

The ORR Director and program staff use review panel scores when considering competing applications. Review panel scores will weigh heavily in funding decisions, but will not be the only factors considered. Applications generally will be considered in order of the average scores assigned by the review panel. Because other important factors are taken into consideration, highly ranked applications are not guaranteed funding. These other considerations include the timely and proper completion by the applicant of projects funded with ORR funds granted in the last five (5) years; comments of reviewers and government officials; ORR staff evaluation and input; amount and duration of the grant requested and the proposed project's consistency and harmony with ORR goals and policy; administrative costs associated with any sub-grantees; geographic distribution of applications; previous program performance of applicants; compliance with grant terms under previous HHS grants; audit reports; investigative reports; and applicant's progress in resolving any final audit disallowance or program review finding on previous ORR or other Federal agency grants.

Approved But Unfunded Applications

Applications that are approved but unfunded may be held over for funding in the next funding cycle, pending the availability of funds, for a period not to exceed one year.

VI. Award Administration Information

1. Award Notices

Successful applicants will be notified through the issuance of a Financial Assistance Award document, which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

Direct Federal grants, subaward funds, or contracts under this ACF program shall not be used to support inherently religious activities such as

religious instruction, worship, or proselytization. Therefore, organizations must take steps to separate, in time or location, their inherently religious activities from the services funded under this Program. Regulations pertaining to the prohibition of Federal funds for inherently religious activities can be found on the HHS Web site at <http://www.os.dhhs.gov/fbc/waisgate21.pdf>.

3. Reporting Requirements

Program Progress Reports: Semi-annually.

Financial Reports: Semi-annually.

Grantees will be required to submit program progress and financial reports (SF 269) throughout the project period. Program progress and financial reports are due 30 days after the reporting period. This notice also lists the following information:

Title of Proposal: Healthy Homes and Lead Hazard Control Grant Programs Data Collection—Electronic Quarterly Progress Reporting.

OMB Control Number: To be assigned.

Need for the Information and

Proposed Use: This data collection is designed to provide timely information to HUD regarding the implementation progress of the grantees on carrying out Healthy Homes and Lead Hazard Control Grant Programs. The information collection will also be used to provide Congress with status reports as required by the Residential Lead-Based Paint Hazard Reduction Act (Title X of the Housing and Community Development Act of 1992).

This data collection is intended to obtain information specific to each of the grant programs of the Office of Healthy Homes and Lead Hazard Control. This refines the approach used previously, under OMB Control Number 2538-0008, which covered both lead hazard control and healthy homes grant programs, used the Lead Hazard Control Grantee Quarterly Program Report for all grant programs. Under the new data collection, the reporting for each grant program will be tailored to reflect the data most relevant to its individual operating procedures and enable respondents in each program to focus their attention on information specific to their program. The other significant difference from the previous data collection is an increase in the number of respondents from 210 to 300 to reflect the gradual increase in the number of grantees participating in HUD's healthy homes and lead hazard control grant programs (255 as of March 31, 2005). With the number of hours per response remaining at 8 hours, and the responses required quarterly, the total annual hours is adjusted from 6,720, to 9,600. Based on experience under the previous collection, the Department expects that at least 99% of responses under this collection will be electronic.

Agency Form Numbers: To be assigned.

Members of Affected Public: State, tribal, local governments, not-for-profit institutions and for-profit firms located in the U.S. and its territories.

Total Burden Estimate: Number of respondents = 300; Frequency of

response = 4; Hours of response = 8; Total Burden Hours = 9,600.

Status of the Proposed Information Collection: New collection.

Additional Information: The obligation to respond to this information collection is mandatory.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 27, 2005.

Joseph F. Smith,

Deputy Director, Office of Healthy Homes and Lead Hazard Control.
