Assessment

The Department shall determine, and U.S. Customs and Border Protection (Customs) shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates. The Department will issue appropriate assessment instructions directly to Customs within 15 days of publication of these final results of review. With respect to constructed export price sales, we divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each importer. We will direct Customs to assess the resulting assessment rate against the entered Customs values for the subject merchandise on each of the importer's entries during the POR.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) For the companies named above, the cash deposit rates will be the rates for these firms shown above, except that, for exporters with *de minimis* rates (*i.e.*, less than 0.5 percent) no deposit will be required; (2) for previously-reviewed producers and exporters with separate rates, the cash deposit rate will be the company-specific rate established for the most recent period for which they were reviewed; and (3) for all other producers and exporters, the rate will be 36.59 percent, the "all others" rate established in the less than fair value investigation. *See Notice of Final Determination of Sales at Less Than Fair Value; Honey From Argentina*, 66 FR 50611 (Oct. 4, 2001). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the

reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation, which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 20, 2004.

Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION: On January 16, 2004, Secretary of Commerce Donald L. Evans issued "Manufacturing in America, A Comprehensive Strategy to Address the Challenges to U.S. Manufacturers". This report identifies the major economic, commercial and regulatory challenges facing the manufacturing sector, and recommends a number of steps that the Administration and the Congress could take to help strengthen the sector's ability to compete in the global market place and create jobs in the United States.

As part of this effort, the Department of Commerce recently established an Unfair Trade Practices Task Force within Import Administration to pursue the elimination of foreign unfair trade practices that prejudice or adversely affect U.S. commercial interests. To assist the Task Force in formulating its initial priorities, the Department is asking the public and representatives of the manufacturing sector to identify those unfair trade practices of greatest concern and impact. The Department is interested in receiving comments on all types of foreign unfair trade practices, including those practices which currently may not be subject to specific or adequate trade disciplines, as well as comments on the underlying market distortions that may have contributed to or resulted from the practice in question. Where appropriate, the Department also welcomes any suggestions on the most effective ways in which the Task Force can assist in addressing the particular unfair trade practices identified.

SUPPLEMENTARY INFORMATION:

I. Abstract

United States participation in the Inter-American Tropical Tuna Commission (IATTC) results in certain recordkeeping requirements for U.S. fishermen who fish in the IATTC's area of management responsibility. These fishermen must maintain a log of all operations conducted from the fishing vessel, including the date, noon position, and the tonnage of fish aboard the vessel, by species. The logbook form provided by the IATTC is universally used by U.S. fishermen to meet this recordkeeping requirement, as permitted by the regulations. The information in the logbooks includes areas and times of operation and catch and effort by area. Logbook data are used in stock assessments and other research concerning the fishery. If the data were not collected or if erroneous

data were provided, the IATTC assessments would likely be incorrect and there would be an increased risk of overfishing or inadequate management of the fishery.

II. Method of Collection

Vessel operators maintain bridge logs on a daily basis, and the forms are either mailed to the IATTC or to NMFS at the completion of each trip. The data are processed and maintained as confidential by the IATTC.
