

burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Maintenance Wage Rate Recommendation, Certification and Survey.

OMB Control Number, if applicable: None.

Description of the need for the information and proposed use: Public housing agencies (PHAs) and Tribally-Designated Housing Entities (TDHEs) are required to ensure that maintenance laborers and mechanics are paid no less than prevailing wages that are determined or adopted by HUD (section 12(a), U.S. Housing Act of 1937, as amended; section 104(b), Native American Housing Assistance and Self-Determination Act of 1996, as amended). Except that, TDHEs may, at their discretion, implement tribally-determined prevailing maintenance wage rates which would apply in place

of HUD-determined or -adopted wage rates.

HUD determines or adopts a schedule of prevailing maintenance wage rates for each PHA and TDHE (except for those TDHEs that implement tribally-determined prevailing wage rates), annually, coinciding with the agency's fiscal year. In order to ensure that the wage rates are reflective of current economic conditions, HUD requests each PHA and TDHE to submit a recommendation of prevailing wage rates for HUD consideration. PHA and TDHE recommendations may be based on a wide variety of economic indicators including, at the discretion of the PHA or TDHE, the results of a wage survey that the PHA or TDHE may conduct of maintenance employers in their operating jurisdiction. In addition, HUD may conduct a maintenance wage rate survey in the absence of a PHA/ TDHE recommendation or to evaluate a recommendation that has been provided by a PHA or TDHE.

In order to assist PHAs and TDHEs to submit prevailing wage recommendations and, if they choose, to conduct and evaluate the results of a maintenance wage survey, and to assist

HUD personnel in the conduct and evaluation of a maintenance wage survey, HUD proposes to institute three forms: a Maintenance Wage Rate Recommendation and Certification; a Maintenance Wage Rate Survey Summary; and a Survey of Maintenance Wage Rates. PHA or TDHE submission of a recommendation is highly encouraged by HUD. In the absence of an agency recommendation, HUD will issue a prevailing wage rate schedule based upon its own actions which may include a maintenance wage survey conducted by HUD. Participation in any maintenance wage survey conducted by a PHA, TDHE or HUD, is voluntary on the part of maintenance employers. Maintenance wage rate recommendations, survey summaries and survey responses must be retained by PHAs, TDHEs and HUD to document compliance with the statutory labor standards provisions.

Agency form numbers, if applicable: To be assigned.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

Item	Number of respondents	Amount of time required (hours)	Total time required/annum (hours)
Maintenance Wage Rate Recommendation	3,240	4	12,960
Survey Summary	1,640	4	6,560
Survey Form Agency Evaluation	41,000	8	328,000
Survey Form Employer Response	41,000	4	164,000
Record Keeping	3,240	1	3,240
Total Annual Burden			514,760

Status of the proposed information collection: Existing collection in use without an OMB control number.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 9, 2003.

BILLING CODE 4210–72–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 5-Year Review of the Marbled Murrelet and the Northern Spotted Owl

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of review.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce a 5-year review of the marbled murrelet (*Brachyramphus marmoratus*) and the northern spotted owl (*Strix occidentalis caurina*) under section 4(c)(2)(A) of the Endangered Species Act of 1973, as amended (Act). The purpose of the review is to ensure that the classification of species' as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (List) are accurate.

The 5-year review is an assessment of the best scientific and commercial data available at the time of the review. Therefore, we are requesting submission

of any new information (best scientific and commercial data) on the marbled murrelet and the northern spotted owl since their original listings in 1992 and 1990, respectively. If the present classification of these species is not consistent with the best scientific and commercial information available, we may, at the conclusion of this review, initiate a separate action to propose changes to the List accordingly.

DATES: To allow us adequate time to conduct this review, we must receive your information no later than June 20, 2003. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: Submit information to the Field Office Supervisor, Attention Owl and Murrelet 5-year Review, Oregon Fish and Wildlife Office, 2600 SE. 98th Avenue, Suite 100, Portland, Oregon 97266. Information received in response to this notice and review results will be available for public inspection by appointment, during normal business hours, at the above address. New information regarding the northern spotted owl may be sent electronically to owl_information@r1.fws.gov. New information regarding the marbled murrelet may be sent electronically to murrelet_information@r1.fws.gov.

FOR FURTHER INFORMATION CONTACT: For the marbled murrelet, contact Lee Folliard at the above address, or at 503/231–6179. For the northern spotted owl, contact Robin Bown at the above address, or at 503/231–6179.

SUPPLEMENTARY INFORMATION:

Why Is a 5-year Review Conducted?

Section 4(c)(2)(A) of the Act requires that we conduct a review of listed

species at least once every 5 years. We are then, under section 4(c)(2)(B) and the provisions of subsection (a) and (b), to determine, on the basis of such a review, whether or not any species should be removed from the List (delisted), or reclassified from endangered to threatened, or threatened to endangered. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the marbled murrelet and northern spotted owl.

The 5-year review considers all new information available at the time of the review. This review will consider the best scientific and commercial data that has become available since the current listing determination or most recent status review, such as:

A. Species biology including, but not limited to, population trends, distribution, abundance, and demographics, and genetics;

B. Habitat conditions including, but not limited to, amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends (see five factors under heading “How do we determine whether a species is endangered or threatened?”);

E. Other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.
