SUPPLEMENTARY INFORMATION

Title: Marketing Order Regulating the Handling of Spearmint Oil Produced in the Far West, M.O. No. 985.

OMB Number: 0581-0065.

Expiration Date of Approval: February 29, 2004.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: Marketing order programs provide an opportunity for producers of fresh fruits, vegetables and specialty crops, in a specified production area, to work together to solve marketing

problems that cannot be solved individually. Order regulations help ensure adequate supplies of high quality product and adequate returns to producers. Under the Agricultural Marketing Agreement Act of 1937 (Act), as amended (7 U.S.C. 601-674), industries enter into marketing order programs. The Secretary of Agriculture is authorized to oversee the order operations and issue regulations recommended by a committee of representatives from each commodity industry.

The information collection requirements in this request are essential to carry out the intent of the Act and to administer the program, which has operated since 1980.

The Far West spearmint marketing order regulates the handling of spearmint oil produced in the Far West (Washington, Idaho, Oregon, and designated parts of Nevada and Utah), hereinafter referred to as the "order." The order authorizes the issuance of allotment provisions for producers and regulates the quantities of spearmint oil handled. The order also has research and development authority.

The order, and rules and regulations issued thereunder, authorize the Spearmint Oil Administrative Committee (Committee), the agency responsible for local administration of the order, to require handlers and producers to submit certain information regarding spearmint production. Much of this information is compiled in aggregate and provided to the industry to assist in marketing decisions. Forms are utilized throughout the year. The marketing year for the order is June 1 through May 31, with production occurring in the months of June through September.

The Committee has developed forms which must be filed by handlers to provide information to the Committee relating to spearmint production volume, shipments, dispositions, and other information as may be needed to effectively carry out the purpose of the Act and order. Producers also provide certain production information to the Committee. Another form must be submitted to the Secretary by each nominee who wishes to serve on the Committee. The nominee would provide information showing why he or she is qualified to serve on the Committee. Two ballot forms may be used in referenda conducted by the Secretary. One would ascertain whether producers support continuation of the order. Another ballot may be used to determine whether producers support amendments to the order. If the order is amended, handlers would be asked to
