Revisions to the California and Nevada State Implementation Plans, Ventura County Air Pollution Control District and Clark County Department of Air Quality Management

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Ventura County Air Pollution Control District (VCAPCD) portion of the California State Implementation Plan (SIP) and the Clark County Department of Air Quality Management (CCDAQM) portion of the Nevada SIP. These revisions concern ozone and particulate matter ambient air quality standards and the control of sulfur dioxide through the acid deposition program. We are proposing to approve local rules to regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by June 21, 2004.

ADDRESSES: Send comments to Andy Steckel, Rulemaking Office Chief (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901, or e-mail to steckel.andrew@epa.gov, or submit comments at <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION: This proposal addresses the following local rules: VCAPCD Rule 35 and CCDAQM Section 11. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to delete the Odessa Chromium 2, North and South Plumes, Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 6 is issuing a notice of intent to delete the Odessa Chromium 2, North and South Plumes, Superfund Site, OU-1 and OU-2, located in Odessa, Ector County, Texas from the National Priorities List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at appendix B of 40 CFR part 300 of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Texas, through the Texas Commission on Environmental Quality (TCEQ), have determined that all appropriate response actions under CERCLA have been completed, and that continued operation and maintenance and five-year reviews are not necessary. However, this deletion does not preclude future actions under Superfund, nor does it preclude future actions under the Texas Voluntary Cleanup Program.

In the "Rules and Regulations" Section of today's **Federal Register**, we are publishing a direct final notice of deletion of the Odessa Chromium 2, North and South Plumes, Superfund Site without prior notice of intent to delete because we view this as a noncontroversial revision and anticipate no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final notice of deletion. If we receive no adverse comment(s) on the direct final notice of deletion, we will not take further action on this notice of intent to delete. If we receive adverse comment(s), we will

withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final notice of deletion notice based on this notice of intent to delete. We will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of deletion which is located in the Rules section of this **Federal Register**.
