

are in place, the Board anticipates that no additional burden will be imposed as a result of this rulemaking.

12 CFR Chapter II

List of Subjects in 12 CFR Part 229

Banks, Banking, Federal Reserve System, Reporting and recordkeeping requirements.

Authority and Issuance

■ For the reasons set forth in the preamble, the Board is amending 12 CFR part 229 to read as follows:

PART 229—AVAILABILITY OF FUNDS AND COLLECTION OF CHECKS (REGULATION CC)

■ 1. The authority citation for part 229 continues to read as follows:

Authority: 12 U.S.C. 4001 *et seq.*

■ 2. The Eleventh Federal Reserve District routing symbol list in appendix A is revised to read as follows:

Appendix A to Part 229—Routing Number Guide to Next-Day Availability Checks and Local Checks

BILLING CODE 6210-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2003-16147; Airspace Docket No. 03-AGL-17]

Modification of Class D Airspace; Rapid City, SD

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class D airspace at Rapid City, SD. Category E circling procedures have become necessary at Ellsworth AFB, Rapid City, SD. Controlled airspace extending upward from the surface of the earth is needed to contain aircraft executing these approach procedures. This action increases the area of the existing controlled airspace at Ellsworth AFB, Rapid City, SD.

EFFECTIVE DATE: 0901 UTC, June 10, 2004.

FOR FURTHER INFORMATION CONTACT: Patricia A. Graham, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Wednesday, November 5, 2003, the FAA proposed to amend 14 CFR part 71 to modify Class D airspace at Rapid City, SD (68 FR 62548). The proposal was to modify controlled airspace extending upward from the surface of the earth to contain Instrument Flight Rules (IFR) operations in controlled airspace.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class D airspace areas extending upward from the surface of the earth are published in paragraph 5000, of FAA Order 7400.9L dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designations listed in this document will be published subsequently in the order.

The Rule

This amendment to 14 CFR part 71 modifies Class D airspace at Rapid City, SD, to accommodate aircraft executing instrument flight procedures into and out of Ellsworth AFB. The area will be

depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows.

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

* * * * *

Paragraph 5000 Class D airspace.

AGL SD D Rapid City, SD [Revised]

Rapid City, Ellsworth AFB, SD
(Lat. 44°08'42" N., long. 103°06'13" W.)
Rapid City Regional Airport, SD
(Lat. 44°02'43" N., long. 103°03'27" W.)

That airspace extending upward from the surface to and including 5,800 feet MSL and within a 5.9-mile radius of Ellsworth AFB to the Rapid City Regional Airport 4.4-mile radius, excluding that airspace south of a line between the intersection of the Ellsworth AFB 4.7-mile radius and the Rapid City Regional Airport 4.4-mile radius. This Class D airspace is effective during the specific dates and times established in advance by a notice to Airmen. The effective date and time

will thereafter be continuously published in the Airport/Facility Directory.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2004-17147; Airspace Docket No. 04-ACE-13]

Modification of Class E Airspace; Excelsior Springs, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends title 14 Code of Federal Regulations, part 71 (14 CFR 71) by revising Class E airspace at Excelsior Springs, MO. A review of controlled airspace for Excelsior Springs Memorial Airport identified noncompliance with the criteria for 700 feet above ground level (AGL) airspace required for diverse departures. The review also revealed that the extension to this airspace area is no longer required. The extension is deleted and the area enlarged to conform to the criteria in FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, June 10, 2004. Comments for inclusion in the Rules Docket must be received on or before April 16, 2004.

ADDRESSES: Send comments on this rule to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2004-17147/Airspace Docket No. 04-ACE-13, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT: Brenda Mumper, Air Traffic Division,

Airspace Branch, ACE-520A, DOT Municipal Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2524.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Excelsior Springs, MO. An examination of controlled airspace for Excelsior Springs Memorial Airport revealed it does not meet the criteria for 700 feet AGL airspace required for diverse departures as specified in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order 7400.2E for an aircraft to reach 1200 feet AGL is based on a standard climb gradient of 200 feet per mile plus the distance from the airport reference point to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. The review also identified that the extension to the Excelsior Springs, MO Class E airspace area is no longer required and its existence is not in compliance with FAA Order 8260.19C, Flight Procedures and Airspace. This amendment expands the airspace area from a 6-mile radius to a 6.3-mile radius of Excelsior Springs Memorial Airport, revokes the Excelsior Springs, MO Class E airspace area extension, and brings the legal description of the Excelsior Springs, MO Class E airspace area into compliance with FAA Orders 7400.2E and 8260.19C. This area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal**

Register indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposals. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2004-17147/Airspace Docket No. 04-ACE-13." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
