

Containing 62.08 acres, more or less.

The land is not required for any federal purpose. The lease/conveyance is consistent with current Bureau planning for this area and would be in the public interest. The lease/patent, when issued, will be subject to the provisions of the Recreation and Public Purposes Act and applicable regulations of the Secretary of the Interior, and will contain the following reservations to the United States:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

and will be subject to:

1. All valid and existing rights.

2. Those rights for public utility purposes which have been granted to Nevada Power Company by Permit No's. N-58721, N-73826, N-75274 and N-75820, Las Vegas Valley Water District by permit No. N-61329, Cox Communication by permit No. N-74001, Nevada Department of Transportation by permit No. NVCC-18138, Nevada Bell by permit No. NVCC-21488, FWA by permit No. N-46063, Central Telephone by permit No. N-73808, and the City of Las Vegas by permit No's. N-73902 and N-76529-01 under the Federal Land Policy and Management Act of October 21, 1976 (FLPMA).

Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Las Vegas Field Office, 4701 N. Torrey Pines Drive, Las Vegas, Nevada. On March 24, 2004, the above described land will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease/conveyance under the Recreation and Public Purposes Act, leasing under the mineral leasing laws and disposals under the mineral material disposal laws.

Classification Comments: Interested parties may submit comments involving the suitability of the land for a public park. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Application Comments: Interested parties may submit comments regarding

the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for a public park.

Any adverse comments will be reviewed by the State Director who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, these realty actions will become the final determination of the Department of the Interior. The classification of the land described in this Notice will become effective 60 days from the date of publication in the **Federal Register**. The lands will not be offered for lease/conveyance until after the classification becomes effective.

Dated: November 28, 2004.

Sharon DiPinto,

Acting Assistant Field Manager, Division of Lands, Las Vegas, NV.

Bureau of Land Management

[WY-921-1050-ET; WYW 144782]

Notice of Proposed Withdrawal and Opportunity for Public Meeting; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Secretary of the Interior proposes to withdraw certain federally owned public lands and reserved mineral interests to protect prehistoric petroglyphs and cultural resources in the Whoopup Canyon Area of Critical Environmental Concern, Weston County, Wyoming. To the extent specified below, this notice segregates from surface entry and mining for up to 2 years, the aforementioned lands and mineral interests.

DATE: Comments and requests for a public meeting must be received by June 22, 2004.

ADDRESS: Comments and meeting requests should be sent to the Bureau of Land Management, Wyoming State Director, P.O. Box 1828, Cheyenne, Wyoming 82003-1828.

FOR FURTHER INFORMATION CONTACT: Janet Booth, Bureau of Land Management (BLM) Wyoming State Office, (307) 775-6124.

SUPPLEMENTARY INFORMATION: The applicant is the Bureau of Land Management at the address stated

above. The petition/application requests the Secretary of the Interior to withdraw for a period of 20 years and subject to valid existing rights, the following described federally owned public lands and reserved mineral interests from settlement, sale, location, or entry under the general land laws, including the mining laws, but not from mineral leasing, mineral material sales, or conveyances under Section 206 of the Federal Land Policy and Management Act of 1976, as amended:

Sec. 33, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$.

The area described contains approximately 1919.51 acres of Federal reserved minerals underlying private surface in Weston County, Wyoming.

The BLM petition/application has been approved by the Assistant Secretary, Land and Minerals Management. Therefore, it constitutes a withdrawal proposal of the Secretary of the Interior. 43 CFR 2310.1-3(e).

The use of a right-of-way, interagency agreement, or cooperative agreement would not constrain non-discretionary uses that could irrevocably affect adversely the petroglyphs and cultural resources in the area.

There are no suitable alternative sites, since the lands described contain the resources that need protection.

No water rights will be needed to fulfill the purpose of the withdrawal.

Possible mineral deposits present in the above described land areas include

some leasable, locatable, and salable minerals. No critical or strategic minerals, as defined by the Secretary of the Interior, are present in these areas.

The purpose of the proposed withdrawal is to protect valuable prehistoric petroglyphs and associated cultural resources pending further study and development of appropriate, and possibly longer-term, actions.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the Wyoming State Director.

Comments, including names and street addresses of respondents, will be available for public review at the Newcastle Field Office, 1101 Washington Blvd., Newcastle, Wyoming, during regular business hours, 7:45 a.m. to 4:30 p.m., Monday through Friday, except holidays. Individual respondents may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your comments. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal should submit a written request to the Wyoming State Director within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

This withdrawal proposal will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the land will be segregated as specified above unless the application is denied or cancelled or the withdrawal is approved prior to that date.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature

which will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of an authorized officer of the BLM during the segregative period.

Melvin Schlagel,

Realty Officer.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart L, Oil and Gas Production Measurement, Surface Commingling, and Security.

OMB Control Number: 1010-0051.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to preserve, protect, and develop oil and gas resources in the OCS. This must be in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy-resources development with protection of the human, marine, and coastal environment; ensure the public a fair and equitable return on OCS resources; and preserve and maintain free enterprise competition. The Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1701, *et seq.*) at section 1712(b)(2) prescribes that an operator will "develop and comply with such minimum site security measures as the Secretary deems appropriate, to protect oil or gas produced or stored on a lease site or on the Outer Continental Shelf from theft." These authorities and responsibilities are among those delegated to MMS under which we issue regulations governing oil and gas and sulphur operations in the OCS. This information collection request addresses the regulations at 30 CFR Part 250, Subpart L, Oil and Gas Production Measurement, Surface Commingling, and Security, and the associated supplementary notices to lessees and operators intended to provide clarification, description, or explanation of these regulations.

MMS uses the information collected under Subpart L to ensure that the volumes of hydrocarbons produced are measured accurately and that royalties are paid on the proper volumes. Specifically, MMS needs the information to:

- Determine if measurement equipment is properly installed, provides accurate measurement of production on which royalty is due, and is operating properly;
- Obtain rates of production data in allocating the volumes of production measured at royalty sales meters, which can be examined during field inspections;
- Ascertain if all removals of oil and condensate from the lease are reported;
- Determine the amount of oil that was shipped when measurements are taken by gauging the tanks rather than being measured by a meter;
- Ensure that the sales location is secure and production cannot be removed without the volumes being recorded; and
- Review proving reports to verify that data on run tickets are calculated and reported accurately.
