**INTERNATIONAL TRADE
COMMISSION**

[Investigation No. TA-421-4]

**Certain Ductile Iron Waterworks
Fittings From China**

AGENCY: United States International
Trade Commission.

ACTION: Institution and scheduling of an
investigation under section 421(b) of the
Trade Act of 1974 (19 U.S.C. 2451(b))
(the Act).

SUMMARY: Following receipt of a
petition, on September 5, 2003, on
behalf of McWane, Inc.,¹ Birmingham,
AL, the Commission instituted
investigation No. TA-421-4, Certain
Ductile Iron Waterworks Fittings from
China, under section 421(b) of the Act
to determine whether certain ductile
iron waterworks fittings² from China
are being imported into the United
States in such increased quantities or
under such conditions as to cause or
threaten to cause market disruption to
the domestic producers of like or
directly competitive products. The
petition also alleges under section 421(i)
of the Act that critical circumstances
exist with respect to the subject
products and requests that provisional
relief be provided. Accordingly, the
Commission will determine whether
delay in taking action would cause
damage to the relevant domestic
industry which would be difficult to
repair, and if that determination is
affirmative, make a preliminary
determination of whether imports of
certain ductile iron waterworks fittings

¹ McWane operates three subsidiaries that
produce the subject products including: Clow Water
Systems Co., Coshocton, OH; Tyler Pipe Co., Tyler,
TX; and Union Foundry Co., Anniston, AL.

² The products subject to this investigation are
cast pipe or tube fittings of ductile iron (containing
2.5 percent carbon and over 0.02 percent
magnesium or magnesium and cerium, by weight)
with mechanical, push-on (rubber compression) or
flanged joints attached. Ductile iron waterworks
fittings are used to join pipes, valves, and hydrants
in straight lines or to change, divert, divide, or
direct the flow of water or sewage in municipal
utility and industrial piping systems. Included
within this definition are fittings of all nominal
diameters and of both full-bodied and compact
designs.

The imported products are provided for in
statistical reporting number 7307.19.3070 of the
Harmonized Tariff Schedule of the United States
(HTS). Although the HTS category is provided for
convenience and Customs purposes, the written
description of the merchandise under investigation
is dispositive.
