CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

There are two categories of individuals who are covered by this system. The system will contain records on DC Choice Program applicants (students), their parents and other adults living with these students. The system will also contain information on all DCPS non-applicant students from K thru 12.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of the names, addresses, telephone numbers, social security numbers, demographic information—such as race/ethnicity,

age, marital status, disability, language spoken in the home, educational background, and income—and the results of academic assessments. The system will collect information about parents' satisfaction with their children's current schools and the reasons for seeking a new school. The system will also collect scores on academic achievement examinations for applicants who may not have participated in Spring, 2004 DCPS testing. In addition, the system will also contain academic achievement data and other student performance measures, including attendance and disciplinary records, from existing DCPS school records for all students in grades K thru 12.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

DC School Choice Incentive Act of 2003, Pub. L. 108–199, Division C, Title III, Section 309(a)(3) and (4).

PURPOSE(S):

This statute is intended to provide low-income parents residing in the District of Columbia (the District) with expanded opportunities for enrolling their children in higher-performing private schools in the District. The information in this system will be used to fulfill the requirements of the DC School Choice Incentive Act of 2003 (D.C. Choice Act), especially section 309, which calls for a detailed evaluation of the program. In particular, section 309 directs the Department to evaluate the performance of students participating in the program by comparing them with the students in the same grade at DCPS as well as students in DCPS who applied for the program but were not selected.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

ED may disclose information contained in a record in this system of records under the routine use listed in this system without the consent of the individual if the disclosure is compatible with the purposes for which the record was collected. statistical purposes; and (C) Section 309(a)(5) of the D.C. Choice Act, prohibiting the disclosure of personally identifiable information to the public regarding the results of the measurements used for the evaluations.

Contract Disclosure. If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. Before entering into such a contract, the Department shall require the contractor to maintain Privacy Act safeguards as required under 5 U.S.C. 552a(m) with respect to the records in the system and to agree in writing to comply with all other provisions of law that affect the disclosure of the information, including section 183 of the ESRA, Title V of the E-Gov Act, and section 309(a)(5) of the D.C. Choice Act.

Not applicable to this system notice.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM: STORAGE:

The contractor will maintain data for this system on its computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed by a number assigned to each individual, which is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

Individual access to the offices of Department contractor, Westat, that maintains the system of records is controlled and monitored by security personnel. The contractor has established a set of procedures to ensure confidentiality of data. The system ensures that information identifying individuals is in files physically separated from other research data. Westat will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. All data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry.

Physical security of electronic data will also be maintained. Security features that protect project data include password-protected accounts that authorize users to use the Westat system but to access only specific network directories and network software; user

rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; e-mail passwords that authorize the user to access mail services and additional security features that the network administrator establishes for projects as needed.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with ED's record disposition schedules (ED/RDS). In particular, ED will follow the schedules outlined in Part 3 (Research Projects and Management Study Records) and Part 14 (Electronic Records).
