

first milkfat price release was published on May 11, 2001. The survey was continued but, due to the nature of milkfat pricing, it was often difficult for respondents to report in a timely manner and revisions to previous week's figures were common. Contacts with representatives from the dairy industry and other government agencies indicated that the milkfat price data were not useful to the dairy industry and were not used in making marketing or regulatory decisions. Therefore NASS will discontinue the collection of milkfat price data and the biweekly release after December 20, 2002.

Deputy Administrator for Programs and Products.

NOAA Climate and Global Change Program, Program Announcement

AGENCY: Office of Global Programs, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: This document amends a notice published in the **Federal Register** on April 8, 2002, regarding the NOAA Climate and Global Change program. This amendment is intended to show NOAA's interest in supporting new 2003 funding for the Regional Integrated Sciences and Assessments (RISA) program area and to incorporate further details of program emphasis and topic areas. Full program details can also be found in the RISA program information sheet at <http://www.ogp.noaa.gov/mpe/csi.risa/html>. Potential applicants should look at the specific wording of the initial **Federal Register** notice.

DATES: Letters of intent must be received at the Office of Global Program (OGP) no later than November 25, 2002.

Applicants who have not received a response to their letter of intent within four weeks should contact the Program Manager. Full proposals must be received at OGP no later than January 24, 2003. We anticipate that review of full proposals will occur during January and February 2003, and funding should begin during late spring of 2003 for most approved projects. Applicants should be notified of their status within three months. June 1, 2003, should be used as the proposed start date on proposals, unless otherwise directed by the Program Manager. All proposals must be submitted in accordance with the guidelines below. Failure to heed these guidelines will result in proposals being returned without review.

ADDRESSES: Letter of Intent and Proposals should be submitted to: Office of Global Programs; National Oceanic and Atmospheric Administration; 1100 Wayne Avenue, Suite 1210; Silver Spring, MD 20910-5603.

SUPPLEMENTARY DATA: This notice incorporates the OGP Program

Announcement published at 67 FR 16733 (April 8, 2002) which sets forth OGP program requirements binding upon this solicitation including the evaluation and selection process. The program description, background and requirements, as well as guidelines for applications are included in that notice and are not repeated here.

The Regional Integrated Sciences and Assessments (RISA) Program will accept applications towards the goal to support regionally focused integrated research and assessments. The program integrates climatic predictions and information within the institutional and social constraints decision makers work within. A successful research team must have as leaders scientists who have proven to be successful in their own field of research. They must be sufficiently flexible and creative enough to combine their expertise with researchers of other disciplines and decision makers to produce genuinely integrated research applicable to end users' needs. It is important that the proposal illustrates that the research: (1) Will achieve the strategic goals of the nationwide program; (2) can be completed successfully; (3) will not substantially duplicate other projects currently funded by NOAA or other federal agencies, and (4) demonstrates the proposed team has the capacity to integrate the physical and social science research around two or three tractable issues of importance to decision makers in the specified region.
