

increased mental health capacity at Hch sites; less redundancy in data collection;

and enhanced screening for multi-dimensional issues.

The estimated response burden for this project is as follows:

Instrument	Number of responses	Responses/ respondent	Burden/re- sponse (Hrs.)	Total burden hours
Administrative Interviews	24	3	1.5	108
Evaluator Interviews	12	3	1.0	36
Line Staff Interviews	48	3	1.0	144
Consumer Focus Groups	84	3	1.0	252
Other Key Informants	48	3	1.0	144
Activity Logs	12	10	2.0	240
Total	228	924
3-yr. Annual Average	228	308

A total of approximately 6,500 program participants are expected to be recruited from the 12 sites. Each site will collect GPRA data on these participants using the CMHS GPRA Core Client Outcome measures approved by the Office of Management and Budget under control number 0930-0208, which cover such domains as drug and alcohol use, family and living conditions, education, employment, and income, crime and criminal justice status, and mental and physical health problems and treatment. To obtain information on client-level outcomes the central Evaluation Center will work with each site to develop methods for obtaining relevant material from the GPRA data. It is expected that client-level data will be submitted to the Evaluation Center via electronic means. The Evaluation Center will provide training and technical assistance to all sites on data submission procedures.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services notifies Federal agencies of the laboratories currently certified to meet standards of Subpart C of Mandatory Guidelines for Federal Workplace Drug Testing Programs (59 FR 29916, 29925). A notice listing all currently certified laboratories is published in the **Federal Register** during the first week of each month. If any laboratory's certification is suspended or revoked, the laboratory will be omitted from subsequent lists until such time as it is restored to full certification under the Guidelines.

If any laboratory has withdrawn from the National Laboratory Certification Program during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the internet at the following websites: <http://workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersch or Dr. Walter Vogl, Division of Workplace Programs, 5600 Fishers Lane, Rockwall 2 Building, Room 815, Rockville, Maryland 20857; Tel.: (301) 443-6014, Fax: (301) 443-3031.

SUPPLEMENTARY INFORMATION:

Mandatory Guidelines for Federal Workplace Drug Testing were developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. Subpart C of the Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards which laboratories must meet in order to conduct urine drug testing for Federal agencies. To become certified an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection.

To maintain that certification a laboratory must participate in a quarterly performance testing program plus periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements expressed in the HHS Guidelines. A laboratory must have its letter of certification from SAMHSA, HHS (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Guidelines, the following laboratories meet the minimum standards set forth in the Guidelines:

ACL Laboratories, 8901 W. Lincoln Ave., West Allis, WI 53227, 414-328-7840/800-877-7016 (Formerly: Bayshore Clinical Laboratory).

American Medical Laboratories, Inc., 14225 Newbrook Dr., Chantilly, VA 20151, 703-802-6900.

*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (**Federal Register**, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 **Federal Register**, 9 June 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

Executive Officer, SAMHSA.

SUPPLEMENTARY INFORMATION:

Background

On March 16, 1934, Congress passed and President Franklin Roosevelt signed the Migratory Bird Hunting Stamp Act. Popularly known as the Duck Stamp Act, it required all waterfowl hunters 16 years or older to buy a stamp annually. The revenue generated was originally earmarked for the Department of Agriculture, but 5 years later was transferred to the Department of the Interior and the Fish and Wildlife Service to buy or lease waterfowl sanctuaries.

In the years since its enactment, the Federal Duck Stamp Program has become one of the most popular and successful conservation programs ever initiated. Today, some 1.6 million stamps are sold each year, and, as of 2002, Federal Duck Stamps have generated more than \$600 million for the preservation of more than 5 million acres of waterfowl habitat in the United States. Numerous other birds, mammals, fish, reptiles and amphibians have similarly prospered because of habitat protection made possible by the program. An estimated one-third of the Nation's endangered and threatened species find food or shelter in refuges preserved by Duck Stamp funds. Moreover, the protected wetlands help dissipate storms, purify water supplies, store flood water, and nourish fish hatchlings important for sport and commercial fishermen.

The Contest

The first Federal Duck Stamp was designed, at President Franklin Roosevelt's request, by Jay N. "Ding" Darling, a nationally known political cartoonist for the *Des Moines Register*

and a noted hunter and wildlife conservationist. In subsequent years, noted wildlife artists were asked to submit designs. The first contest was opened in 1949 to any U.S. artist who wished to enter, and 65 artists submitted a total of 88 design entries in the only art competition of its kind sponsored by the U.S. Government. To select each year's design, a panel of noted art, waterfowl, and philatelic authorities are appointed by the Secretary of the Interior. Winners receive no compensation for the work, except a pane of their stamps, but winners may sell prints of their designs, which are sought by hunters, conservationists, and art collectors.

The public may view the 2003 Federal Duck Stamp Contest entries on Monday, November 3, 2003, from 10 a.m. to 2 p.m. in the Department of the Interior Auditorium ("C" Street entrance), 1849 C Street, NW., Washington, DC. This year's judging will be held Tuesday, November 4, 2003, beginning at 10:30 a.m. and continuing at 9 a.m. on Wednesday, November 5, 2003.

Dated: January 26, 2003.
