

indicates that the human remains are Native American.

The map "Indian Land Areas Judicially Established 1978" includes the eastern Colorado counties of Pueblo, El Paso, Fremont, Lincoln, and Elbert in the land aboriginally occupied by the Cheyenne and Arapaho tribes. The Colorado Office of Archaeology and Historic Preservation map "Estimated Tribal Territories in Colorado During the Late Nineteenth Century" shows the presence of the Apache, Arapaho, Cheyenne, Comanche, and Kiowa in all of eastern Colorado. The Southern Ute Indian Tribe map "Original Ute Domain" includes El Paso, Pueblo, Fremont, Las Animas, Lincoln, and Elbert Counties as a part of the original domain of the Ute. Official tribal representatives provided folklore, oral tradition, geographical, and historical evidence of cultural affiliation, all of which indicated that eastern Colorado is a part of their traditional territory.

Officials of The Colorado College have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains listed above represent the physical remains of eight individuals of Native American ancestry. Officials of The Colorado College also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Apache Tribe of Oklahoma; Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Joyce Eastburg, Legal Assistant, The Colorado College, 14 East Cache La Poudre Street, Colorado Springs, CO 80903, telephone (719) 389–6703, before December 26, 2003. Repatriation of the human remains to the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado may proceed after that date if no additional claimants come forward.

The Colorado College is responsible for notifying the Apache Tribe of Oklahoma; Arapahoe Tribe of the Wind

River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah that this notice has been published.

Dated: October 28, 2003.

### National Park Service

#### Notice of Inventory Completion: The Colorado College, Colorado Springs, CO

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of The Colorado College, Colorado Springs, CO. The human remains were removed from Cimarron County, OK, and Baca County, CO.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by The Colorado College professional staff in consultation with representatives of the Apache Tribe of Oklahoma; Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Northern Cheyenne Tribe of the

Northern Cheyenne Indian Reservation, Montana; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah.

In October 1973, human remains representing one individual were removed from site 34CI267, feature NCE3 RS2, Cimarron County, OK, by archeology field school students under the direction of Professor Michael Nowak of The Colorado College Anthropology Department. The burial had been disturbed prior to discovery. The human remains were curated in the Anthropology Department Archaeology Laboratory in Palmer Hall and transferred in 1989 to the Biological Anthropology Research Laboratory of Barnes Science Center (Accession no. 1980.2.1). No known individuals were identified. No associated funerary objects are present. Cranial morphology indicates that the human remains are Native American.

In October 1979, human remains representing one individual were removed from site 5BA317, Baca County, CO, by archeology field school students under the direction of Professor Michael Nowak. The human remains were curated in The Colorado College Anthropology Department Archaeology Laboratory in Palmer Hall and were transferred in 1989 to the Biological Anthropology Research Laboratory of Barnes Science Center (Accession no. 1980.2.2). No known individuals were identified. No associated funerary objects are present. Cranial morphology indicates that the human remains are Native American.

The map "Indian Land Areas Judicially Established 1978" indicates that Cimarron County, OK, and Baca County, CO, were aboriginally occupied by the Apache, Comanche, and Kiowa tribes. The map "Early Indian Tribes, Culture Areas, and Linguistic Stocks" establishes the presence of the Kiowa in Cimarron and Baca Counties at the time of contact. The Southern Ute Indian Tribe map "Original Ute Domain" includes Cimarron and Baca Counties as a part of the hunting ground of the Ute, but Mr. Neil Cloud, NAGPRA representative, Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado stated that the area is too far east. Official tribal representatives from the Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; and Mescalero Apache Tribe of the Mescalero Reservation, New Mexico provided folklore, oral tradition, geographical, and historical evidence of cultural affiliation, all of which

indicated that Cimarron County, OK, and Baca County, CO, are part of their traditional territory.

Officials of The Colorado College have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains described above represent the physical remains of two individuals of Native American ancestry. Officials of The Colorado College also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Apache Tribe of Oklahoma; Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; and Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Joyce Eastburg, Legal Assistant, The Colorado College, 14 East Cache La Poudre Street, Colorado Springs, CO 80903, telephone (719) 389–6703, before December 26, 2003. Repatriation of the human remains to the Apache Tribe of Oklahoma; Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; and Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana may proceed after that date if no additional claimants come forward.

The Colorado College is responsible for notifying the Apache Tribe of Oklahoma; Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Nation, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah that this notice has been published.

Dated: October 28, 2003.

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Notice of Inventory Completion: Denver Art Museum, Denver, CO

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of Native American associated funerary objects in the possession of the Denver Art Museum, Denver, CO. The associated funerary objects were removed from an unidentified location in Arizona.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the associated funerary objects was made by Denver Art Museum professional staff in consultation with representatives of the Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico.

At an unknown date prior to 1972, one ceramic jar and six shell fragments were acquired by Ralph Ray of Wheatridge, CO. The ceramic jar is buff in color and made of micaceous clay. It measures 16.4 cm high and 17.3 cm in diameter and features one loop handle on the rim. The ceramic jar is similar to plainware types typically found at Hohokam sites in Arizona. The shell fragments represent as many as three different types of Glycymeris. The ceramic jar and shell fragments were donated to the Denver Art Museum in 1972. According to Denver Art Museum documentation, the jar originally held cremated human remains. No evidence

shows that the human remains were ever accessioned by the Denver Art Museum. A rattlesnake rattle found inside the jar is thought to have been added after the jar was acquired by the Denver Art Museum.

Archeological evidence has demonstrated that pit or urn cremations were the predominant Hohokam burial practice prior to A.D. 1100. Extended supine inhumations then became more prevalent, completely replacing cremations by A.D. 1300. Officials of the Denver Art Museum recognize that while ceramic jars and shells had other uses within Hohokam culture, the assembly of this particular ceramic jar and shell fragments was made exclusively for burial purposes.

Archeological evidence has demonstrated a strong relationship of shared group identity between the Hohokam and the present-day O'odham (Pima and Papago) and Hopi. The O'odham people are currently represented by the Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and Tohono O'odham Nation of Arizona. In 1990, representatives of the Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and Tohono O'odham Nation of Arizona issued a joint policy statement claiming ancestral ties to the Hohokam cultural traditions.

Hopi oral tradition places the origins of their Patki, Sun, Sand, Corn, and Tobacco Clans south of the Colorado plateau. While the Hopi oral traditions do not identify specific locations, some of the descriptions are consistent with Hohokam settlements in central Arizona during the Classic period. O'odham oral traditions indicate that some of the Hohokam people migrated north and joined the Hopi. In 1994, representatives of the Hopi Tribe of Arizona issued a statement claiming cultural affiliation with Hohokam cultural traditions.

Zuni oral traditions mention Hawikuh, a Zuni community, as a destination of settlers from the Hohokam area. Zuni language, prayers, and rituals used by the Zuni Shu maakwe medicine society have descended from the Hohokam. In 1995, representatives of the Zuni Tribe of the Zuni Reservation, New Mexico issued a statement claiming cultural affiliation with the Hohokam cultural traditions.
