C. How and to Whom Do I Submit Comments?

To submit comments, or access the official public docket, please follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION** of the January 24, 2003 **Federal Register** document. If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. Background

On January 24, 2003, EPA, in conjunction with the Fish and Wildlife Service, U.S. Department of the Interior, and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, issued a **Federal Register** document (68 FR 3785) (FRL-7287-3) seeking public comment on an ANPR for an endangered species and pesticide regulation.

Among the comments received thus far was a request, signed by 30 groups, for an extension of the comment period by 45 days. While the agencies appreciate the need to provide adequate opportunity for public input, the agencies believe a shorter extension is warranted for several reasons. First, numerous comments were already received during the original comment period. Second, the January 24, 2003 **Federal Register** notice was an ANPR. Thus, the public will have further opportunity to comment with future publication of a notice of proposed rulemaking.

III. What Action is EPA Taking?

Since EPA has an electronic docket system that allows distribution of materials more easily to interested persons, EPA agreed to take responsibility for all of the administrative duties related to publication of the ANPR and this document, including the creation of a public docket, receipt of public comments, and other related matters. Therefore, EPA, on behalf of the three agencies, hereby reopens the comment period, which ended on March 10, 2003. The new comment period will end March 25, 2003.

IV. What is the Agency's Authority for Taking this Action?

The ANPR was issued under the authority of section 7 of the Endangered Species Act (ESA), as amended, 16 U.S.C. 1531 *et seq.*, and the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 *et seq.*

V. Do Any Statutory and Executive Order Reviews Apply to this Action?

No. This action merely extends the date by which public comments must be submitted to EPA on an ANPR that previously published in the **Federal Register** of January 24, 2003 (68 FR 3785). For information about the applicability of the regulatory assessment requirements to the ANPR, please refer to the discussion in Unit IV. of that document (68 FR 3785).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve the State plan submitted by New York State to implement and enforce the Emission Guidelines (EG) for existing small Municipal Waste Combustion (MWC) Units. New York's plan establishes emission limits and other requirements for the purpose of reducing toxic air emissions from small MWC units throughout the State. A detailed rationale for the approval is set forth in the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule.

If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. Virginia: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Virginia has applied to EPA for final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to Virginia. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we receive written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it

establishes, and we will not take further action on this proposal. If we receive comments that oppose this action, we will withdraw the immediate final rule, and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.
