Standard Paragraph

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>

using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8222 or TTY, (202) 502-8659. Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

[Project No. 2503-068]

Duke Power Company, a Division of Duke Energy; Notice of Availability of Environmental Assessment

February 18, 2004.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR part 380), Commission staff have prepared an environmental assessment (EA) that analyzes the environmental impacts of allowing Duke Power Company, licensee for the Keowee-Jocassee Hydroelectric Project, to authorize the Cliffs at Keowee Vineyards (the Cliffs) use of project lands and waters. Specifically, the Cliffs purposes to excavate about 3,300 cubic yards of sediment material in an area about 785 feet in length, 49 feet in width, and 2.3 feet in depth for the purpose of providing safe access to the previously approved cluster docks serving the subdivision. The EA contains staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the proposed action would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a February 5, 2004, Commission Order titled "Order Approving Non-Project Use of Project Lands and Waters," which is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "elibrary"

link. Enter the docket number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Notice of Settlement Agreement and Soliciting Comments

February 17, 2004.

Take notice that the following settlement agreement has been filed with the Commission and is available for public inspection.

a. *Type of Application:* Settlement agreement on resolution of issues related to Endangered Species Act listed snails as part of new hydroelectric license applications.

b. *Project Nos.:* P-2778-005, P-2777-07, P-2061-004, P-1975-014, and P-2055-010.

c. *Date filed:* February 12, 2004.

d. *Applicant:* Idaho Power Company.

e. *Name of Projects:* Shoshone Falls, Upper Salmon Falls, Lower Salmon Falls, Bliss, C.J. Strike

f. *Location:* On the Snake River, East of Boise, Idaho in the counties of Owyhee, Elmore, Gooding, Twin Falls, Jerome.

g. *Filed Pursuant to:* Rule 602 of the Commission's rules of practice and procedure, 18 CFR 385.602.

h. *Applicant Contact:* James Tucker, Senior Counsel, Idaho Power Company, 1221 West Idaho Street, Boise, Idaho, 208-388-2112.

i. *FERC Contact:* John Blair, 202-502-6092, john.blair@ferc.gov.

j. *Deadline for filing comments:* March 15, 2004. Reply comments: March 25, 2004.

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's rules of practice require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that

may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

k. Idaho Power Company (IPC) filed on behalf of the Company and the U.S. Fish and Wildlife Service (FWS) a settlement agreement on the resolution of all issues related to the Endangered Species Act (ESA) listed snails in connection with the relicensing of five Snake River hydroelectric Projects: Shoshone Falls, P-2778 Upper Salmon Falls, P-2777, Lower Salmon Falls, P-2061, Bliss, P-1975, C.J. Strike, P-2055. The five projects have a combined capacity of 252 MW. The specific areas of disagreement and subsequent settlement are whether and how the load following operations at the Lower Salmon Falls, Bliss and C.J. Strike projects affect the listed endangered snails. The resolution of this issue is important because significant loss of power and economic benefits would occur if the projects operated in a year-round run-of-river (ROR) mode instead of following existing operations. IPC and FWS have agreed that additional studies and analyses are desirable to assess projects effects on the snails. IPC and FWS have agreed upon an operational regime for the five projects that will permit six years of studies and analyses of various project operations on the listed snails. All Parties to the settlement have agreed that the Settlement Agreement is fair and reasonable and in the public interest. On behalf of the Parties, PGE requests that the Commission approve the Settlement Agreement and adopt it as part of the new license without material modification.

l. A copy of the settlement agreement is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659. A copy is also available for inspection and reproduction at the address in item h above.

i. *FERC Contact:* Monte TerHaar, monte.terhaar@ferc.gov, (202) 502-6035.

j. *Cooperating Agencies:* We are asking Federal, State, local, and tribal agencies with jurisdiction and/or special expertise with respect to environmental issues to cooperate with us in the preparation of the environmental document. Agencies who would like to request cooperation status should follow the instruction for filing comments described in item n below.

k. *Deadline for filing comments, motions to intervene, and protests:* 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's rules of practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Motions to intervene may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

l. These applications have been accepted, and are not ready for environmental analysis at this time.

m. *Project Descriptions:* Augusta Canal: The City of Augusta does not propose to construct hydroelectric generation facilities and the project would produce no power. Augusta proposes to license parts of the Augusta Canal system which pass flows for use by three existing hydroelectric projects located in the Augusta Canal. These projects are the 2.475 megawatt (MW) Sibley Mill Project, 2.05 MW King Mill Project, and the 1.2 MW Enterprise Project. The license for the King Mill Project, P-9988, does not expire until 5/31/2009, and is not being relicensed at this time. The proposed Augusta Canal Project would consist of the following: (1) The 1,666-foot-long stone masonry Augusta Diversion Dam; (2) the 2,250-foot-long Savannah River impoundment between Steven's Creek Dam and the Augusta Diversion Dam; and (3) the first level of the Augusta Canal, which extends about 7 miles between the
