Dated: April 1, 2005. I. C. Le Moyne Jr., Lieutenant, Judge Advocate General's Corps, U.S. Navy, Alternate Federal Register Liaison Officer. [FR Doc. 05–6913 Filed 4–6–05; 8:45 am]

BILLING CODE 3810-FF-P

ELECTION ASSISTANCE COMMISSION

Publication of State Plans Pursuant to the Help America Vote Act

AGENCY: U.S. Election Assistance Commission (EAC). **ACTION:** Notice.

SUMMARY: Pursuant to sections 254(a)(11)(A) and 255(b) of the Help America Vote Act (HAVA), Public Law 107–252, the U.S. Election Assistance Commission (EAC) hereby causes to be published in the **Federal Register** material changes to HAVA State plans previously submitted by Alaska and Ohio.

DATES: This notice is effective upon publication in the **Federal Register**. **FOR FURTHER INFORMATION CONTACT:** Bryan Whitener, Telephone 202–566–

3100 or 1–866–747–1471 (toll-free).

Submit Comments: Any comments regarding the plans published herewith should be made in writing to the chief election official of the individual States at the address listed below.

SUPPLEMENTARY INFORMATION: On March 24, 2004, the U.S. Election Assistance

Commission published in the **Federal Register** the original HAVA State plans filed by the 50 States, the District of Columbia and the Territories of American Samoa, Guam, Puerto Rico, and the U.S. Virgin Islands. 69 FR 14002. HAVA anticipated that States, Territories and the District of Columbia would change or update their plans from time to time pursuant to HAVA section 254 (a)(11) through (13). HAVA sections 254(a)(11)(A) and 255 require EAC to publish such updates.

The submissions from Alaska and Ohio address material changes in the administration of their original State plans and, in accordance with HAVA section 254(a)(12), provide information on how the State succeeded in carrying out the previous State plan. Ohio has received its 2003 and 2004 requirements payments. Alaska has not yet submitted a statement of certification for a requirements payment to EAC.

Upon the expiration of 30 days from April 7, 2005, these States will be eligible to implement any material changes addressed in the plans that are published herein, in accordance with HAVA section 254(a)(11)(C). At that time, in accordance with HAVA section 253(d), Alaska also may file a statement of certification to obtain its requirements payments. Such statements of certification must confirm that the State is in compliance with all of the requirements referred to in HAVA section 253(b) and must be provided to the Election Assistance Commission in order for the State to receive a requirements payment under HAVA Title II, Subtitle D.

EAC notes that plans published herein include only those that have already met the notice and comment requirements of HAVA section 256, as required by HAVA section 254(a)(11)(B). EAC wishes to acknowledge the effort that went into the revising the State plans and encourages further public comment, in writing, to the chief election official of the individual States at the address listed below.

Chief State Election Officials

Alaska

Ms. Laura A. Glaiser, Director, State of Alaska Division of Elections, PO

Box 110017, Juneau, AK 99811–0017, Phone: 907–465–4611, Fax: 907–465– 3203, e-mail: *elections@gov.state.ak.us.*

Ohio

The Honorable J. Kenneth Blackwell, Secretary of State, 180 E. Broad Street, 16th Floor, Columbus, OH 43215, Phone: 614–466–2655, Fax: 614–644– 0649, e-mail: *election@sos.state.oh.us.*

Thank you for your interest in improving the voting process in America.

Dated: March 30, 2005.

Gracia M. Hillman,

Chair, U.S. Election Assistance Commission. BILLING CODE 6820–YN–P

STATE OF ALASKA Division of Elections Office of the Lieutenant Governor

March 10, 2005

Dear Commissioners:

In accordance with section 255 of the Help America Voie Act of 2002 (HAVA). I am pleased to file with the Election Assistance Commission (EAC), for publication in the *Federal Register*, this letter and the following new pages that comprise Sections 6, 8 and 12 of the State of Alaska updated HAVA Plan. These new pages, together with non-substantive changes that we have made, constitute Alaska's HAVA State Plan for Fiscal Year 2005.

As required by section 254(a)(12) of HAVA. Section 12 of Alaska's State Plan, as amended, describes the material changes that Alaska made to the State Plan filed in 2003. In addition, Sectionis 6 and 8 contain important information on how Alaska's budget to implement the requirements of HAVA changed and how Alaska succeeded thus far in meeting specific HAVA requirements.

Please note that non-material changes to the Alaska State Plan can be found throughout every element of the Alaska State Plan. After consulting with EAC staff, the State of Alaska will not be submitting those types of changes for publication in the *Federal Register* as unnecessary under HAVA. Instead, we would direct the EAC and members of the public to Alaska's State Division of Elections' website (www.gov.state.ak.us/ltgov/elections/hava.htm) to view and print the complete 2005 Alaska State Plan.

The amendments to the Alaska State Plan were developed in accordance with section 255 of HAVA and the requirements for public notice and comment prescribed by section 256 of HAVA.

On behalf of the State of Alaska, I thank the Election Assistance Commission for its assistance, I look forward to our continued collaboration to improve the administration of elections in Alaska.

STATE OF ALASKA

Section 6. Alaska's Budget for Implementing HAVA

The State's proposed budget for activities under this part, based on the State's best estimates of the costs of such activities and the amount of funds to be made available, including specific information on-

(A) the costs of the activities required to be carried out to meet the requirements of Title III; (B) the portion of the requirements payment which will be used to carry out activities to meet such requirements; and

(C) the portion of the requirements payment which will be used to carry out other activities.

Title I-Early payments:

HAVA authorized \$650 million in one-time payments to states. \$325 million for making improvements to the administration of elections and \$325 million for the replacement of punch card and lever voting machines. States are not required to provide matching funds for Title I monies.

Title I mandated that each eligible state receives a minimum of \$5,000,000. Alaska's portion was determined by the small state minimum and received \$5,000,000 in April 2003 for making improvements to elections. Alaska was not eligible to receive funds under Section 102 since Alaska replaced its punch card voting system before 2000. However, Alaska did receive a one-time reimbursement payment made to states that replaced such equipment prior to 2000. (see "teimbursement payment" below.)

All Title I money has been distributed to the states.

Tide II- Requirements payments:

Title II authorizes \$3 billion in additional payments to states over a three year period, annually for meeting the requirements of Title III and for activities to improve the administration of elections if all Title III requirements have been satisfied.

Congress appropriated \$830 million for FY 2003 and just under \$1.5 billion for FY 2004 requirements payments to states. While the FY 2003 funding fell short of the \$1.4 billion authorized in HAVA, FY 2004 funding exceeded the \$1.0 billion authorized. Distribution of these funds began in June 2004. Alaska is in the process of submitting certification paperwork for these payments. Congress has not appropriated money for FY 2005.

Payments under Title II are formula based and require a 5% State match for all funds spent in each fiscal year. However, the State may draw down funds each fiscal year without providing the match if the State's Election Plan accounts for the 5% funds in future use. To determine the 5% State match based on the federal requirements payment, multiply Alaska's requirement's payment portion by .0526 (5 divided by 95). See Table 6.1 for Alaska's requirements payment amounts and State match funds.

Accessibility Grants:

Title II also authorizes the Secretary of Health and Human Services to distribute payments to states to assure access for individuals with disabilities. Alaska has applied for and received \$200,000 in accessibility grants for FY 2003 and FY 2004. These funds will be expended in accordance with the requirements of Title II Section 261.

ALASKA
OF
STATE

Reimbursement Payment:

The Consolidated Appropriations Resolution, Public Law 108-7, signed February 20, 2003, provided \$15,000,000 in Federal appropriated funds to the General Services Administration (GSA), for Election Reform Reimbursements. This one-time reimbursement was for states that purchased electronic voting equipment to replace punch card and lever voting machines prior to

2000 making them ineligible to receive funds under Title I Section 102 of HAVA. Alaska qualified for and received a one-time reimbursement of \$1.1 million deposited back into the State's General Fund for electronic voting machines purchased in 1998 to replace all punch card voting equipment.

Table 6.1 outlines the portion of funds available according to GSA Estimates Requirements Payments to States FY03-FY04, Revised 3/31/04.

Alaska's budget in Table 6.2 is based on the levels of funding as shown in Table 6.1 and represents the cost of implementing requirements of Title III and "other" activities as specified in Title I of HAVA through calendar year 2006. Costs associated with the maintenance and operations of implementing these requirements are also reflected in the budget. It is important to note that the maintenance and operation costs associated with these requirements will have an impact on the State's budget in future years when federal funding is no longer available.

Implementation Period		FY 2003 to FY2006	FY 2003 to FY2004		FY 2003 to FY2004

Additional Notes for Title III requirements:

(1) Voting System-Alaska purchased optical scan units in 1998 to replace its punch card voting system. Alaska has 439 voting precincts. Sixty-six percent of the precincts are equipped with optical scan and 34 percent are hand-count precincts. The estimated \$5.5 million will be used to implement a HAVA-compliant DRE voting system and to purchase additional optical scan units for a portion of Alaska's precincts. In addition, the Division plans to purchase more memory cards for the Accu-Vote Optical Scan voting machines. Installation, training and maintenance costs are included in this figure.

Since Alaska purchased its computerized statewide voting system, replacing punch card voting equipment, prior to November of 2000, Alaska is not eligible to seek reimbursement under Title I, Sec 102 for these expenditures. However, outside of HAVA, PL 108-7 included S15 million in funds to states who purchased optical scan systems prior to the 2000 election. So far, only five states, which include Alaska, were eligible for compensation from the S15 million appropriation. Alaska received a S1. Imillion reimbursement that was deposited into the State's general fund and is not included in the State's budget for implementing requirements of HAVA.

- (2) Provisional Voting- Provisional voting, known as questioned voting in Alaska, has been available to voters in Alaska since the carly 1980s. There were minimal changes needed to meet the provisional voting requirements of the bill.
- (3) Computerized Statewide Voter Registration System-Currently Alaska has a

LASK
К,
g
STATE

mainframe based statewide Voter Registration Election Management System (VREMS) that has been in place for over 17 years. This system is no longer cost effective for the State to maintain, due to the Natural programming language it is written in and the complexity of the program. The State will use the estimated \$7.5 million in funds to research and purchase a statewide voter registration system that is conducive to the administration of elections and is cost effective. The Request for Proposal (RFP) for this project will be available in early 2005 The estimated costs associated with implementing the requirements in HAVA are based on the funding information available at the time that the plan was updated. The budget will be revised appropriately to reflect the most current information available on federal funding and according to changes that may be made in the implementation schedule.

Section 8. HAVA Performance Goals and Measures

How the State will adopt performance goals and measures that will be used by the State to determine its success and the success of units of local government in the State in carrying out the plan, including timetables for meeting each of the elements of the plan, descriptions of the criteria the State will use to measure performance and the process used to develop such criteria, and a description of which official is to be held responsible for ensuring that each performance goal is met. The Division of Elections will establish performance goals in conjunction with the Alaska State Legislature during the deliberation of the annual operating budget. The "Missions and Measures" process undertaken by the Legislature in concurrence with the consideration of the annual operating budget has been established as a respected means for developing performance measures that accurately quantify program success. The Director of the Division of Elections, as the "Chief State Election Official" under section 253(e), is responsible for coordination of the State's responsibilities under this Act. Therefore, the Director is ultimately responsible for ensuring that the Division meets each performance goal. In addition, the Legislature will be monitoring the Division's efforts through the annual preparation of the State's operating budget.

Section 12. Changes to State Plan from Previous Fiscal Year

In the case of a State with a State Plan in effect under this subtlitle during the previous fiscal year, a description of how the plan reflects changes from the State Plan for the previous fiscal year and of how the State succeeded in carrying out the State Plan for such previous fiscal year.

The State of Alaska's 2004 HAVA Updated State Plan remains consistent, with steady progress towards the goals established in the initial 2003 State Plan. The State of Alaska passed legislation to bring the state into compliance with HAVA requirements; new staff to manage HAVA; updated forms and training materials; and continues to design improved voter outreach programs.

In 2004, the Division established a toll-free access system to provide voter information in the form of a toll-free telephone number. This system allows the voter to determine if his or her questioned ballot was counted and, if not counted, why the vote or a portion of the vote did not count.

The Division also completed procedures to allow the Division of Elections to match identifying information provided by a first-time, by-mail registrant on his or her registration application to information maintained in the Division of Motor Vehicles (DMV) database. Leading up to the 2004 General Election, the Division began "hub training" its election workers. The purpose of this training method is for the Division to more effectively train election workers closer to Election Day. Since there are many rural polling places in Alaska, the Division sent the chair from each selected rural precinct to one larger, more "central" community where all the chairs were trained asimultaneously. The chairs then trained to their home and trained the election Day using the "hub training" method, and found this to be an effective means of outreach and trained the vertained the trained polling place. The Division was able to train more election workers closer to a larger, more "central" community where all the chairs then returned to their home and trained the election Day using the "hub training" method, and found this to be an effective means of outreach and training.

The Division has procedures established for conducting recounts on a statewide level, as well as State House and State Senate levels. In 2004, the Division conducted two recounts – one for a State House race and the other for the U.S. Senate race. This was the first time in Alaska history that a statewide

SK

~
\circ
_
μ
27
Η.
~
۶mg.
èn.
90

recount was conducted with the Accu-Vote Optical Scan equipment, and there were no significant changes to the election results.

The Division used HAVA funds to purchase an additional 45 TS units, bringing the statewide total to 100 TS units. While intending to use the touch screens in a pilot project in the 2004 elections, the Division made the decision to delay implementation until the units are retrofitted with a voter verifiable paper record. In May 2004, the Legislature passed legislation (HB 459) requiring a voter verifiable paper trail for electronic voting machines.

The State of Alaska, Division of Elections succeeded in developing administrative regulations to establish the required complaint procedure. These regulations constitute a new article 6 AAC 25.400 – 490 that is now a part of the Division's administrative regulations set out at Title 6, Chapter 25 of the Alaska Administrative Code. These regulations satisfy the requirements of HAVA section 402 by providing a uniform and nondiscriminatory complaint procedure

Section 6 of the State Plan changed slightly due to the differences in the amount of federal funds initially authorized by Congress, and the actual amounts allocated to the State of Alaska for FY03 - FY04. The updated State Plan reflects the new percentages Alaska projects to spend in different areas to fulfill HAVA requirements.

J. KENNETH BLACKWELL Ohio Secretary of State

February 23, 2005

Dear Election Assistance Commission and Ohio Voters:

In accordance with section 2549(a)(11) of the Help America Vote Act of 2002 (HAVA), 1 am filing with the U.S. Election Assistance Commission (EAC) for publication in the *Federal Register* this letter and the following amended text of the <u>Changing the Election Landscape in the State of Ohio</u>, please see pages 25, 33, 41, 45 and 46.

The amended portion of our State Plan reflects the actual funding received to date from the Federal Government and the passage of the General Assembly Substitute House Bill 262, which requires all direct recording electronic voting machines (DRE) used in Ohio to include a voter verified paper audit trail.

Please note that non-material change may be found in other elements of the Ohio State Plan. After consulting with EAC staff, the State of Ohio has elected not to include those changes for publication in the Federal Register as unnecessary under HAVA. Instead, we would direct the EAC and members of the public to the Ohio Secretary of State's website (<u>www.sos.state.oh.us</u>) to view the complete Ohio State Plan. On behalf of the State of Ohio, I thank the Commission for its assistance and look forward to our continued collaboration to improve the administration of elections.

State Plan Committee Help America Vote Act 2002 Revised State Plan Excerpts

IV. State of Ohio Elections Systems

Ohio is, pervasively, a punch-card voting state. In total, 69 of Ohio's 88 counties use punch-card voting. Those 69 counties represent 72.5 percent of all the registered voters in Ohio and 74 percent of the 11,756 voting precincts in the state. Among the 19 counties that use voting devices other than punch-card ballots, two

Among the 19 counties that use voting devices other than punch-card ballots, two use automatic voting machines, six have electronic voting devices, and 11 use optical scanning equipment.

1000

The table below (that continues on the following pages) shows a county-bycounty listing of the types of voting devices in each of Ohio's 88 counties. The table also reflects the number of precincts and registered voters in each of those counties as reflected in the November, 2002 General Election, which we use as base data throughout this report (unless otherwise indicated.)

The data shows 29 counties with the highest over/under vote percentage in the 2000 election were all counties that use the punch-card method of voting. The seven counties with the lowest over/under vote percentage in the 2000 election were all counties that did not use punch cards as their primary voting system.

Help America Vote Act is obvious. In simplest terms, Ohio is a large and populous state The Ohio challenge in meeting the voter and election reforms envisioned by the The transition will require a solution that with a diverse mix of urban and rural voters that predominantly relies on punch-card voting as its prevailing voting mode. Modernizing the state's election systems will require widespread change throughout the state and in its most populous counties.

overwhelming majority of Ohio voters. The obvious counties, training election officials and poll workers to use new voting systems, and familiarizing Ohio must consider large and small counties, rural and urban areas, and adjustments that will affect an configuration that meets the needs of all those corollary challenge is selecting a system voters with new voting devices.

daunting challenge, we are confident Ohio's State Plan logically anticipates those factors and will While on its face, this appears to be a meet the guidelines, demands, timetables and expectations of the Help America Vote Act. ² Shelby County, a punch-card county, reported no over/under vote in the county's vote tabulation in the 2000 presidential election cycle. This would appear to be a reporting error.

State Plan Committee Help America Vote Act 2002 Revised State Plan Excerpts	Because of the prevalence of punch-card voters in Ohio, we are keenly focused on the distribution of funds under Title I and, more precisely, the buy-out program. The Act stipulates the funds will be distributed to states by multiplying the number of qualifying precincts by \$4,000. However, based on available federal funds for this purpose and the	number of punch-card and lever-machine jurisdictions in the U.S., it now appears that number likely will be about \$3,354 per precinct. As previously mentioned, Ohio has 69 counties designated as punch-card counties. In addition, two Ohio jurisdictions – Hardin and Lucas counties – feature lever voting machines and would be eligible for funding under the guidelines. In total, under the formula, the 69 punch-card counties and two lever-machine counties in Qhio means the other should be eligible for funding under the guidelines.	under the buyout program. Inder the buyout program. However, we know S31 million is insufficient for the counties to purchase modern, reliable voting systems capable of meeting requirements of the Act. Subsequently, our budget for voter and election reforms in Otio presumes the state will require about \$2.4.2 million to establish a centralized voter registration database and related support for voter education and poll worker training. Our plan calls for the remainder of the Title funds to be allocated to Ohio's 88 counties to help subsidize	installation of new systems and implement other required activities under the Act. Following is the budget we envision for distribution of the \$161 million in funds in Ohio to meet requirements of the Help America Vote Act:	Activity	Voter Registration Database	Voter Éducation	Poll Worker Training	Administrative Expenses	Provisional Voter Hotline	Miscellaneous

State Plan Committee Help America Vote Act 2002 Revised State Plan Excerpts

The Ohio Secretary of State will establish guidelines as part of the performance measurement for county compliance. When compliant systems are purchased for the counties, the Secretary of State will require transition to new voting systems by all punch-card and lever-machine counties by May 2, 2006. The Secretary of State will provide counties with a list of acceptable vendors to supply the new voting equipment and counties must choose from that approved list by no later than Sept. 1, 2003.

Since the Secretary of State will centralize and oversee this process, the Secretary will ensure compliance with all requirements of the Help America Vote Act. The performance timeline requires the Secretary to establish the list of approved vendors by Aug. 1, 2003, providing county boards of elections with ample time to review the list, choose the vendor and establish transition to the new voting systems.

To ensure uniformity and compliance, the Secretary of State will stipulate design specifications for voting equipment. If a county fails to select a vendor by Sept. 1, 2003, the Secretary of State will designate a vendor for that county and order installation of new voting equipment in that jurisdiction.

Although the Act required the replacement of punch-cards and lever machines by the General Election in 2004, the Secretary of State wanted these new systems in place in Ohio for the Primary Election to ensure a smooth, seamless transition and full operational capability in time for the presidential election. Due to externating circumstances, a waiver was granted in December 2003 giving the Secretary of State until the Primary Election in 2006 to replace punch-card and lever machines.

Controlling Board to satisfy HAVA requirements. While this change limits the flexibility <€ ogical analysis of the requirements of both HAVA and SHB262 showed that in order for Precinct Count Optical Scan voting systems introduces a new opportunity for counties in allow counties to re-select their vendor based upon the additional mandated requirements systems using funds made available pursuant to the Help America Vote Act (HAVA) of the state of Ohio to be in compliance with both federal and state law, meeting both time, 2002. As the result of this additional legislative requirement, the Secretary of State was On May 7, 2004, Governor Taft signed into law Substitute House Bill 262. The Recording Electronic (DRE) and Precinct Count Optical Scan (PCOS) voting systems. costs and certification constraints, the Secretary of State must purchase Precinct Count Act requires all direct recording electronic voting machines used in Ohio to include a of Substitute House Bill 262. All counties must submit in writing to the Secretary of previously offered to the counties when selecting between voting systems, the use of voter verified paper audit trail and changes the process for counties to acquire voting the form of improved operational processes. Furthermore, the Secretary of State will Optical Scan voting systems through existing contracts already approved by the forced to revisit the original decision to allow counties to select between Direct State their vendor selection by February 9, 2005.

The Secretary of State has already established a fund account for all federal monies designated for Ohio under the Act and those funds, as applicable, will be disbursed from that account as our plan is implemented. This account is segregated to reflect federal funds designated for county buy-outs, election administration and Requirements payrents.

State Plan Committee Help America Vote Act 2002 Revised State Plan Excerpts

u remonth Blackwell Obio Secrétary of State Reports will be generated to show the allocation and distribution of these funds and that report will be forwarded to the Election Assistance Commission along with a performance report to show the state's progress and performance in implementing provisions of the Act.

X. Voter Education, Election Official and Poll Worker Training

Achieving the mechanical and technological change of the Help America Vote Act of 2002 is only part of the challenge of enacting true modernization and reform of Ohio's voting system. While devices will enhance the efficiency of Ohio's voting and

We are mindful of an exciting objective of the Help America Vote Act: to engage high school and college students in the process. Several State Plan Committee members noted the desire to better engage young Ohioans in the election process as both a means to recruit bright, knowledgeable students as poll workers and as an opportunty to make more young people stakeholders in the process.

of endating the international and relating of enhance the efficiency of Ohio's voting and election process, voter education and training of election officials and poll workers is critica to full implementation of the reforms to the benefit of Ohio voters.

Earlier in this report, we alluded to research currently being conducted by the Secretary of State's office to improve poll worker recruitment, training, education and retention. That effort addresses the reality that many of our current poll workers are from a generation that places a premium on voting, elections and the democratic process. Many of our poll workers are senior citizens who very much value freedom and free election processes as a result of their experiences in

growing up in the World War II and Korea era. To these marvelous citizens, voting isn't just a right it's an obligation and a precious American birthright that has been paid

for with the blood, sweat and tears of those who sacrificed their lives on foreign soil. As these citizen patriots retire from the poll worker ranks in Ohio's election system, we are looking to the future to determine how best we can recruit the next generation of poll workers who will embrace this important Election Day service with the same degree of commitment, enthusiasm and competence of our older poll workers.

We are mindful of an exciting objective of the Help America Vote Act: to engage high school and college students in the process. Several State Plan Committee members noted the desire to better engage young Ohioans in the election process as both a means to recruit bright, knowledgeable students as poll workers and as an opportunity to make more young people stakeholders in the process. Our research is exploring that challenge and opportunity to pass the torch to the next generation. But the research is also looking at other creative options to ensure Ohio has a ready, able and competent corps of poll workers.

1

÷.

Obviously, these poll workers must be adequately trained to render assistance to voters in a competent and knowledgeable way, not only in terms of helping them understand and use the new technology that accompanies election reform, but also by applying the laws and addressing the myriad of Election Day issues that invariably arise.

Provisional voting, for example, was a challenge for many of our poll workers during past election cycles as Ohio aggressively implemented new procedures to accommodate provisional voters. Our poll workers have successfully navigated provisional voting and have successfully met the needs of provisional voters.

But to adequately train poll workers, we must first train election officials. The Secretary of State will meet that challenge with a number of programs and initiatives. New training seminars will precede each election in Ohio where election directors and their staff will be given an opportunity to learn about new procedures and changes.

The Secretary of State also will enhance its electronic communication with election officials by providing updates and advisories about changes in state and federal election law. Our goal is to provide this information as soon as we have the information in hand.

Additionally, the Secretary of State will conduct an inventory of current training materials and produce new information and guidelines in both written and video formats. The Secretary also has asked his staff to provide election directors with new materials that can supplement the training of poll workers.

To ensure scamless transition to new voting systems, we are asking system vendors to partner with us in the production of clear, graphically-driven pamphlets and brochures that tell voters how the voting devices work. Earlier we mentioned the use of simulators and internet-based simulation of new voting devices to provide voters with an opportunity to try out the new technology even before they enter the voting booth to cast their official ballot.

We think these enhancements and initiatives will advance our implementation of the Help America Vote Act in Ohio and pave the way for a smooth transition to new voting devices and election processes. Some of our preparation for new election processes in Ohio includes some structural changes. We are asking each county board of elections, for example, to designate a training coordinator who will communicate directly with an election training coordinator in the Secretary of State's office.

It is our aim for these coordinators to meet frequently throughout the year, exchange information and help us think about ways to improve the election system in Ohio.

After the election, we will gather from all 88 counties a report from these coordinators detailing issues, questions and problems they encountered and how they addressed the situation. From these reports, the Secretary of State will use that data and information to respond to election issues and disseminate that information to election directors so they can make refinements at the local level in subsequent elections.

But to glean a voters-eye view of the process and how we can improve the election system, we will distribute to a selected sample of voters in every county a short survey device that will track their voting experience and give them an opportunity to provide us with feedback on how we can improve the process. The survey will be

State Plan Committee Help America Vote Act 2002 Revised State Plan Excerpts

, remem suppower Ohio Secretury of State distributed to a pre-determined number sample of voters throughout the state as they exit the voting booth.

We think this innovation is important to better understand voter needs and to view our election process through the eyes of the "consumer." Information we collect from both coordinators and the sample voters will guide us in developing relevant and meaningful training materials for both election officials and poll workers in future elections.

The Secretary of State also will develop a new "get-out-the-vote" program in Ohio that will encourage more voters to participate in the election process. While such programs currently exist in the Secretary of State's office, personnel will be dedicated to conducting research and learning more about voter behavior in Ohio.

In early 2004, the Secretary of State launched "Your Vote Counts," a comprehensive voter education program aimed at better preparing voters for the November 2, 2004 election. The goal was to provide all Ohio voters with the information they need to vote so that we can reduce the opportunity for difficulties on Election Day. This effort entails ensuring every voter gets the same condition control control of the control of t

The program's Web site, <u>www.YourVoteCountsOhio.org</u>, features educational materials and instructional videos showing how to vote using punch card, optical scan and DRE (electronic) voting machines. Also included in the program printed material and public service messages for television and radio. In addition, the Secretary of State has made a special effort to reach out to students with his "Xpect More" campaign. The "Xpect More" advertising campaign is aimed at inviting young voters between the age of bucchures have been distributed to students through schools and zons Ohio. The more than 623,000 "Xpect More" bucchures have been distributed to students through schools and across Ohio.

In many states, the appeal is often directed at those who are registered to vote, were registered to vote or who have voted in the past. The Secretary of State would like to target potential new first-time voters by coordinating voter recruitment with civics and government teachers in high schools throughout Ohio where there is a captive audience of potential new voters. Additionally, the Secretary would like to initiate research that targets Ohioans who have never voted to learn more about their decision not to

Understanding more about voter behavior and non-voter behavior, we believe, is a proactive step we must take to fully embrace the spirit, intent, principles and objectives of the Help America Vote Act.

determine if there are programs and initiatives that can be implemented to address their concerns and entice them to the polls. Understanding more about voter behavior and non-voter behavior, we believe, is a proactive step we must take to fully

behavior and non-voter behavior, we believe is a proactive step we must take to fully embrace the spirit, intent, principles and objectives of the Help America Vote Act. The proposed budget for these

activities is \$2.5 million earmarked for voter education, and \$5 million set aside for election official and poll-worker training. We propose making election official and poll-worker training funds available as state grants to the counties to supplement local activities and initiatives of the county boards of elections.

and college students. Pastor Wheeler suggested Ohio public schools should ponder curriculum requirements that focus exclusively on voting and election processes.

State Rep. Nancy Hollister noted that this report should underscore for Ohioans that implementation of the Help America Vote Act in Ohio signals a "change in the governance of the election system" in the state. HAVA, she said, places more responsibility on the Secretary of State to assure a fair, equitable and inclusive election process in Ohio. "We need to acknowledge that," she said.

But Rep. Hollister and other committee members said that shift in governance does not minimize the necessary independence, ongoing role or responsibility of counties to execute election policies within the new governing framework created by the Help America Vote Act.

Committee member Jeff Matthews said county boards of elections must be independent to effectively achieve the objectives of the Help America Vote Act, and Ms. Duncan Foster said boards of elections must feel "some ownership of the process." In that context, it was the consensus of the State Plan Committee that full compliance with the Help America Vote Act requires critical coordination and a strong working relationship between the Secretary of State's office and local boards of elections.

Election officials Guy Reece and Tom Coyne, along with Mr. Matthews, agreed that innovation doesn't end with the Help America Vote Act. They said Ohio must constantly be looking for new methods, new procedures and new ideas to keep the

language requirement and it available to help Ohio make members agreed that rather conforming equipment, the the transition to new voting of Ohio. Several committee later and incurring cost for **RFP** should anticipate the **Hispanic populations both** nationally and in the State than addressing this issue should be purchased now Ms. Alvarado noted the while federal funds are projected growth of equipment.

election process viable and invite more Ohioans to exercise their right to vote. Mr. Reece invited future exploration of election innovations being tested in other states such as open voting, early voting, ballot on

demand and expanded availability and use of absentee ballots. Catherine Turcer asked that the Secretary of State consider the flexibility of voting devices that would allow for concepts such as instant runoff voting and proportional representation. Ms. Turcer also recommended the Secretary of State ensure that the RFP for new

Ms. Turcer also recommended the Secretary of State ensure that the RFP for new voting equipment carefully consider the necessity for strong auditing capability that would provide a spot-check feature for pre-testing. Ms. Turcer and Donna Alvarado said alternative language capability also should be included in the RFP in anticipation of changing future demographics in the state. Ms. Alvarado noted the projected growth

of Hispanic populations both nationally and in the State of Ohio. Several committee members agreed that rather than addressing this issue later and incurring cost for conforming equipment, the RFP should anticipate the language requirement and it should

J. Kenneth Blackwell Olino Secretury of State

17676

be purchased now while federal funds are available to help Ohio make the transition to new voting equipment.

She said language requirements also need to be considered in education products produced by vendors and election officials in how to use the new voting equipment, as well as in training of poll workers and election officials. She said alternative language issues need to be considered in creation and execution of the grievance process and procedures.

She suggested the Secretary of State consider alternative language policies that exceed the 5 percent threshold.

While preceding sections of the report address monitoring procedures for implementation of the Help America Vote Act in Ohio, Ms. Alvarado said compliance monitoring should be "futuristic" and focus on outcomes. While measuring accomplishments, she said the state and local jurisdictions also should be forward looking and report, for example, where the state expects to be in the next five years and beyond.

She said monitoring and compliance should address issues such as where Ohio wants to be as a state, how we achieve those objectives, who is responsible for implementing these plans, what the funding sources will be for implementation and what will be different when changes, modifications or new procedures are implemented in the election process.

process. Rep. Hollister agreed there needs to be periodic evaluation of Ohio's progress in

Mr. Long acknowledged that there might be offsetting costs and efficiencies that costs and efficiencies that could be realized from conversion to electronic voting systems, but he stressed the necessity for full funding of the plan and timely allocation of federal payments to the state to avoid financial burdens on counties already adversely affected by the economy and cuts imposed by the State Legislature.

meeting voting and election reforms. She suggested a need to pause from time to time to reflect on what has been accomplished, what future reforms need to be considered, and what revenues are available to achieve those objectives.

A primary focus in the deliberation of the State Plan Committee was how Ohio could best address disability issues related to implementation of the Help America Vote Act. Eric Duffy said the issue of physical barriers is a real and pressing issue that calls for creative solutions in Ohio. He emphasized that Ohio must consider not only what takes place inside the voting place, but what physical barriers exist that hinder access outside the building.

Pastor Wheeler, chairman of the Ohio Civil Rights Commission, offered the assistance of that agency in working with the Secretary of State in exploring solutions to that issue.

As expected, much of the panel's deliberation was focused on funding and whether the federal allocation to Ohio was adequate to effect the wholesale change in voting systems in the state. A key voice in that discussion was Larry Long, executive director of the County Commissioners Association of Ohio.

J. Kenneth Blackweit Olico Secretarya of State	and education across the spectrum for election officials, voters and poll workers if the system is sufficiently user-friendly. Based on the foregoing, following is a summary of the State Plan for Ohio based on the requirements delineated in Section 254 of Public Law 107-252:	 How the State will use the requirement payment to meet the requirements of Title III, and, if applicable under section 251(a)(2), to carry out other activities to improve the administration of elections. 	Ohio will implement new voting systems and procedures that meet the general requirements of Title III ensuring the systems have audit capacity, disability access, and alternative language accessibility, where applicable, and that the systems meet error rate thresholds established by the Federal Elections Commission.	(2) How the State will distribute and monitor the distribution of the requirements payment to units of local government or other entities in the State for carrying out the activities described in paragraph (1).	Ohio anticipated federal funding and state matching funds would be about \$161 million. Unfortunately full federal funding was not appropriated and the total federal funding and state matching funding is approximately \$137 million. The Secretary of State will allocate about \$106 million of that amount for installation of new voting equipment and upgrades of existing voting equipment in Ohio counties, and use the remaining portion to implement statewide voter registration and establish a provisional voting hotline. Disbursements in the amount of \$5 million will be available to Ohio's 88 counties for election official and poll worker training. Additionally, the Secretary of State will make \$5 million available for administration of a statewide voter education program. The Secretary of State will draft guidelines and reporting requirements to monitor distribution of these funds and to ensure county compliance with the Help America Vote Act of 2002. (3) How the State will provide for programs for voter education, election official education and training, and poll worker training which will assist the State in meeting the requirements of fithe III.	requirements and efforts at the county level to address these issues.

ELECTION ASSISTANCE COMMISSION

Sunshine Act Notice

AGENCY: United States Election Assistance Commission.

ACTION: Notice of public hearing agenda.

Date & Time: Tuesday, April 26, 2005, 12:30 p.m.–4:30 p.m.

Place: Massachusetts Institute of Technology (MIT), Bartos Theater, 20 Ames Street (lower level), Cambridge, MA 02142–1308. (Massachusetts Bay Transit Station Stop: Kendall Square.)

Agenda: The Commission will conduct a public hearing to present proposed voluntary guidance to the states on implementing statewide voter registration databases and to solicit comments on that guidance from members of the election community and public.

The Commission will hear presentations by a panel of persons involved with the development of voter registration databases as well as a panel of persons who will use guidance on the databases.

EAC will provide a one-hour public comment period. Members of the public who wish to speak should contact EAC via e-mail at *testimony@eac.gov*, or via mail addressed to the U.S. Suite 1100, Washington, DC 20005, or by fax at 202/ 566–3127. Comments will be strictly limited to 3 minutes per person or organization to assure that all constituent or stakeholder groups are represented. All speakers will be contacted prior to the hearing.

EAC also encourages members of the public to submit written testimony via e-mail, mail or fax. All public comments will be taken in writing via e-mail at *testimony@eac.gov*, or via mail addressed to the U.S. Election Assistance Commission 1225 New York Ave, NW., Suite 1100, Washington, DC 20005, or by fax at 202/566–3127.

CONTACT FOR FURTHER INFORMATION:

Bryan Whitener, Telephone: (202) 566–3100.

Ray Martinez III,

Commissioner, U.S. Election Assistance Commission.

DEPARTMENT OF ENERGY

[Docket No. EA-273-A]

Application To Export Electric Energy; Rainy River Energy Corporation

AGENCY: Office of Fossil Energy, DOE. **ACTION:** Notice of application.

SUMMARY: Rainy River Energy Corporation (Rainy River) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 9, 2005.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Systems (FE–27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350 (FAX 202– 287–5736).

FOR FURTHER INFORMATION CONTACT: Xavier Puslowski (Program Office) 202– 586–4708 or Michael Skinker (Program Attorney) 202–586–2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On March 24, 2003, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued Order No. EA–273 authorizing Rainy River to transmit electric energy from the United States to Canada as a power marketer. That two year authorization will expire on March 24, 2005.

On March 14, 2005, Rainy River applied to FE to renew its authorization for a five-year term. Rainy River proposes to arrange for the delivery of exports over the international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Citizens Utilities Company, Eastern Maine Electric **Cooperative**, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power, Inc., Minnkota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, Vermont Electric Transmission Company.

The construction of each of the international transmission facilities to be utilized by Rainy River, as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the dates listed above.

Comments on the Rainy River application to export electric energy to Canada should be clearly marked with Docket EA–273–A. Additional copies are to be filed directly with Christopher D. Anderson, Counsel for Rainy River Energy Corporation, 30 West Superior Street, Duluth, MN 55802.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at *http:// www.fe.doe.gov.* Upon reaching the Fossil Energy Home page, select "Electricity Regulation," and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on March 31, 2005.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Fossil Energy.
