF TRANSPORTATION

Bureau of Transportation Statistics

Grant Program for Research and Development in the Field of Transportation Statistics

AGENCY: Bureau of Transportation Statistics, DOT.

ACTION: Announcement of grant program.

SUMMARY: The Bureau of Transportation Statistics (BTS) supports its goal of advancing the field of transportation statistics through the Transportation Statistics Research Grants program. This notice solicits applications for projects that (1) support the development of the field of transportation statistics; and/or (2) involve research or development in transportation statistics. It outlines the purpose, goals, and general procedures for application and award. For this cycle, BTS will make available up to approximately \$500,000 in grant funds to eligible organizations.

DATES: For BTS to consider your application, we must receive it by January 31, 2003, at 5:00 P.M. Eastern Standard Time. Applications received after January 31, 2003, will be held for the next cycle, which is anticipated to be every six to twelve months, unless you request in writing that your application be returned.

ADDRESSES: You must send six copies of the application package to the BTS Grants Program, Room 3117, Bureau of Transportation Statistics, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: Promod Chandhok, Office of Statistical Programs, Bureau of Transportation Statistics, Room 3117, 400 Seventh Street, SW., Washington, DC 20590; phone (202) 366-2158; fax: (202) 493-

0568; e-mail:
promod.chandhok@bts.gov.

SUPPLEMENTARY INFORMATION:

I. Background—Advancing the Discipline of Transportation Statistics

The purpose of this grant program is to provide financial assistance to eligible organizations to help advance the discipline of transportation statistics. These grants are authorized by section 5109 of the Transportation Equity Act for the 21st Century (TEA-21) (Public Law 105-178 (1998), codified at 49 U.S.C. 111(g)). BTS anticipates awarding up to \$500,000 per year in grants for projects that (1) support development of the field of transportation statistics; and/or (2) advance research or development in transportation statistics.

BTS is a separate operating administration within the U.S. Department of Transportation (DOT). Its mission is to lead in developing transportation data and information of high quality, and to advance their effective use in public and private transportation decision-making. In accomplishing this mission, BTS works to improve six key attributes of transportation data and analysis—quality, comparability, completeness, timeliness, relevance, and utility.

Our ultimate goal is to make transportation better—to enhance safety, mobility, economic growth, the human and natural environment, and national security (the five strategic goals of the Department of Transportation). BTS's role in this goal is to put together data and information that others need to make decisions concerning transportation. We collect data and compile, analyze, and publish statistics. Many others, both within and outside DOT, are involved in building this knowledge base and BTS could not do it alone.

While there are many excellent transportation data programs and many excellent statistics programs, few are devoted to the intersection of these two disciplines. Bringing a better understanding of statistics to transportation data will improve data quality, increase utility (e.g., by improving measures of travel), and reduce costs (e.g., by using techniques to make data collection, analysis, and dissemination more efficient). BTS wants to foster the transportation statistics discipline and increase its quality and usefulness to the transportation community. This grants program is one way BTS is working toward this goal.

II. Eligibility Requirements

What Organizations May Apply?

BTS invites applications from public and private non-profit entities. We strongly encourage organizations serving minorities, who have been traditionally under-represented in transportation statistics, to submit applications. If organizations partner on a project, the participants should submit a single application. You may submit more than one application as long as the applications are for separate and distinct projects.

What Projects Are Eligible for Funding?

Proposals should serve the broad transportation interests of the country, and we are particularly interested in high-quality proposals that treat one or more of the following areas:

(1) Quantifying the “safety culture” of transportation companies; assessing the predictive power of “safety culture” in predicting accident risk; identifying minimum data required in quantifying the “safety culture” of a transportation company; and suggesting specific measures or attributes of a company that are strong predictors of accident risk.

(2) Researching the utility of narrative text in accident and near-miss reports in identifying precursors to an accident; evaluating text mining techniques; and developing text mining tools specific for extracting information from Police Accident Reports.

(3) Measuring the vulnerability of the transportation system and its users to crime and terrorism.

This list is not exhaustive, and we are eager to consider any innovative proposal that supports the development of the field of transportation statistics or involves research and development in transportation statistics.

What Are the Cost Sharing Requirements?

For awards of \$100,000 or more, the recipient shall fund at least 50 percent of the project's costs. The nonfederal match must come from sources other than the project sponsor, and must be cash contributions rather than in-kind contributions. In reviewing all applications, even those requesting less than \$100,000, the degree of cost-sharing will be considered, with more weight given to cash contributions than in-kind services.

III. Application Contents

For more information about submitting an application, please refer to the **ADDRESSES** and **DATES** sections listed above. In order to be considered for funding under this program, your

application package must include the following:

(1) *A Project Narrative*. This must not exceed 12 letter-size pages, single-sided and double-spaced. Use at least 12-point type and one inch margins. In general, the information you provide should be in sufficient detail so BTS understands the proposed work and its anticipated benefits. It should also demonstrate that you have the necessary experience and resources to accomplish it. The narrative must identify the organization; how it meets the eligibility criteria; its experience and accomplishments in collecting, analyzing, and/or disseminating transportation data; and the qualifications of the principals proposed to conduct the activities. The narrative must also describe the proposed activity, including how you would accomplish it, a timeline listing major milestones associated with the project, and a list of specific products and/or services with the dates they will be delivered.

(2) *An Application for Federal Assistance*. Submit OMB SF-424 (Application for Federal Assistance), which is the official form required for all Federal grants. It requests basic information about the grantee and the proposed project. Under Part 10 of this form, use 20.920 and Transportation Statistics Research Grants for the Catalog of Federal Domestic Assistance Number and Title. Also submit OMB SF-424A (Budget Information—Nonconstruction Programs). You can download these forms from the OMB Internet site at <http://www.whitehouse.gov/omb/grants>.

(3) *An Evaluation Plan*. Include a brief description of how you will evaluate and measure the success of the project, including the anticipated benefits and challenges in completing it. This can be part of the Project Narrative.

(4) *Resumes*. Include resumes from up to three key personnel who would be significantly involved in the project.

(5) *Letters of Commitment*. If your proposal includes the significant involvement of other eligible organizations, your application must include letters of commitment from them.

IV. Application Review Process and Selection Criteria

The Transportation Statistics Research Grants program uses a competitive process and applications will be evaluated based on the merit and relevance of the proposed project in relation to the other applications received. BTS anticipates making multiple awards based on this solicitation. While BTS will select the

most meritorious proposals, we may choose to not award all available funds.

Upon receiving an application, BTS will conduct an initial review to determine if it meets the eligibility criteria and contains all of the items specified under the Application Contents section of this announcement. A BTS evaluation committee will then review each complete application from an eligible recipient using the evaluation criteria listed below (the order of criteria does not designate priority) and the BTS Director will select the final grants. The evaluation criteria are:

(1) How well does the proposal support BTS's strategic goals of improving the quality, comparability, completeness, timeliness, relevance, and utility of transportation data? How well does the proposal serve the broad transportation interests of the United States?

(2) How innovative is the proposed activity? To what extent is the work being accomplished elsewhere?

(3) How much experience has the applicant demonstrated in one or more of the following areas—collecting, analyzing, storing, or disseminating transportation data, particularly data collected or disseminated by BTS, and working with theoretical statistical issues concerning transportation data?

(4) Does the applicant have the professional qualifications and team members necessary for satisfactory performance of the proposed activity?

(5) How well does the technical approach and proposed costs reflect an understanding of the procedures

necessary to complete the required tasks?

(6) To what degree does the proposal include cost-sharing? More weight will be given to proposals with cash contributions than in-kind services. For awards of \$100,000 or more, BTS requires cash contributions of 50 percent toward the total project's cost.

V. Amount of Funds Available and Period of Support

We anticipate that approximately \$500,000 per year will be designated to support grants over the next five years, subject to the availability of appropriated funds. This estimate does not bind BTS to a specific number of offers or awards, nor to a specific amount of funding support for particular awards or awards in aggregate. It is anticipated that individual award amounts, based upon demonstrated needs, will likely range from \$50,000 to \$200,000, though BTS has not established minimum or maximum funding levels.

Given the amount of funds available, applicants are strongly encouraged to seek other funding opportunities to supplement the federal funds. Preference will be given to applicants with cost sharing proposals from within or outside their organizations.

The period of time of awards will vary with the complexity of the project and it is possible that grants will be awarded for periods greater than one year.

VI. BTS Involvement

BTS involvement, if any, will vary by award. If you anticipate BTS

involvement, you must note this in your project narrative and any support BTS provides will be specified in the award agreement. BTS will assign a liaison to serve as the primary contact regarding the grant.

VII. Terms and Conditions of Award

(1) Prior to award, each grantee will be required to complete additional government application forms, such as OMB SF-424B (Assurances—Nonconstruction Programs) and with the certification requirements of 49 CFR Part 20, Department of Transportation New Restrictions on Lobbying, and 49 CFR Part 29, Department of Transportation Government-Wide Debarment and Suspension (Non-Procurement) and Government-Wide Requirements for Drug Free Workplace (Grants).

(2) Each grantee shall submit a program implementation plan no more than one month after award. The BTS liaison will review and comment, if necessary.

(3) Each grantee shall submit quarterly progress reports, a draft final report, and a final report that reflects the BTS liaison's comments.

Thank you for your interest in our Transportation Statistics Research Grants program.

Ashish Sen,

Director.
