

The Secretary of Labor has interpreted the above sections of federal law in Section 7511, Part V, ES Manual to further require a state's UI law to include provisions for such methods of administration as are, within reason, calculated (1) to detect benefits paid through error by the State Workforce Agency (SWA) or through willful misrepresentation or error by the claimant or others, (2) to deter claimants from obtaining benefits through willful misrepresentation, and (3) to recover benefits overpaid. The ETA 227 is used to determine whether SWAs meet these requirements of the Secretary of Labor's interpretation of the federal laws.

The ETA-227 contains data on the number and amounts of fraud and nonfraud overpayments established, the methods by which overpayments were detected, the amounts and methods by which overpayments were collected, the amounts of overpayments waived and written off, the accounts receivable for overpayments outstanding, and data on criminal/civil actions. These data are gathered by 53 SWAs and reported to the Department of Labor following the end of each calendar quarter. The overall effectiveness of SWAs' UI integrity efforts can be determined by examining and analyzing the data.

These data are also used by SWAs as a management tool for effective UI program administration.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The UI program paid approximately \$42 billion in benefits in 2002. Although the overpayment rate is

relatively low (less than one percent), high amounts of money are involved, and it is in the national interest to maintain the program's integrity. Therefore, we are proposing to extend the authorization to continue collecting data to measure the effectiveness of the benefit payment control programs in the SWAs.

Type of Review: Extension.

Agency: Employment and Training Administration.

Title: Overpayment Detection and Recovery Activities.

OMB Number: 1205-0173.

Agency Number: ETA-227.

Record Keeping: State agencies are required to maintain all documentation supporting the information reported on the ETA-227 for three years following the end of each report period.

Affected Public: State Government.

Cite/Reference/Form/etc: Form.

Total Respondents: 53 state agencies.

Frequency: Quarterly.

Total Responses: 212.

Average Time per Response: 14 hours.

Estimated Total Burden Hours: 2968.

Total Burden Cost (operating/maintaining): \$0.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: August 21, 2003.

DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Collection of the ETA 205, Preliminary Estimates of Average Employer Contribution Rates; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on a proposed continuance for a collection of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired

format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension of the ETA 205, Preliminary Estimates of Average Employer Contribution Rates. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before October 28, 2003.

ADDRESSES: Thomas Stengle, Office of Workforce Security, Employment and Training Administration, U.S. Department of Labor, Room S-4231, 200 Constitution Avenue, NW., Washington, DC 20210; telephone number (202) 693-2991; fax: (202) 693-3229 (these are not toll-free numbers) or e-mail stengle.thomas@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

The ETA 205 reports preliminary information on the taxation efforts in States relative to taxable and total wages and allows for comparison among states. The information is used for projecting unemployment insurance tax revenues for the Federal budget process as well as for actuarial analyses of the Unemployment Trust Fund. The data is published in several forms and is often requested by data users. In addition, this report helps to fulfill two statutory requirements. Section 3302(d)(7) of the Federal Unemployment Tax Act (FUTA) requires the Secretary of Labor to notify "the Secretary of the Treasury before June 1 of each year, on the basis of a report furnished by such state to the Secretary of Labor before May 1 of such year" of the difference between the average tax rate in a state and the 2.7 percent (*i.e.* section 3302(c)(2)(B) or (C)). These differences are used to calculate the loss of FUTA offset credit for borrowing states. In addition, the tax schedules are used to assure that states are in compliance with provisions of the Tax Equity and Fiscal Responsibility Act (Pub. L. 97-248), section 281.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

Type of Review: Extension.

Agency: Employment and Training Administration.

Title: Preliminary Estimates of Average Employer Contribution Rates.

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Employment Standards Administration; Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of labor are issued in accordance with applicable law and are based on the information obtained by the Department of labor from its study of local wage conditions and data made

available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by

contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Modification to General Wage Determination Decisions

The number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.
