

March 25, 2004, to withdraw the Issuer's Security from listing on the Amex and to list the Security on the New York Stock Exchange ("NYSE"). The Board states that it determined that it is in the best interest of the Issuer to delist the Security from the Amex and to list the Security on the NYSE to avoid direct and indirect costs and the division of the market resulting from dual listing on the Amex and NYSE.

The Issuer stated in its application that it has met the requirements of Amex Rule 18 by complying with all applicable laws in the State of Delaware, in which it is incorporated, and with the Amex's rules governing an issuer's voluntary withdrawal of a security from listing and registration.

The Issuer's application relates solely to the withdrawal of the Security from listing on the Amex and shall not affect its continued listing on the NYSE or its obligation to be registered under section 12(b) of the Act.³

Any interested person may, on or before May 14, 2004, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609, facts bearing upon whether the application has been made in accordance with the rules of the Amex and what terms, if any, should be imposed by the Commission for the protection of investors. All comment letters should refer to File No. 1-03876. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On April 18, 2003, the Commission approved, on a pilot basis, the implementation of Autobook.³ Autobook is an enhancement to the Designated Primary Market Maker's ("DPM") PAR workstation that automatically facilitates the entry of eligible customer limit orders into the limit order book at the end of a configurable period of time provided such limit orders have not previously been addressed manually by the DPM. Specifically, Autobook assists and facilitates DPMs' compliance with their regulatory obligation and the display of eligible customer limit orders in the disseminated quotations as required by CBOE rules and Regulatory Circulars.⁴

³ See Securities Exchange Act Release No. 47701 (April 18, 2003), 68 FR 22426 (April 28, 2003) (Order approving SR-CBOE-2003-16 on a pilot program basis until April 21, 2004) ("Autobook Pilot Release"). Autobook is governed by CBOE Rule 8.85(b)(vii). The Commission notes that the representations made by CBOE in the Autobook Pilot Release regarding a DPM's ability to turn off Autobook, impermissibly rely on Autobook and CBOE's surveillance for impermissible reliance on Autobook continue to apply.

⁴ Currently, CBOE's DPMs are required to execute or book 95% of all eligible customer limit orders "immediately" but not later than 30-seconds after receipt under normal market conditions.

The Autobook pilot is due to expire on April 21, 2004. The Exchange proposes to extend the Autobook pilot until October 19, 2004 or such earlier time as the Commission has approved Autobook on a permanent basis.

The Exchange intends to submit a rule filing to the Commission proposing permanent approval of Autobook in the next several weeks. Therefore, the Exchange proposes to extend the Autobook pilot program until October 19, 2004 so that the pilot may continue in effect while the Commission considers the Exchange's upcoming permanent approval proposal.

2. Statutory Basis

The Exchange believes that because Autobook assists and facilitates DPMs' compliance with their regulatory obligations and the display of eligible customer limit orders in the disseminated quotations as required by CBOE rules and Regulatory Circulars, the proposed rule change is consistent with section 6(b) of the Act,⁵ in general, and furthers the objectives of section 6(b)(5),⁶ in particular, in that it is designed to promote just and equitable principles of trade and to protect investors and the public interest. Furthermore, the Exchange believes that the proposed changes are consistent with the Act's requirement that an exchange's rules not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.⁷

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change, as amended, has become effective pursuant to section 19(b)(3)(A) of the Act⁸ and subparagraph (f)(6) of Rule 19b-4⁹ thereunder because it does not: (i) Significantly affect the protection of

investors or the public interest; (ii) impose any significant burden on competition; (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate; and the Exchange has given the Commission written notice of its intention to file the proposed rule change at least five business days prior to filing. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Under Rule 19b-4(f)(6)(iii) of the Act,¹⁰ the proposal does not become operative for 30 days after the date of its filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest and the Exchange is required to give the Commission written notice of its intention to file the proposed rule change at least five business days prior to filing. The Exchange has requested that the Commission waive the five-day pre-filing notice requirement and accelerate the operative date of the proposal to April 21, 2004, so that the Autobook pilot program may continue without interruption after it would have otherwise expired on April 21, 2004. For this reason, the Commission, consistent with the protection of investors and the public interest, has determined to waive the five-day pre-filing notice requirement and accelerate the operative date of the proposal to April 21, 2004,¹¹ and, therefore, the proposal is effective and operative on that date.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

April 21, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 5, 2004, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the CBOE. The text of the proposed rule change appears below; additions are *italicized*.

(iv) To price options contracts fairly by, among other things, bidding and/or offering so as to create differences of no more than 0.25 between the bid and offer for each option contract for which the bid is less than \$2, no more than \$0.40 where the bid is at least \$2 but does not exceed \$5, no more than \$0.50 where the bid is more than \$5 but does not exceed \$10, no more than \$0.80 where the bid is more than \$10 but does not exceed \$20, and no more than \$1 where the bid is more than \$20, provided that the appropriate Market Performance Committee may establish differences other than the above for one or more options series. The bid/ask differentials stated above shall not apply to in-the-money series where the underlying securities market is wider than the differentials set forth above. For these series, the bid/ask differential may be as wide as the quotation on the primary market of the underlying security.
