

determinations of uranium in drinking water is acceptable and is sensitive enough to detect at less than one part per billion (1 ug/L). The uranium MCL is 30 ug/L.

EPA reviewed each of these methods for performance and applicability to compliance determinations of uranium in drinking water. Three of these methods, EPA 200.8, ASTM D5673-03, and SM 3125, have acceptable performance and are otherwise suitable for compliance determinations of uranium in drinking water. Method EPA 200.8 was published by EPA in 1994; method ASTM D5673-03 was published by ASTM International in 2003; and SM 3125 was published by the Standard Methods Committee in 1998. In today's proposed rule, EPA is proposing the use of these ICP-MS methods for compliance determinations of uranium in drinking water.

EPA is not, in today's proposed rule, proposing the use of these methods for any other purposes. EPA notes that EPA 200.8 was approved for compliance determinations of several regulated metals in drinking water on December 5, 1994. (59 FR 62456) EPA also recognizes that the other two ICP-MS methods proposed through today's action for determination of other uranium may also be applicable to monitoring for other drinking water contaminants. Although the analytical scope of ASTM D5673-03 and SM 3125 extends beyond uranium, these two methods were not published until 2003 and 1998, respectively. In a later rulemaking, EPA may consider extending the use of ASTM D5673-03 and SM 3125 to compliance determinations of other regulated metals.

Like fluorimetric and laser phosphorimetry methods, ICP-MS measures uranium mass only; therefore all caveats discussed in the December 2000 Radionuclides Rule on using mass methods to determine contributions to gross alpha also apply. (65 FR 76724)

Today's proposed rule does not affect approval of the 15 methods currently specified at 40 CFR 141.25(a) for compliance determinations of uranium.

V. Statutory and Executive Order Reviews

For the Statutory and Executive Order reviews see the parallel direct final rule found elsewhere in today's **Federal Register**.

List of Subjects for 40 CFR Part 141

Environmental protection, Chemicals, Indians-lands, Intergovernmental relations, Radiation protection, Reporting and recordkeeping requirements, Water supply.

Dated: May 24, 2004.

Michael O. Leavitt,

Administrator.

For the reasons set out in the preamble, title 40, chapter 1 of the Code of Federal Regulations is amended as found in the parallel direct final rule found elsewhere in today's **Federal Register**.

BILLING CODE 6560-50-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-D-7592]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA), Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Doug Bellomo, P.E., Hazard Identification Section, Emergency Preparedness and Response Directorate, FEMA, 500 C Street, SW., Washington, DC 20472, (202) 646-2903.

SUPPLEMENTARY INFORMATION: FEMA proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster

Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act.

This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Mitigation Division Director of the Emergency Preparedness and Response Directorate certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified BFEs are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are required to establish and maintain community eligibility in the NFIP. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*;
Reorganization Plan No. 3 of 1978, 3 CFR,
1978 Comp., p. 329; E.O. 12127, 44 FR 19367,
3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the
authority of § 67.4 are proposed to be
amended as follows:

Source of flooding	Location	#Depth in feet above ground. *Elevation in meters (MSL) +Elevation in feet (NAVD)		Communities affected
		Existing	Modified	
KENTUCKY				
Bullitt County				
Brooks Run	At the confluence with Floyds Fork Approximately 200 feet upstream of State Route 1020.	None None	•454 •515	Bullitt County (Unincorporated Areas), City of Fox Chase, City of Hillview, City of Pioneer Village.
Brier Creek	A ponding area extending from the confluence with Pond Creek to approximately 1,520 feet upstream of the Railroad.	None	•431	
Bullitt Lick Creek—Mud Run.	At the confluence with Salt River Approximately 565 feet upstream of Blue Lick Creek Road.	None None	•447 •447	Bullitt County (Unincorporated Areas), City of Shepherdsville.
Crooked Creek	Approximately 3.8 miles upstream of the confluence with Rolling Fork. Approximately 1,100 feet upstream of East Parallel Road.	None None	•430 •472	Bullitt County (Unincorporated Areas), City of Lebanon Junction.
Floyds Fork	At the confluence of Salt River Approximately 3.3 miles upstream of State Highway 44.	•451 None	•450 •454	Bullitt County (Unincorporated Areas), City of Hillview, City of Shepherdsville.
Floyds Fork	At the confluence with Salt River Approximately 3.3 miles upstream of State Highway 44.	•451 None	•450 •454	
Knob Creek	At the confluence with Pond Creek Approximately 2.29 miles upstream of Highway 44.	None None	•431 •456	Bullitt County (Unincorporated Areas).
Knob Creek Tributary	At the confluence with Knob Creek Approximately 1 mile upstream from Shoffet Lane.	None None	•444 •494	Bullitt County (Unincorporated Areas).
Long Lick Creek	At the confluence with Salt River Approximately 4,100 feet upstream of Happy Hallow Road.	None None	•446 •487	Bullitt County (Unincorporated Areas).
Ohio River	At the confluence of Salt River Approximately 1.4 miles upstream of the confluence of Salt River.	None None	•443 •443	Bullitt County (Unincorporated Areas).
Pond Creek	A ponding area extending from the pump station to the confluence of Brier Creek.	None	•431	Bullitt County (Unincorporated Areas).
Salt River	At the confluence of Bullitt Lick Creek Approximately 1.1 miles upstream of the confluence of Bullitt Creek.	None None	•447 •447	Bullitt County (Unincorporated Areas).
Whittaker Run	At the confluence with Salt River Approximately 700 feet upstream of U.S. Route 31 East.	None None	•461 •490	Bullitt County (Unincorporated Areas).

BILLING CODE 9110-12-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AI25

Endangered and Threatened Wildlife and Plants; Determinations of Prudency of Critical Habitat Designation for Two Mammal and Four Bird Species in Guam and the Commonwealth of the Northern Mariana Islands; Designations of Critical Habitat for One Mammal and Two Bird Species in Guam and the Commonwealth of the Northern Mariana Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period, notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service) announce the reopening of the public comment period for the proposed rule to designate critical habitat for the Mariana fruit bat and the Guam Micronesian kingfisher on Guam, and the Mariana crow on Guam and Rota. We have received a proposed natural resource management plan from Guam since the close of the comment period, and the comment period is reopened to allow additional

time for all interested parties to consider this information and submit written comments on the Guam proposal. Comments already submitted on the proposed rule need not be resubmitted as they already have been incorporated into the public record and will be fully considered in the final determination.

DATES: The comment period for this proposal now closes on July 19, 2004. Any comments received by the closing date will be considered in the final decision on this proposal.

ADDRESSES: Written comments and information should be submitted to the Acting Field Supervisor, U.S. Fish and Wildlife Service, Pacific Islands Office, 300 Ala Moana Boulevard, Room 3-122, P.O. Box 50088, Honolulu HI 96850. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Gina Shultz, Assistant Field Supervisor, at the above address (telephone 808/792-9400; facsimile 808/792-9580).

SUPPLEMENTARY INFORMATION:

Background

On October 15, 2002, we proposed designating critical habitat on approximately 10,053 hectares (ha) (24,840 acres (ac)) in two units on the island of Guam for the Mariana fruit bat (*Pteropus mariannus mariannus*) and the Guam Micronesian kingfisher (*Halcyon cinnamomina cinnamomina*) (67 FR 63738). For the Mariana crow (*Corvus kubaryi*), we proposed designating critical habitat on approximately 9,325 ha (23,042 ac) in two units on the island of Guam and approximately 2,462 ha (6,084 ac) in one unit on the island of Rota in the

Commonwealth of the Northern Mariana Islands. On Guam, the boundaries of the proposed critical habitat units for the Mariana fruit bat and Guam Micronesian kingfisher are identical, and the boundaries of the proposed critical habitat for the Mariana crow are contained within these boundaries. On Rota, critical habitat is proposed only for the Mariana crow. For locations of these proposed units and additional information, please see the proposed rule (67 FR 63738).

The original comment period for the proposed rule closed on December 16, 2002. On December 5, 2002, we published a notice in the **Federal Register** announcing an extension of the public comment period to January 6, 2003, and the availability of the draft economic analysis for the proposed designation of critical habitat (67 FR 72407). On January 28, 2003, we published a notice to reopen the comment period until February 18, 2003, due to hardships caused by Super typhoon Pongsona on Guam and Rota (68 FR 4159). On May 30, 2003, the Government of Guam filed a motion to extend the court-ordered deadline for completing the critical habitat process to allow time to develop an alternative to critical habitat designation on Guam. On June 13, 2003, the Federal District Court for Guam extended the deadline for publication "indefinitely," and set a status conference for October 7, 2003. On June 23, 2003, the Plaintiffs filed a notice of appeal to the 9th Circuit from the District Court's June 13, 2003, order. On October 7, 2003, the District Court held a status conference in which the Government of Guam requested a continuance of one month. On October 16, 2003, the Guam District Court
