DEPARTMENT OF JUSTICE

Notice of Lodging of Partial Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

Under 28 CFR 50.7, notice is hereby given that on January 27, 2004, a proposed Amended Consent Decree in *United States v. Central Maine Power Company*, Civil Action No. 90-302B, was lodged with the United States District Court for the District of Maine.

On September 3, 1991, the United States District Court for the District of Maine entered a Consent Decree between the United States and Central Maine Power Company ("CMP"). In the Consent Decree, CMP agreed to perform the remedy selected in a 1989 Record of Decision ("1989 ROD") for the F. O'Connor Superfund Site ("Site"). Subsequently discovered conditions at the Site resulted in a determination by the United States Environmental Protection Agency ("EPA") and the Maine Department of Environmental Protection ("Maine DEP"), that it would be technically impracticable to restore the groundwater at the Site to drinking water standards within a reasonable period of time.

Following issuance of a proposed plan and public comment period, EPA signed a 2002 Record of Decision Amendment ("2002 ROD Amendment") to address the changes to the 1989 ROD. The 2002 ROD Amendment included active and passive oil recovery, long-term groundwater monitoring, a five-year review, and a restrictive covenant between CMP and the Maine DEP which prevents use of the Site groundwater. The 2002 ROD amendment also addressed minor changes and clarifications to the original 1989 remedy for source control. With necessary changes in the remedy, EPA is amending the 1991 Consent Decree and its Appendix II, Remedial Design/Remedial Action Statement of Work to make these documents consistent with the changes, and provide enforcement
