SUPPLEMENTARY INFORMATION:**Background**

On January 19, 2001, we published a rule at 66 FR 5706 that established new health standards for underground metal and nonmetal miners by requiring use of approved equipment and low sulfur fuel, and by setting an interim and final concentration limit for diesel particulate matter (DPM) in the underground mining environment. Under a settlement agreement reached in response to legal challenges to the 2001 rule, we amended portions of the rule on February 27, 2002 (67 FR 9180), and initiated this rulemaking. We published the advance notice of proposed rulemaking (ANPRM) on September 25, 2002 (67 FR 60199), and published the proposed rule on August 14, 2003 (68 FR 48668). The proposed rule would revise the interim concentration limit; designate elemental carbon as the surrogate for measuring DPM for the interim limit; allow an extension of time in which to achieve compliance with the interim limit; apply our longstanding hierarchy of controls used for other exposure-based health standards for metal and nonmetal mines, including engineering and administrative controls supplemented by respiratory protection, but prohibit rotation of miners; and revise the requirements for the DPM control plan. Four public hearings were held on the proposed rule between September 16, 2003 and October 7, 2003. The comment period closed on October 14, 2003. The legal challenge is stayed pending completion of additional rulemaking actions.

Limited Reopening of Comment Period

We recently received new information related to this rulemaking, and concluded that it is in the public interest to obtain comments on this information. Therefore, the comment period is reopened for the limited purpose of obtaining public comment on:

- U.S. Department of Health and Human Services, Center for Disease Control, National Institute of Occupational Safety and Health, "The Effectiveness of Selected Technologies in Controlling Diesel Emissions in an Underground Mine—Isolated Zone Study at Stillwater Mining Company's Nye Mine," January 5, 2004.

In addition, two other documents have come to the Agency's attention and MSHA is also seeking comments on:

- U.S. Department of Labor, Bureau of Labor Statistics, and U.S. Department of Health and Human Services, Center for Disease Control, National Institute of Occupational Safety and Health, "Respirator Usage in Private Sector Firms, 2001," September, 2003.

- Chase, Gerald, "Characterizations of Lung Cancer in Cohort Studies and a NIOSH Study on Health Effects of Diesel Exhaust in Miners," undated, received January 5, 2004.

These documents can be accessed at <http://www.msha.gov>. We invite public comment on the findings of these documents and their impact on this rulemaking. We will disregard any comments that are outside the scope of these documents.

Dated: February 13, 2004.

Assistant Secretary of Labor for Mine Safety and Health.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**36 CFR Part 1200**

RIN 3095-AB19

Official Seals and Logos

AGENCY: National Archives and Records Administration (NARA).

ACTION: Proposed rule.

SUMMARY: The National Archives and Records Administration (NARA) is proposing to modify its regulations on the use of official NARA seals by the public and other Federal agencies by extending the regulations to apply to the use of official NARA logos. This part applies to the public and other Federal agencies.

DATES: Comments are due by April 20, 2004.

ADDRESSES: NARA invites interested persons to submit comments on this proposed rule. Comments may be submitted by any of the following methods:

- Mail: Send comments to: Regulation Comments Desk (NPOL), Room 4100, Policy and Communications Staff, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001.

- Fax: Submit comments by facsimile transmission to: 301-837-0319.

- E-mail: Send comments to <http://www.regulations.gov>. You may also comment via e-mail to comments@nara.gov. See the **SUPPLEMENTARY INFORMATION** for details.

FOR FURTHER INFORMATION CONTACT: Kim Richardson at telephone number 301–837–2902 or fax number 301–837–0319.

SUPPLEMENTARY INFORMATION: NARA has three official seals, which are primarily used to authenticate records in NARA's custody. NARA also has a number of official logos, which we use to represent our major programs, products, and services. For example, we have an ongoing exhibit entitled "American Originals" which features original historical documents, and we have an official "American Originals" logo that represents this exhibit. In addition to the official logos that represent our major programs, products, and services, each of our Presidential libraries has an official logo.

Though the official NARA seals and logos are primarily reserved for NARA use, if certain conditions are met, the public and other Federal agencies may request to use the seals and logos with NARA's permission.

We are proposing to extend the regulations to apply to the official NARA logos because our existing regulations only cover the three official NARA seals.

Information Collection Subject to the Paperwork Reduction Act

This proposed rule modifies the existing information collection in § 1200.8, the written request, by expanding coverage to include official NARA logos, not just official NARA seals. The information collection in § 1200.8 is subject to the Paperwork Reduction Act. Under this Act, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The control number for the existing information collection is 3095–0052.

NARA invites comments on the proposed changes to the information collection. Comments should be addressed to NARA and OMB (*see ADDRESSES*).

The change to the information collection in § 1200.8 is designed to assist NARA in determining whether to approve requests to use our official logos. It affects the public and other Federal agencies that are requesting to use our official logos and seals. For the seals, we have estimated that we receive one request each from five respondents per year. For the logos, we also estimate that we will receive one request each from five respondents per year. The respondent burden to provide the information will be 20 minutes per request, for a total burden of three hours and 20 minutes. This is an increase of one hour and 40 minutes over the burden in the previously approved information collection.

E-mail Comments

Please submit e-mail comments within the body of your e-mail message or attach comments avoiding the use of any form of encryption. Please also include "Attn: 3095–AB19" and your name and return address in your Internet message. If you do not receive a confirmation that we have received your email message, contact the Regulation Comment Desk at 301–837–2902.

This proposed rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this rule will not have a significant impact on a substantial number of small entities. This regulation does not have any federalism implications.

POSTAL SERVICE

39 CFR Part 111

Machinable Parcel Testing Changes

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service proposes revisions to the *Domestic Mail Manual* (DMM) that would centralize the processing of requests for parcel testing. Such testing is requested to determine if the parcels can be successfully processed on bulk mail center (BMC) parcel sorters when they do not conform to the general machinability criteria in the DMM. Under this proposal parcel testing would no longer be performed by the BMC manager. It would be performed by the Manager, BMC Operations, USPS Headquarters.

DATES: Submit comments on or before March 22, 2004.

ADDRESSES: Mail or deliver written comments to the Manager, Mailing Standards, U.S. Postal Service, 1735 N Lynn Street, Room 3025, Arlington, VA 22209–6038. Copies of all written comments will be available for inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, at Postal Service Headquarters Library, 475 L'Enfant Plaza, SW., 11 Floor N, Washington, DC. Comments may be submitted via fax to 703–292–4058, ATTN: Obataiye B. Akinwale or via e-mail to obataiye.b.akinwale@usps.gov.

FOR FURTHER INFORMATION CONTACT: Obataiye B. Akinwale, 703–292–3643.

SUPPLEMENTARY INFORMATION:

Background

Under current Postal Service standards, a mailer may submit a request for testing of parcels to a destinating BMC plant manager. The BMC plant manager may authorize the mailer to enter such parcels as machinable parcels rather than as irregular parcels if the parcels are tested on BMC parcel sorters and determined by the manager to be machinable. The parcels must be properly labeled,
