

the intent of Article VI, Section 3(c), to permit OCC clearing members to use a combined market makers' account to carry the positions of multiple proprietary market makers or to carry the positions of multiple associated market makers, so long as such accounts are restricted to positions of proprietary market makers or associated market makers, respectively. OCC now proposes to amend Article VI, Section 3(c) to expressly so provide. In order to avoid compliance issues under the hypothecation rules, OCC would continue to prohibit the commingling of the positions of customer market makers, including associated market makers that have not elected to be treated as proprietary market makers, in the same combined accounts with proprietary market makers. And in order to avoid the difficulties associated with transferring a combined market makers' account holding the positions of both independent and associated market makers to another clearing member in an insolvency situation, OCC would continue to prohibit the commingling of the positions of associated market makers with the positions of independent market makers. As in the case of a separate market maker's account used for proprietary positions under Section 3(b) of Article VI, a combined market makers' account holding the positions of the clearing member or a proprietary market makers' account would be subject to a lien by OCC on all assets in such account to secure all of the clearing member's obligations to OCC, as provided in proposed subpart (v) of Section 3(c). Therefore, such proprietary market maker accounts are properly firm lien accounts, and the definition of firm account in Article 1 of the By-Laws, and related provisions in Article VI, Sections 3(b) and (c) and Interpretation and Policy .02, Rules 601 and 602, and Rule 1105(b) and (c) are amended to identify those accounts as such.

OCC believes that the proposed rule change is consistent with the requirements of Section 17A of the Act and the rules and regulations thereunder because it is designed to promote the prompt and accurate clearance and settlement of derivative transactions, assure the safeguarding of securities and funds which are in the custody or control of OCC, and, in general, protect investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A)(iii) of the Act⁵ and Rule 19b-4(f)(4)⁶ promulgated thereunder because the proposal effects a change in an existing service of OCC that (A) does not adversely affect the safeguarding of securities or funds in the custody or control of OCC or for which it is responsible and (B) does not significantly affect the respective rights or obligations of OCC or persons using the service. At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments
