II. Background

For placement of coal combustion byproducts at coal mines, EPA is in the process of considering whether RCRA subtitle D or SMCRA authorities or some combination of both are most appropriate to ensure protection of human health and the environment. For placement of coal combustion byproducts at surface impoundments and landfills, including non-coal mine sites, EPA is in the process of developing regulations under RCRA subtitle D. These EPA actions and the background for them were initially described in EPA's Notice of Regulatory Determination on Wastes From the Combustion of Fossil Fuels (65 FR 32214-32237, May 22, 2000). This Regulatory Determination, an associated Report to Congress, and other related documents may be accessed at the Web site identified above. In this process EPA has contacted State and Federal regulatory agencies, the coal mining and coal combustion industries, and the public to learn of issues associated with the several practices. These three listening sessions are further opportunity for the public to provide EPA with information on these practices involving coal combustion byproducts.

To register to speak at one of these three listening sessions, you should contact the person listed above under **FOR FURTHER INFORMATION CONTACT**. To speak at one of the listening sessions, you should register no later than seven calendar days prior to the listening session. At each listening session, speakers' speaking time will be limited according to the number of persons registering to speak. If you are unable to register to speak, EPA will attempt to accommodate you after the registered speakers have spoken. There is no limitation on the amount of written material which can be provided to EPA at the listening sessions. EPA plans for

each listening session to begin at 6:30 p.m. and end at 9 p.m. If the number of registered speakers indicates the need to extend to a later hour, EPA will do so.
