

2. *Review and Selection Process:* The procedures used for reviewing and selecting an application for an award are in 34 CFR 75.210 and 34 CFR 388.20. An additional factor we consider in selecting an application for an award is the past performance of the applicant in carrying out similar training activities under previously awarded grants, as indicated by factors such as compliance with grant conditions, soundness of programmatic and financial management practices, and attainment of established project objectives (34 CFR 385.33(b)).

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* The Government Performance and Results Act (GPRA) of 1993 directs Federal departments and agencies to improve the effectiveness of their programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals. The primary objective of the State VR Unit In-Service Training program is to maintain and upgrade the knowledge and skills of personnel currently employed in the public VR system. Grantees must provide training that responds to the needs identified in the Comprehensive System for Personnel Development (CSPD) required in section 101(a)(7) of the Rehabilitation Act of 1973, as amended.

In order to measure the success of the State VR Unit In-Service Training program grantees in meeting this objective, State VR agencies are required to submit performance data through the in-service annual performance report and their State plans. At a minimum, the annual performance report must include data on the percentage of currently employed VR State agency counselors who meet their States' CSPD standards.
