SUPPLEMENTARY INFORMATION:

Background

Land exchanges are discretionary, voluntary, real estate transactions between the Secretary of Agriculture, acting by and through the Forest Service, and a non-Federal exchange party. Land exchanges can be initiated by any non-Federal party including a landowner, an agent of a landowner, a third party, or a non-Federal public agency.

Each land exchange requires preparation of an Agreement to Initiate in accordance with Title 36, Code of Federal Regulations (CFR), section 254.4. The Agreement to Initiate can contain such information as

the description of properties being considered in the land exchange, an implementation schedule of action items, identification of the party responsible for each action item, as well as target dates for completion of each action item.

As the exchange proposal develops, the Forest Service and the non-Federal land exchange party may enter into a binding Exchange Agreement pursuant to 36 CFR 254.14. The Exchange Agreement documents the conditions, which must be met to complete the exchange and can contain such information as identification of the parties, description of the lands and interests to be exchanged, identification of all reserved and outstanding interests, and all other terms and conditions necessary to complete an exchange.

The Forest Service collects the information from the non-Federal party in order to complete the Agreement to Initiate and the Exchange Agreement. Data from this information collection can be unique to each land exchange and is not available from other sources.

Medicine Bow-Routt National Forests and Thunder Basin National Grassland Carbon County, WY, Blackhall-McAnulty Timber Sale, Prescribed Burn and Travel Management

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The Forest Service will prepare an Environmental Impact Statement (EIS) to analyze and disclose the environmental effects of a site-specific proposal to reduce the spread of dwarf mistletoe and mountain pine beetle in area lodgepole pine stands, increase patch size of forested areas that have had past harvest, improve resiliency and reduce susceptibility to future disease and insect attack, salvage fire damaged trees, and promote and maintain area aspen and ponderosa pine stands within the Blackhall-McAnulty Analysis Area of the Brush Creek/Hayden Ranger District of the Medicine Bow-Routt National Forests within Carbon County, Wyoming, using a combination of clearcutting and partial harvest treatments.

The proposal also includes: prescribed fire to improve forage for big game and livestock, boundary treatments to reduce hazardous fuels on National Forest adjacent to private land, watershed restoration projects, improvement of the Big Creek Trailhead, and travel management within this portion of the Sierra Madre Range.

DATES: The draft environmental impact statement is expected to be filed with the Environmental Protection Agency (EPA) and available for public review during August 2003. At that time, the EPA will publish a Notice of Availability (NOA) of the draft EIA in the **Federal Register**. The comment period on the draft EIS will be for a period of not less than 45 days from the date the EPA publishes the NOA in the **Federal Register**. It is important that those interested in the management of this area comment at that time.

The final EIS is expected to be available in November 2003. In the final EIS, the Forest Service will respond to any comments received during the public comment period that pertain to the environmental analysis. Those comments and the Forest Service responses will be disclosed and discussed in the final EIS and will be considered when the final decision about this proposal is made.

Proposed Action

The proposed action includes commercial timber sales, mountain pine beetle treatments, prescribed fire, hazardous fuels reduction adjacent to private land, precommercial thinning, travel management, trailhead improvement, and watershed restoration.

Possible Alternatives

1. No action
2. Proposed Action with less road decommissioning
3. No clearcutting
4. Watershed restoration only
