

work either concurrently or within a specified reasonable period of time. The final terms agreed upon will be set forth in writing and made a part of the CA before commencement of work.

(a) *Contributed funds.* Contributed funds may be accepted, or refunded, without further reference or approval by the Chief of Engineers. The required certificate of the district commander will cite 33 U.S.C. 701h as the pertinent authority.

(b) *Obligation of contributed funds.* Per OMB Circular A-34, all contributed funds must be received in cash and deposited with the Treasury before any obligations can be made against such funds. Public Law 84-99 assistance for well construction is exempted from this requirement because financing is specifically authorized. However, the CA for such well construction assistance (see subpart G of this part) must be signed in advance of any obligations. To reduce administrative problems, CA terms for well construction should be for no longer a period than that which will allow for payments within the means of the applicant. Public Law 84-99 limits the term to a maximum of 30 years.

(c) *Provision of work or services in kind.* To the extent practicable, local interests should be allowed to minimize the amount of contributed funds by providing equivalent work or services in kind. Such services do not include LERRD's.

§ 203.85 Rehabilitation of Federal Flood Control Projects.

Some sponsors of Federal flood control projects are not required to furnish written assurances of local cooperation, when such assurances already exist from the PCA of the original construction of the project. In lieu of a new PCA, the Corps will notify the sponsor, in writing, of the sponsor's standing requirements. These requirements include such items as LERRD's, costs attributable to deficient or deferred maintenance, removal of temporary works, cost-sharing requirements, and any other requirements contained in § 203.82. The project sponsor must acknowledge its responsibilities prior to the provision of Rehabilitation Assistance. If the existing PCA does not adequately address responsibilities, then a CA will be required.

§ 203.86 Transfer of completed work to local interests.

Responsibility for operation and maintenance of a project for which emergency work under Public Law 84-99 is undertaken will always remain

with the non-Federal sponsor throughout the process, and thereafter. The Corps will notify the non-Federal sponsor by letter when repair/rehabilitation/work efforts are completed. Detailed instructions, and suggestions relative to proper maintenance and operation, may be furnished as an enclosure to this letter. The letter will remind the local interests that they are responsible for satisfactory maintenance of the flood control works in accordance with the terms of the PCA or CA. In appropriate cases for Federal projects, refer to the "Flood Control Regulation for Maintenance and Operation of Flood Control Works: (33 CFR 208)" or the project's Operation and Maintenance Manual. Reporting requirements placed on the non-Federal sponsor will vary according to organization and other circumstances.

I. Background

In 1978, EPA published final regulations at 40 CFR 52.21,

implementing the PSD program required under Part C of the Clean Air Act, 42 U.S.C. 7475-7479. See 43 FR 26403 (June 19, 1978). The PSD regulations provide authority to EPA to delegate the responsibility for conducting PSD source review to a State or local air pollution control agency. 40 CFR 52.21(u). In general, delegations are implemented through agreements between EPA Regions and state or local air pollution control agencies. These agreements are in essence contracts between the Agency and permitting agencies, setting out the responsibilities of each in carrying out the federal PSD program for that jurisdiction. The specific elements of delegation agreements vary to take into consideration particular circumstances, such as legal restrictions that may apply in a specific jurisdiction.

Pursuant to its authority under § 52.21(u), Region 9 entered into delegation agreements with the following permitting agencies on the date specified: Bay Area Air Quality Management District—April 23, 1986; Kern County Air Pollution Control District—August 12, 1999; Nevada Division of Environmental Protection—May 27, 1983; San Diego County Air Pollution Control District—November 21, 1985; Santa Barbara County Air Pollution Control District—August 21, 1985; Shasta County Air Quality Management District—July 8, 1985; South Coast Air Quality Management District—January 15, 1997; and Washoe County District Health Department—April 9, 1985. Region 9 published notices of the delegation agreements in the **Federal Register** at various dates.

On December 31, 2002, EPA published its Final Rule significantly revising 40 CFR 52.21. 67 FR 80186 (Dec. 31, 2002). The revised rules were effective on March 3, 2003.

Since publication of the revised PSD rules, Region 9 has consulted with each of the California permitting agencies that implemented 40 CFR 52.21 pursuant to a delegation agreement and with the California Air Resources Board (CARB). The permitting agencies and CARB have informed Region 9 that they are unable to implement 40 CFR 52.21 as revised without making changes to California law and/or local regulations. Region 9 has also discussed the issue with the Nevada Division of Environmental Protection, who indicated that changes to Nevada law would be necessary for either NDEP or the Washoe County District Health Department to implement the revisions to 40 CFR 52.21.

As the California and Nevada permitting agencies identified above did

not believe that their current law would allow them to implement revised 40 CFR 52.21, Region 9 will resume issuing federal PSD permits as of the date the revisions to 40 CFR 52.21 take effect. Region 9 has issued a letter to each permitting agency in the Region that is implementing 40 CFR 52.21 pursuant to a delegation agreement, advising the permitting agencies that the delegation of federal PSD permitting authority would be rescinded effective March 3, 2003. A copy of each letter rescinding the PSD delegation of authority is available for inspection and copying at the addresses provided above.

EPA's withdrawal of authority to implement the federal PSD permitting program does not affect permitting requirements under state or local law. Companies should continue to work with their state or local permitting agencies to ensure that state or local permitting requirements are met.

II. EPA Action

We have written letters rescinding the delegation agreements to implement the regulations at 40 CFR 52.21 for the following California permitting agencies: Bay Area Air Quality Management District; Kern County Air Pollution Control District; San Diego County Air Pollution Control District; Santa Barbara County Air Pollution Control District; Shasta County Air Quality Management District; and South Coast Air Quality Management District. We have written a letter rescinding the delegation agreements to implement the regulations at 40 CFR 52.21 for the following Nevada permitting agencies: Nevada Division of Environmental Protection; Washoe County District Health Department.
