Proposed Information Collection Activity; Comment Request Proposed Projects

Title: Evaluation of the Improving Child Welfare Outcome through Systems of Care Grant Program.

OMB No. New Collection

Description: The 1994 Amendments to the Social Security Act (SSA) authorize the U.S. Department of Health and Human Services to review State child and family service programs to ensure conformance with the requirements in titles IV-B and IV-E of SSA. Under the final Rule, which took effect March 25, 2000, States are assessed for substantial conformity with certain Federal requirements for child-welfare services. The Child and Family Service Reviews (CFSR), administered by the Children's Bureau, are designed to ensure conformity with Federal child-welfare requirements and, ultimately, to help States improve child-welfare services and outcomes, specifically safety, permanency and well-being outcomes for child-welfare-involved children and their families. States determined not to have achieved substantial conformity in any of the areas assessed are required to develop and implement Program Improvement Plans (PIP) addressing the areas of nonconformity.

The Systems of Care grant cluster, from which these data are proposed to be collected, is designed to encourage public child-welfare agencies to address the issues identified in their State's CFSR. Although Systems of Care has shown promise in working with various at-risk and family populations, it has not been applied to a child-welfare target population. The data collected from these demonstration sites will allow the Children's Bureau to test whether this approach can help States reach the goals stated in their PIP and explore how child-welfare can benefit from being part of a system of care. Data will be collected via interviews, forms completed by project staff, surveys, focus groups and case-file reviews. Data also will be collected to determine the extent to which the Technical Assistance (A) provided, brokered or contracted by the TA and Evaluation Center is meeting the needs of the grantees, and how.

Respondents: Systems of Care Project Directors (members of the Systems of Care collaborative may include representatives from mental health, juvenile justice, education, health, among others); child-welfare agency supervisors and caseworkers; partner agency caseworkers, and families who have been involved with the child-welfare system.
