

mm. This product is most commonly used in the manufacture of television tubes is currently available under proprietary trade names, such as "Durphynox 17."⁴

Finally, three specialty stainless steels typically used in certain industrial blades and surgical and medical instruments are also excluded from the scope of these orders. These include stainless steel strip in coils used in the production of textile cutting tools (e.g., carpet knives).⁵ This steel is similar to AISI grade 420 but containing, by weight, 0.5 to 0.7 percent of molybdenum. The steel also contains, by weight, carbon of between 1.0 and 1.1 percent, sulfur of 0.020 percent or less, and includes between 0.20 and 0.30 percent copper and between 0.20 and 0.50 percent cobalt. This steel is sold under proprietary names, such as "GIN4 Mo." The second excluded stainless steel strip in coils is similar to AISI 420-J2 and contains, by weight, carbon of between 0.62 and 0.70 percent, silicon of between 0.20 and 0.50 percent, manganese of between 0.45 and 0.80 percent, phosphorus of no more than 0.025 percent, and sulfur of no more than 0.020 percent. This steel has a carbide density on average of 100 carbide particles per 100 square microns. An example of this product is "GIN5" steel. The third specialty steel has a chemical composition similar to AISI 420 F, with carbon of between 0.37 and 0.43 percent, molybdenum of between 1.15 and 1.35 percent, but lower manganese of between 0.20 and 0.80 percent, phosphorus of no more than 0.025 percent, silicon of between 0.20 and 0.50 percent, and sulfur of no more than 0.020 percent. This product is supplied with a hardness of more than Hv 500 guaranteed after customer processing, and is supplied as, for example, "GIN6". "GIN4 Mo," "GIN5" and "GIN6" are the proprietary grades of Hitachi Metals America, Ltd.

Analysis of Comments Received

All issues raised in this review are addressed in the Issues and Decision Memorandum ("Decision Memorandum") from Ronald K. Lorentzen, Acting director, Office of Policy, Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated April 27, 2005, which is hereby adopted by this notice. The issues discussed in the accompanying Decision Memorandum include the likelihood of continuation or recurrence of countervailable

subsidies and the net countervailable subsidy likely to prevail were the order revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, room B-099, of the main Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "May 2005." The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of Review

We determine that revocation of the countervailing duty order on SSSS from Italy would be likely to lead to continuation or recurrence of countervailable subsidies at the rate listed below:

Producer/exporters	Net countervailable subsidy (percent)
TKAST	0.73
Arinox	<i>de minimis</i> .
All Others	0.73

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: April 27, 2005.

Barbara E. Tillman,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 031005A]

Magnuson-Stevens Act Provisions; Fisheries of the Northeastern United States; Northeast Multispecies Fishery; 2005 Georges Bank Cod Hook Sector Operations Plan and Agreement and Allocation of Georges Bank Cod Total Allowable Catch

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of approval of hook sector operations plan and allocation of Georges Bank cod total allowable catch.

SUMMARY: NMFS announces approval of an Operations Plan and Sector Contract titled "Amendment 1 to Georges Bank (GB) Cod Hook Sector Operations Plan and Agreement" (Sector Agreement), and the associated allocation of GB cod, consistent with regulations implementing Amendment 13 to the Northeast (NE) Multispecies Fishery Management Plan (FMP). The intent is to allow regulated harvest of groundfish by the GB cod Hook Sector (Sector), consistent with the objectives of the FMP.

ADDRESSES: Copies of the Sector Operations Plan and the environmental assessment (EA) are available upon request from the NE Regional Office at the following mailing address: George H. Darcy, Assistant Regional Administrator for Sustainable Fisheries, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. These documents may also be requested by calling (978) 281-9315.

FOR FURTHER INFORMATION CONTACT: Thomas Warren, Fishery Policy Analyst, phone (978) 281-9347, fax (978) 281-9135, e-mail Thomas.Warren@NOAA.gov.

SUPPLEMENTARY INFORMATION: The final rule implementing Amendment 13 (69 FR 22906, April 27, 2004) specified a process for the formation of sectors within the NE multispecies fishery and the allocation of total allowable catch (TAC) for a specific groundfish species (or Days-at-Sea (DAS)), implemented restrictions that apply to all sectors, authorized the Sector, established the GB Cod Hook Sector Area (Sector Area), and specified a formula for the allocation of GB cod TAC to the Sector. The Sector was authorized for fishing year (FY) 2004 and, based upon the hook gear landings history of its 58

⁴ "Durphynox 17" is a trademark of Imphy, S.A.

⁵ This list of uses is illustrative and provided for descriptive purposes only.

members, was allocated 371 mt of cod, which represented 12.587 percent of the total 2004 GB cod TAC.

NMFS provided interested parties an opportunity to comment on the Sector Agreement proposed for the 2005 fishing year through notification published in the **Federal Register** on April 1, 2005 (70 FR 16804); additional background and details of the Sector Agreement are contained in that notification and are not repeated here. No comments from the public were received.

After consideration of the proposed Sector Agreement, which contains the Sector Contract and Operations Plan, NMFS has concluded that the Sector Agreement is consistent with the goals of the FMP and other applicable law and is in compliance with the regulations governing the development and operation of a sector as specified under 50 CFR 648.87.

There are 49 members of the approved Sector. The calculation of GB cod TAC for the Sector was based upon historic GB landings under the following two regulatory scenarios: (1) The current regulations, as implemented by Amendment 13, that restrict GB cod landings to only hook gear; and (2) based upon the proposed Framework Adjustment 40-B (currently under review by the NMFS) that, if approved, would not restrict GB cod landings to certain gear types. The allocation percentages were calculated by dividing the sum of GB cod landings by Sector members for the FYs 1996 through 2001 by the sum of the accumulated landings of GB cod harvested by all NE multispecies vessels for same time period (113,278,842 lb or 51,383 mt) for each of the two regulatory scenarios described above. The resulting numbers are 10.79 percent and 11.12 percent for the two methods, respectively. Based upon the 49 Sector members, the Sector TAC of GB cod for FY 2005 is 441 mt, and would be 455 mt, upon approval of FW 40-B.

Letters of Authorization will be issued to members of the Sector exempting them, conditional upon their compliance with the Sector Agreement, from the requirements of the Gulf of Maine trip limit exemption program, limits on the number of hooks, and the GB Seasonal Closure Area, as specified in §§ 648.86(b), 648.80(a)(4)(v), and 648.81(g), respectively.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 29, 2005.

Anne M. Lange

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

[042705A]

U.S. Climate Change Science Program Workshop: Climate Science in Support of Decisionmaking

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice, public workshop and opportunity for public discussion.

SUMMARY: The National Oceanic and Atmospheric Administration publishes this notice to announce the U.S. Climate Change Science Program (CCSP) Workshop: Climate Science in Support of Decisionmaking, addressing the capability of science to inform decisionmaking. This workshop will include discussion of decisionmaker needs for scientific information on climate variability and change, as well as expected outcomes of CCSP's research and assessment activities that are necessary for resource management, adaptive planning, and policy formulation.

DATES: The workshop will be held Monday, November 14, 2005, from 8:30 a.m. to 5:30 p.m., Tuesday, November 15, 2005, from 8:30 a.m. to 5:30 p.m., and Wednesday, November 16, 2005, from 8:30 a.m. to noon.

ADDRESSES: The workshop will be held at the Marriott Crystal Gateway, 1700 Jefferson Davis Highway in Arlington, VA.

FOR FURTHER INFORMATION CONTACT: Sandy MacCracken, Telephone: 202-223 6262, Fax: 202 223 3065, Email: smaccrac@usgcrp.gov.

SUPPLEMENTARY INFORMATION: The Climate Change Science Program, sponsored by 13 participating departments and agencies of the U.S. Government, coordinates and integrates scientific research on changes in climate and related systems. The CCSP Strategic Plan emphasizes the application of knowledge from CCSP to develop, improve, and disseminate products for use in decisionmaking related to climate variability and change. Many CCSP programs and activities address these needs—for example, the use of

observations and seasonal-to-interannual climate forecasts in the management of natural resources, or application of scientific knowledge in integrated assessments of global change.

The CCSP Strategic Plan calls for the development of 21 Synthesis and Assessment products that provide current evaluations of climate science issues, complementing other international assessments such as that prepared by the Intergovernmental Panel on Climate Change (IPCC). To maximize the effectiveness of all CCSP products, it is vital that these products account for the science information needs of their users. The workshop will be an opportunity for scientists and user communities to discuss future application and development of climate science, recognizing the multiple ways in which climate information will be utilized to address societal and scientific challenges.

Status: The times above may be subject to change. Refer to the website listed below for a final meeting agenda. Participation will be limited to the first 800 registrants. Webcast of the proceedings may be arranged if demand for participation exceeds this limit. Early registration is strongly encouraged. A registration form and other logistical information, including fees, are available at: <http://www.climate-science.gov/workshop2005>.

The workshop will include both plenary and breakout sessions. The plenary sessions will include presentations by leading figures from the international scientific community and the government, NGO, and private sectors. The breakout sessions will foster interactions among those involved in producing CCSP decision support resources, and representatives of the scientific, resource management, policy development, and other stakeholder communities. Abstracts for contributed presentations at the workshop that focus on development of scientific resources for decisionmaking are encouraged. Instructions on how to submit abstracts will be posted by June 1, 2005 at: www.climate-science.gov/workshop2005/contribpres.htm.

Dated: April 28, 2005.

James R. Mahoney,

Assistant Secretary of Commerce for Oceans and Atmosphere, Director, Climate Change Science Program.
