SUPPLEMENTARY INFORMATION

I. Background

The Davis-Bacon Act (40 U.S.C. 3141, *et seq.*) provides that every contract in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, and/or repair which requires or involves the employment of mechanics and/or laborers shall contain a provision stating the minimum wages to be paid various classes of laborers and mechanics which shall be based upon the wages that will be determined by the Secretary of Labor to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the city, town, village or other civil subdivision of the State in which the work is to be performed. Further, Section 1.3 of Regulations 29 CFR part 1 provides that the Administrator of the Wage and Hour Division (WHD), through a delegation of authority, is responsible for making these wage determinations. Form WD-10 is used by the U.S. Department of Labor to elicit construction project data from contractor associations, contractors and unions. The wage data is used to determine locally prevailing wages under the Davis-Bacon and Related Acts. This information collection is currently approved for use through February 28, 2005.
