AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 22, 2005.

FOR FURTHER INFORMATION CONTACT: Steve Winkates at (202) 482-1904, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC, 20230.

SUPPLEMENTARY INFORMATION:**Background**

At the request of Blue Field (Sichuan) Food Industrial Co., Ltd., the Department of Commerce ("the Department") initiated a new shipper review of the antidumping duty order on certain preserved mushrooms from the People's Republic of China ("PRC") for the period February 1, 2004, through July 31, 2004. *See Certain Preserved Mushrooms from the PRC: Initiation of Eighth New Shipper Antidumping Duty Review*, 69 FR 57264 (September 24, 2004). The preliminary results of this review are currently due no later than March 16, 2005.

Extension of Time Limit for Preliminary Results of Review

Pursuant to 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act") and 19 CFR 351.214(i)(1), the Department will issue the preliminary results of a new shipper review within 180 days after the date on which the new shipper review was initiated, and issue the final results within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the deadline for completion of the preliminary results of a new shipper review to 300 days if it determines that the case is extraordinarily complicated (19 CFR 351.214(I)(2)).

The Department finds that it is not practicable to complete the preliminary results of this new shipper review within the statutory time limit of 180 days. Specifically, we find that additional time is needed to conduct our *bona fide* sales analysis based on our findings at verification. Given that additional time is needed to conduct

our *bona fide* sales analysis, we find that this case is extraordinarily complicated.

Accordingly, the Department is extending the time limit for the completion of the preliminary results of this new shipper review until July 14, 2005, which is 300 days after the date on which the new shipper review was initiated. The final results will, in turn, be due 90 days after the date of issuance of the preliminary results, unless extended.

This notice is in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

Dated: March 15, 2005.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration.

On September 2, 2004, Lifetime withdrew its request for an administrative review. On September 7, 2004, the petitioner withdrew its request for an administrative review of Shichang. On September 8, 2004, Shichang withdrew its request for an administrative review.

Partial Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review in whole or in part if a party that requested the review withdraws its request within ninety days of publication of the **Federal Register** notice that initiated the review. Therefore, as the petitioner, Lifetime, and Shichang were the only parties that made requests for review on behalf of Lifetime and Shichang, and because the petitioner, Lifetime, and Shichang have all withdrawn their requests for review in accordance with 19 CFR 351.213(d)(1), the Department is rescinding in part this review of the antidumping duty order on folding metal tables and chairs from the PRC with respect to Lifetime and Shichang. Background

On May 27, 2004, the Department published in the **Federal Register** a notice of the initiation of the antidumping duty administrative review of automotive replacement glass windshields from the People's Republic of China for the period April 1, 2003, through March 31, 2004. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 69 FR 30282 (May 27, 2004). On December 3, 2004, the Department published in the **Federal Register** a notice extending the time limit for the preliminary results of the administrative review from December 31, 2004, to March 31, 2005. *See Extension of Time Limit for the Preliminary Results of the Antidumping Duty Administrative Review:*

Automotive Replacement Glass Windshields from the People's Republic of China, 69 FR 70224 (December 3, 2004). The preliminary results of review are currently due no later than March 31, 2005.

Extension of Time Limit of Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), states that, if it is not practicable to complete the review within the time specified, the administering authority may extend the 245-day period to issue its preliminary results by up to 120 days. Completion of the preliminary results of this review within the 245-day period is not practicable because the Department needs additional time to analyze a significant amount of information pertaining to verification of one company's questionnaire responses and to review supplemental questionnaire responses of a second company.

Because it is not practicable to complete this review within the time specified under the Act, we are extending the time limit for issuing the preliminary results of review by an additional 30 days, in accordance with section 751(a)(3)(A) of the Act. Therefore, as 30 days from March 31, 2005, falls on a Saturday, the preliminary results are now due on May 2, 2005, the next business day. The final results of review continue to be due 120 days after the date of publication of the preliminary results.

Dated: March 15, 2005.

HEALTHCARE TECHNOLOGIES TRADE MISSION

Australia and New Zealand
September 12-16, 2005

Mission Statement

I. Description of the Mission

The United States Department of Commerce, International Trade Administration, U.S. Commercial Service, Office of Global Trade Programs, is organizing a Healthcare Technologies Trade Mission to Sydney and Melbourne, Australia and to Auckland, New Zealand, September 12-16, 2005.

The trade mission will target the IT-healthcare sub-sector, e.g., electronic patient records, automated patient scheduling, telemedicine, but will also include other sectors within the healthcare industry.

The focus of the mission will be to match participating U.S. companies with qualified agents, distributors, representatives, licensees, and joint venture partners, and where appropriate, arrange for appointments with government officials, in these markets. Consumers in Australia and New Zealand have a strong affinity for U.S. products.

II. Commercial Setting for the Mission

Over 85 percent of medical devices and diagnostics used in Australia are imported, with approximately 60 percent of these products coming from the U.S. Other major market suppliers are the E.U. and Japan. The Australian medical equipment market is valued at approximately US\$2 billion, representing about one percent of the global medical market.

Australia is a mature market for medical equipment, and its high per capita income and sophisticated health system translate into demand for a broad range of cutting-edge medical equipment. As in the United States, Australians are educated consumers, and expect state-of-the-art medical treatment, which ensures continuous
