Background

On July 2, 2003, the Department of Commerce (the Department) published a notice of opportunity to request an administrative review of the antidumping duty order on industrial nitrocellulose from the United Kingdom covering the period July 1, 2002 through June 30, 2003 (68 FR 39511, 39512).

On August 19, 2003, pursuant to a request by the petitioner, Green Tree Chemical Technologies, Inc. (Green Tree), the Department initiated an administrative review of Imperial Chemical Industries PLC (ICI) and Troon Investments Limited (TIL), which are subject to the antidumping duty order on industrial nitrocellulose from the United Kingdom, for the period July 1, 2002 through June 30, 2003. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 68 FR 50750, 50752 (August 22, 2003). On October 31, 2003, Green Tree withdrew its request for an administrative review of ICI and TIL.

SUPPLEMENTARY INFORMATION:

I. Abstract

The respondents will be commercial fishing industry individuals, partnerships, and corporations that want to enter into Capital Construction Fund agreements with the Secretary of Commerce. Such agreements allow deferral of Federal taxation on fishing vessel income deposited into a fund for the respondent for use in the acquisition, construction, or reconstruction of a fishing vessel. Deferred taxes are recaptured by reducing an agreement vessel's basis for depreciation by the amount withdrawn from the fund for its acquisition, construction, or reconstruction. The information collected from agreement holders is used to determine their eligibility to participate in the Capital Construction Fund Program pursuant to 50 CFR part 259.

At the completion of the construction/reconstruction, a certificate to that effect must be submitted.

II. Method of Collection

The information will be collected on forms: the Fishing Vessel Capital Construction Fund Application, the Interim Capital Construction Fund Agreement, and the Certificate of Construction/Reconstruction.

OMB Number: 0648-0090.

Form Number: NOAA Form 88-14.

SUPPLEMENTARY INFORMATION:

I. Abstract

Owners of vessels that fish for tuna in the eastern Pacific Ocean (bounded by the coast of the Americas, 40° N. lat., 40° S. lat., and 150° W. long.) were required to submit information about their fishing vessels in 2000 so that the United States could provide information for a vessel register being compiled under the terms of an Inter-American Tropical Tuna Commission (IATTC) recommendation approved by the Department of State under the Tuna Conventions Act. The National Marine Fisheries Service used existing sources of information to obtain most of the information needed, but vessel owners were required to provide some information as well as a picture of the vessel with its registration number showing. The vessel register is needed to support uniform monitoring of compliance with IATTC conservation and management recommendations that are implemented by member governments, including the United States. Once the initial information was provided, the only reporting requirement was to report changes in vessel characteristics, ownership or other information on the form. It is estimated that no more than 30 vessel owners would be subject to this requirement in any year. In addition, it is estimated that 20 reports will be needed annually for new vessels to be placed on the register.

II. Method of Collection

Paper forms and pictures are submitted.

III. Data

OMB Number: 0648-0431.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 50.

Estimated Time Per Response: 1 hour for taking, developing, and mailing vessel picture. Other burden varies from 5-20 minutes depending on the existing data sets available from other sources for different fleets or fleet segments. The estimated average burden for reporting information changes or for reports for new vessels is 20 minutes.

Estimated Total Annual Burden Hours: 47.

Estimated Total Annual Cost to Public: \$350.
