Office of Pesticide Programs Address Changes
AGENCY: Environmental Protection Agency (EPA).
ACTION: Final rule; technical amendment.
SUMMARY: EPA is issuing this technical amendment to update the regulations of the Office of Pesticide Programs (OPP) to change several addresses and mail codes for OPP that have been changed in recent months.
DATES: This final rule is effective on July 1, 2004.
ADDRESSES: EPA has established a docket for this action under Docket identification number OPP-2004-0216. All documents in the docket are listed in the EDOCKET index at <http://www.epa.gov/edocket>. Although listed in the index, some information is not publicly available, i.e., CBI or other

information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in EDOCKET or in hard copy at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 South Bell St., Arlington, VA., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.
FOR FURTHER INFORMATION CONTACT: Jean M. Frane, Field and External Affairs Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-5944; e-mail address: frane.jean@epa.gov.
SUPPLEMENTARY INFORMATION:
I. General Information
A. Does this Action Apply to Me?
The Agency has not included in this technical amendment a list of those who may be potentially affected by this

action. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under the **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Access Electronic Copies of this Document and Other Related Information?

In addition to using EDOCKET at <http://www.epa.gov/edocket/>, you may access this **Federal Register** document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgstr/>. A frequently updated electronic version of 40 CFR parts 152, 154, 158, 159, 168, and 178 are available at E-CFR Beta Site Two at <http://www.gpoaccess.gov/ecfr/>.

II. What Does this Technical Amendment Do?

In recent months the addresses and some mail codes for the Office of Pesticide Programs have changed. This technical amendment effects the changes necessary to conform 40 CFR parts 152, 154, 158, 159, 168, and 178 to the new addresses and mail code.

III. Why is this Technical Amendment Issued as a Final Rule?

Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making this rule final without prior proposal and opportunity for comment. EPA has determined that these amendments are technical and non-substantive in nature because these amendments only correct address related information. Thus, notice and public procedure are unnecessary. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(B).

IV. What is the Agency's Authority for Taking this Action?

EPA is issuing this document under its general rulemaking authority, Reorganization Plan No. 3 of 1970 (5 U.S.C. app.).

V. Statutory and Executive Order Reviews

This final rule implements technical amendments and corrections to provisions that appear in 40 CFR parts 152, 154, 158, 159, 168, and 178 to reflect changes in the Agency's official address, and it does not otherwise impose or amend any requirements. As

such, the Office of Management and Budget (OMB) has determined that a technical amendment and/or correction is not a “significant regulatory action” subject to review by OMB under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Nor does this rule contain any information collection requirements that require review and approval by OMB pursuant to the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501 *et. seq.*).

Since the Agency has made a “good cause” finding that this action is not subject to notice-and-comment requirements under the APA or any other statute, this action is not subject to provisions of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et. seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104–94). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of UMRA. This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Similarly, this rule will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000).

Because this action is not economically significant as defined by section 3(f) of Executive Order 12866, and does not involve impacts to children, this action is not subject to Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997).

This rule is not subject to Executive Order 13211, entitled *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001), because this action is not a significant regulatory action under Executive Order 12866, nor is it expected to adversely affect energy supply, distribution, or use.

This action does not involve any technical standards that require the

Agency's consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104–113, section 12(d) (15 U.S.C. 272 note).

This action will not result in environmental justice related issues and does not, therefore, require special consideration under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).

VI. Congressional Review Act

The Congressional Review Act (CRA) (5 U.S.C. 801 *et seq.*), generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each house of the Congress and to the Comptroller General of the United States. CRA section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA, if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of July 1, 2004. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).
