

organic production and to advise the Secretary on other aspects of the implementation of the OFPA. The NOSB met for the first time in Washington, DC, in March 1992, and currently has six committees working on various aspects of the organic program. The committees are: Compliance, Accreditation, and Certification; Crops; Livestock; Materials; Handling; and Policy Development.

In August of 1994, the NOSB provided its initial recommendations for the National Organic Program (NOP) to the Secretary of Agriculture. Since that time, the NOSB has submitted 50 addenda to its recommendations and reviewed more than 256 substances for inclusion on the National List of Allowed and Prohibited Substances. The last meeting of the NOSB was held on May 13–14, 2003, in Austin, Texas.

The Department of Agriculture (USDA) published its final National Organic Program regulation in the **Federal Register** on December 21, 2000 (65 FR 80548). The rule became effective April 21, 2001.

The principal purposes of the meeting are to provide an opportunity for the NOSB to hear a presentation from FDA on their substance approval process for livestock; to hear recommendations from contractors, past and present, for enhancing petitions for the addition or removal of substances from the National List and for enhancing the statement of work between contractors and USDA; receive public comment regarding what constitutes compatibility/consistency with a system of sustainable agriculture/organic production and handling relative to substance review and evaluations; to develop a statement for public distribution on what constitutes compatibility/consistency with a system of sustainable agriculture/organic production and handling relative to substance review and evaluations; and finally to document and clarify, for the NOP, substance recommendations from the May 2003 NOSB meeting in Austin, Texas.

For further information, see <http://www.ams.usda.gov/nop>. Copies of the NOSB meeting agenda can be requested from Ms. Katherine Benham by telephone at (202) 205–7806; or by accessing the NOP Web site at <http://www.ams.usda.gov/nop>.

The meeting is open to the public. The NOSB has scheduled time for public input on Thursday, October 23, 2003, 8 a.m. to 12 p.m., for individuals to speak on the issue of what constitutes compatibility/consistency with a system of sustainable agriculture/organic production and handling. Individuals

and organizations wishing to make an oral presentation at the meeting may forward their request by facsimile to Ms. Katherine Benham at (202) 205–7808. While persons wishing to make a presentation may sign up at the door, advance registration will ensure that a person has the opportunity to speak during the allotted time period and will help the NOSB to better manage the meeting and to accomplish its agenda. Individuals or organizations will be given approximately 5 minutes to present their views. All persons making an oral presentation are requested to provide their comments in writing. Written submissions may contain information other than that presented at the oral presentation.

Written comments may also be submitted at the meeting. Persons submitting written comments at the meeting are asked to provide 30 copies.

Interested persons may visit the NOSB portion of the NOP Web site <http://www.ams.usda.gov/nop> to view available documents prior to the meeting. Approximately 6 weeks following the meeting interested persons will be able to visit the NOSB portion of the NOP Web site to view documents from the meeting.

Dated: October 1, 2003.

Forest Service

Newspapers Used for Publication of Legal Notices by the Intermountain Region; Utah, Idaho, Nevada, and Wyoming

AGENCY: Forest Service, USDA.

ACTION: Notice.

SUMMARY: This notice lists the newspapers that will be used by the ranger districts, forests and regional office of the Intermountain Region to publish legal notices required under 36 CFR part S. 215 and 217. The intended effect of this action is to inform interested members of the public which newspapers the Forest Service will use to publish notices of proposed actions and notices of decision. This will provide the public with constructive notice of Forest Service proposals and decisions, provide information on the procedures to comment or appeal, and establish the date that the Forest Service

will use to determine if comments or appeals were timely.

DATES: Publication of legal notices in the listed newspapers will begin on or after October 1, 2003. The list of newspapers will remain in effect until April 1, 2004, when another notice will be published in **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Priscilla McLain, Regional Appeals Coordinator, Intermountain Region, 324 25th Street, Ogden, UT 84401, and phone (801) 625–5146.

SUPPLEMENTARY INFORMATION: The administrative procedures at 36 CFR parts 215 and 217 require the Forest Service to publish notices in a newspaper of general circulation. The content of the notices is specified in 36 CFR part 215 and 217. In general, the notices will identify: the decision or project, by title or subject matter; the name and title of the official making the decision; how to obtain additional information; and where and how to file comments or appeals. The date the notice is published will be used to establish the official date for the beginning of the comment or appeal period. The newspapers to be used are as follows:

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Sunshine Act Meeting

In connection with its investigation into a violent explosion that occurred in a chemical distillation tower at First Chemical Corporation in Pascagoula, Mississippi, on October 13, 2002, the United States Chemical Safety and Hazard Investigation Board announces that it will convene a Public Meeting beginning at 9:30 am Eastern Standard time on October 15, at the LaFont Inn, Highway 90, Pascagoula, Mississippi 39595.

The explosion occurred in a chemical distillation tower, sending heavy debris over a wide area. No one was seriously injured or killed in the incident, which occurred early on a Sunday morning. One nitrotoluene storage tank at the site was punctured by explosion debris, igniting a fire that burned for several hours. Three out of the 23 workers on site at the time of the incident received minor injuries, and nearby residents were temporarily sheltered in place. A producer of aniline and nitrotoluene derivatives and intermediates, First Chemical Corp. is a subsidiary of ChemFirst Inc., which was acquired by Dupont after the accident.

At the meeting CSB staff will present to the Board the results of their investigation into this incident, including an analysis of the incident together with a discussion of the key findings, root and contributing causes, and draft recommendations.

Recommendations are issued by a vote of the Board and address an identified safety deficiency uncovered during the investigation, and specify how to correct the situation. Safety recommendations are the primary tool used by the Board to motivate implementation of safety improvements and prevent future incidents. The CSB uses its unique independent accident investigation perspective to identify trends or issues that might otherwise be overlooked. CSB recommendations may be directed to corporations, trade associations, government entities, safety organizations, labor unions and others.

After the staff presentation, the Board will allow a time for public comment. Following the conclusion of the public comment period, the Board will consider whether to vote to approve the final report and recommendations. When a report and its recommendations are approved, this will begin CSB's process for disseminating the findings and recommendations of the report not only to the recipients of recommendations but also to other public and industry sectors. The CSB believes that this process will ultimately lead to the adoption of recommendations and the growing body of safety knowledge in the industry, which, in turn, should save future lives and property.

All staff presentations are preliminary and are intended solely to allow the Board to consider in a public forum the issues and factors involved in this case. No factual analyses, conclusions or findings should be considered final. Only after the Board has considered the staff presentation and approved the staff report will there be an approved final record of this incident.
