Title: Petitions for Hearings on Notification and Remedy of Defects.

Type of Request: Renewal of a currently approved information collection.

Abstract: NHTSA's statutory authority at 49 U.S.C. 30118(e) and 30120(e) specifies that on petition of any interested person, NHTSA may hold a hearing to determine whether a manufacturer of motor vehicles or motor vehicle equipment has met its obligation to notify owners, purchasers, and dealers of vehicles or equipment of a defect or noncompliance and to remedy a defect or noncompliance with a Federal motor vehicle safety standard for some of the products the manufacturer produces.

To address these areas, NHTSA has promulgated 49 CFR Part 557, Petitions for Hearings on Notification and Remedy of Defects, which adopts a uniform regulation that establishes procedures to provide for submissions and disposition of petitions, and to hold hearings on the issue of whether the manufacturer has met its obligation to notify owners, distributors, and dealers of safety related defects or noncompliance and to remedy the problems by repair, repurchase, or replacement.

Affected Public: Businesses or individuals.

Title: Record Retention.

OMB Number: 2127-0042.

Type of Request: Renewal of a currently approved information collection.

Abstract: Under 49 U.S.C. Section 30166(e), NHTSA "reasonably may require a manufacturer of a motor vehicle or motor vehicle equipment to keep records, and a manufacturer, distributor or dealer to make reports, to enable [NHTSA] to decide whether the manufacturer, distributor, or dealer has complied or is complying with this chapter or a regulation prescribed under this chapter."

To ensure that NHTSA will have access to this type of information, the agency exercised the authority granted in 49 U.S.C. Section 30166(e) and promulgated 49 CFR part 576 Record

Retention, initially published on August 20, 1974 and most recently amended on July 10, 2002 (67 FR 45873), requiring manufacturers to retain one copy of all records that contain information concerning malfunctions that may be related to motor vehicle safety for a period of five calendar years after the record is generated or acquired by the manufacturer. Manufacturers are also required to retain for five years the underlying records related to early warning reporting (EWR) information submitted under 49 CFR part 579.

Affected Public: Businesses or other for profit.

Estimated Total Annual Burden: 40,020 annual hours burden (20 respondents times 1 hour, plus 1,000 respondents times 40 hours).

SUPPLEMENTARY INFORMATION: National Highway Traffic Safety Administration
Title: Names and Addresses of First Purchasers of Motor Vehicles.

OMB Number: 2127-0044.

Type of Request: Renewal of a currently approved information collection.

Abstract: Pursuant to 49 U.S.C. 30117(b) a manufacturer of a motor vehicle or tire (except a retreaded tire) shall maintain a record of the name and address of the first purchasers of each vehicle or tire it produces and, to the extent prescribed by regulation of the Secretary, shall maintain a record of the name and address of the first purchaser of replacement equipment (except a tire) that the manufacturer produces. This agency has no regulation specifying how the information is to be collected or maintained. When NHTSA's authorizing statute was enacted in 1966, Congress determined that an efficient recall of defective or noncomplying motor vehicles required the vehicle manufacturers retain an accurate record of vehicle purchasers, in the event of a recall. Experience with this statutory provision has shown that manufacturers have retained this information in a manner sufficient to enable them to expeditiously notify vehicle purchasers in case of a recall. Based on this experience, NHTSA has determined that no regulation is needed.

Affected Public: Businesses or other for-profit.

Estimated Total Annual Burden: 1,075,000 burden hours (875,000 hours for first purchaser information, plus 200,000 hours for manufacturer recordkeeping).

Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
