These permits grant approval to the facilities identified in the permits to operate the air emission sources identified in the permits in accordance with the terms and conditions of the respective permits. This notice is published in accordance with 40 CFR 71.11(l)(7), which requires notice of any final agency action regarding a Federal operating permit to be published in the **Federal Register**.

The Federal operating permits issued by EPA to the facilities identified above incorporate all applicable air quality requirements and require monitoring to ensure compliance with these requirements. Submittal of periodic reports of all required monitoring, as well as submittal of an annual compliance certification, are also required. The Federal operating permits have a term not to exceed five years, and

a timely application for permit renewal must be submitted to EPA prior to permit expiration in order to continue operation of the permitted source.

The provisions of 40 CFR part 71 govern issuance of these permits. EPA received public comments on the CFI, Three Rivers, and Northwest Pipeline permits. In accordance with the requirements of 40 CFR 71.11(j), EPA responded to all comments received on
