

implement the PPA. Regulations governing the interstate movement of plants and plant products from Hawaii and U.S. territories, including Guam, Puerto Rico, and the U.S. Virgin Islands, are contained in 7 CFR part 318, "Hawaiian and Territorial Quarantine Notices."

These regulations are necessary to prevent the interstate spread of plant pests such as the Mediterranean fruit fly, the melon fly, the Oriental fruit fly, green coffee scale, the bean pod borer, and other plant pests to noninfested areas of the United States.

Administering these regulations requires APHIS to collect information from a variety of individuals who are involved in growing, packing, handling, and transporting plants and plant products. This information serves as supporting documentation required for the issuance of forms and documents that authorize the movement of regulated articles and is vital to help ensure that injurious plant pests are not spread interstate from Hawaii and U.S. territories to noninfested areas of the United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0786158 hours per response.

Respondents: State plant regulatory officials, irradiation facility personnel, and individuals involved in growing, packing, handling, and transporting plants and plant products.

Estimated annual number of respondents: 1,129.

Estimated annual number of responses per respondent: 11,108,945.

Estimated annual number of responses: 12,542.

Estimated total annual burden on respondents: 986 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of April 2005.

Elizabeth E. Gaston,

Acting Administrator, Animal and Plant Health Inspection Service.

Animal And Plant Health Inspection Service

[Docket No. 05-013-1]

Notice of Request for Extension of Approval of an Information Collection

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations to prevent the interstate spread of plant diseases within the United States.

DATES: We will consider all comments that we receive on or before June 20, 2005.

ADDRESSES: You may submit comments by any of the following methods:

- **EDOCKET:** Go to <http://www.epa.gov/feddoctet> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once you have entered EDOCKET, click on the "View Open APHIS Dockets" link to locate this document.

- **Postal Mail/Commercial Delivery:** Please send four copies of your comment (an original and three copies) to Docket No. 05-013-1, Regulatory Analysis and Development, PPD, APHIS, Station 3C71, 4700 River Road

Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. 05-013-1.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: You may view APHIS documents published in the **Federal Register** and related information on the Internet at <http://www.aphis.usda.gov/ppd/rad/webrepor.html>.

FOR FURTHER INFORMATION CONTACT: For information regarding domestic quarantine regulations, contact Mr. Charles Brown, Senior Staff Officer, Pest Detection and Management Programs, PPQ, APHIS, 4700 River Road Unit 134, Riverdale, MD 20737; (301) 734-4838. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 734-7477.

SUPPLEMENTARY INFORMATION:

Title: Domestic Quarantine Regulations.

OMB Number: 0579-0088.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701-7772) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA. Regulations governing the interstate movement of plants, plant products, and other articles are contained in 7 CFR part 301, "Domestic Quarantine Notices."

These regulations prohibit or restrict the interstate movement of certain articles from infested areas to noninfested areas to prevent the spread of plant pests such as the Asian longhorned beetle, emerald ash borer, imported fire ant, Mexican fruit fly, and

the West Indian fruit fly. For example, if an area of the United States has been placed under quarantine because of a fruit fly infestation, then certain plants and plant products that may present a risk of spreading the fruit fly may be moved interstate from the infested area only under certain conditions (e.g., after treatment or inspection). In this way, we prevent the fruit flies from being spread to noninfested areas of the United States via the movement of the plants and plant products.

Administering these regulations requires APHIS to collect information from a variety of individuals who are involved in growing, packing, handling, and transporting plants and plant products. The information we collect serves as the supporting documentation required for the issuance of forms and documents that authorize the movement of regulated plants and plant products and is vital to help prevent the spread of injurious plant pests within the United States.

Collecting this information requires us to use a number of forms and documents, including certificates, limited permits, transit permits, and outdoor household article documents.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0990402 hours per response.

Respondents: State plant regulatory officials, State cooperators, and individuals involved in growing, packing, handling, and transporting plants and plant products.

Estimated annual number of respondents: 191,866.

Estimated annual number of responses per respondent: 5.7993026.

Estimated annual number of responses: 1,112,689.

Estimated total annual burden on respondents: 110,201 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of April 2005.

Elizabeth E. Gaston,

Acting Administrator, Animal and Plant Health Inspection Service.

Commodity Credit Corporation

Natural Resources Conservation Service Conservation Security Program

AGENCY: Natural Resources Conservation Service and Commodity Credit Corporation, USDA.

ACTION: Notice; correction.

DATES: The administrative actions announced in this notice are effective on April 19, 2005.

SUMMARY: The Natural Resources Conservation Service published in the **Federal Register** of March 25, 2005 (70 FR 15277), a document concerning the FY 2005 CSP sign-up process. The notice contained a typographic error that may impact program implementation. This document corrects that error.

FOR FURTHER INFORMATION CONTACT:

Craig Derickson, Branch Chief—Stewardship Programs, Financial Assistance Programs Division, NRCS, P.O. Box 2890, Washington, DC 20013-2890, telephone: (202) 720-1845; fax: (202) 720-4265. Submit e-mail to: craig.derickson@usda.gov, Attention: Conservation Security Program.

SUPPLEMENTARY INFORMATION: The Natural Resources Conservation Service published a document in the **Federal Register** on March 25, 2005, (70 FR 15277) announcing the CSP-05-01 sign-up that is being held from March 28, 2005, through May 27, 2005, in selected 8-digit watersheds in all 50 States and the Caribbean. The sign-up notice contained two typographic errors on the

“2005 CSP Enrollment Categories—Criteria by Land Use and Category” matrix found on pages 15280 and 15281 of the **Federal Register** notice. In the “Pasture” portion of the matrix at the bottom of page 15280, the criteria for Category A in the column under “Stewardship practices and activities (from list below) in place for at least two years,” as corrected, is to read as follows: “At least 2 unique practices or activities from each area of Soil Quality and Water Quality, and 1 from Wildlife Habitat.” In addition, in the “Range” portion of the matrix at the top of page 15281, the criteria for Category D in the column under “Stewardship practices and activities (from list below) in place for at least two years,” as corrected, is to read as follows: “Prescribed Grazing plus at least 1 unique practice or activity from any of the following areas of Soil Quality, Water Quality, and Wildlife Habitat.”

Dated: April 13, 2005.

Teressa Davis,

Federal Register Liaison, Natural Resources Conservation Service.

Forest Service

Colville National Forest, WA; Growden Dam and Sherman Creek Restoration

AGENCY: Forest Service, USDA.

ACTION: Revised notice of intent to prepare an environmental impact statement.

SUMMARY: On March 1, 2004, the Forest Service published a Notice of Intent to prepare an environmental impact statement for the Growden Dam and Sherman Creek Restoration Project in the **Federal Register** (69 FR 9569). The Forest Service is revising the project title, the proposed action, the date the EIS is expected to be available for public review and comment, the expected date of release of the final EIS, and the name of the Responsible Official.

The project title will be changed to Growden Dam, Sherman Creek Restoration Project and Forest Plan Amendment #28.

The proposed action is modified to include Forest Plan Amendment #28, which would change the visual quality objective for the Growden Dam area from “Retention” to “Restoration” until such time as the vegetation recovers. The immediate foreground area around Growden Dam, a significant dispersed recreation site, would be a construction
