

MMcf, (i.e., 210 MMcf of Non-Allocated Conservation Helium ÷ 4 Bidders = 52.5 MMcf per Bidder).

After the initial allocation, Companies E and F have received all the helium they requested. However, 30 MMcf is deemed excess in the first iteration of the Non-Allocated Sale and reallocated to the two remaining Bidders. With the reallocation, Refiner C and Company D each receives an additional 15 MMcf. No more helium is available, Refiner C and Company D do not receive all that they requested, and the sale is complete. All percentages used in the calculation will be rounded to the nearest 1/10th of 1 percent. All volumes calculated will be rounded to the nearest 1 Mcf.

1. Provisions of the Recreation and Public Purposes Act of 1926, as amended and to all applicable regulations of the Secretary of the Interior.

2. Valid existing rights.

Detailed information concerning the foregoing is available for review at the office of the Bureau of Land Management listed above.

Commencing on April 8, 2005, the above described land will be segregated from all forms of appropriation under the public land laws, except for conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws.
