SUMMARY: Dredging is essential for maintaining safe navigation in harbors and marinas in the Los Angeles County and Orange County region. Not all dredged materials are suitable for beneficial re-use (e.g., construction materials, wetlands restoration), and not all suitable materials can be deposited at the existing LA-2 ODMDS given costs and logistical constraints. The LA-3 ODMDS has been used for the disposal of dredged material by some Orange County projects in the past, but its "interim" status has expired. Therefore there is a need to designate LA-3 as a permanent ODMDS. No actual disposal operations are authorized by this action; and disposal can only take place after a Federal permit is secured. Before ocean disposal may take place, dredging projects must demonstrate a need for ocean disposal and the proposed dredged material must be suitable (non-toxic) according to USEPA ocean dumping criteria. Alternatives, including the option for beneficial re-use of dredged material, will be

evaluated for each permit. Both LA-3 and LA-2 will be monitored periodically to ensure that each site operates as expected. This proposed site designation has been prepared pursuant to Section 102 of the Marine Protection, Research and Sanctuaries Act (MPRSA). The evaluation is based on EPA's general and specific criteria. Field studies, modeling of sediment dispersion following dredged material disposal under various scenarios, incompatible use areas, and economic considerations are included in the evaluation.

The preferred alternative location for a permanent LA-3 ODMDS is about 4.5 nautical miles offshore of Newport Bay and in water depths ranging from 1,500 to 1,675 feet. It is 2,400 meters southeast of the "interim" LA-3 site, and was determined to be the environmentally preferred location given its depth and stability. LA-3 will be managed regionally in conjunction with the existing LA-2 ODMDS. The preferred alternative in the draft EIS is to limit disposal of dredged material at the LA-3 ODMDS to a maximum of 2,500,000 cubic yards annually and to increase the maximum annual disposal limit at the LA-2 ODMDS to 1,000,000 cubic yards of dredged material. The draft EIS contains an evaluation of potential impacts associated with the preferred alternative, other combinations of managing LA-3 and LA-2 jointly, and the No-Action alternative.

Comments were received during the scoping comment period and four public scoping meetings were held at Los Angeles and Orange County locations in July 2003. Revisions were made to the draft EIS to address these comments.

Public Meetings: EPA is requesting written comments on this draft EIS from federal, state, and local governments, industry, non-governmental organizations, and the general public. FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

January 13, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper

performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments by March 22, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, 445 12th Street, SW., Room 1-C804, Washington, DC 20554 or via the internet to Judith-B.Herman@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judith B. Herman at 202-418-0214 or via the internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0658.

Title: Section 27.1213, Designated Entity Provisions of Broadband Radio Service (BRS), (formerly Multipoint Distribution Service).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit.

Number of Respondents: 60.

Estimated Time Per Response: 1 hour.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Total Annual Burden: 60 hours.

Annual Cost Burden: \$4,000.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission has changed the rule section number from 21.960 to 27.1213. Additionally, Multipoint Distribution Service is now described as Broadband Radio Service (BRS). This rule section requires winning bidders who are designated entities (small businesses) to file with its long-form application or statement of intention an exhibit which includes eligibility requirements. This exhibit should also list and summarize all agreements that affect designated entity status. The recordkeeping requirement and audit provisions of section 27.1213(f) and (g) are necessary to

prevent abuse of the special measures offered to those BRS auction winners claiming designated entity status. The Commission is requesting extension (no material change) to this information collection.

OMB Control No.: 3060-0998.

Title: Section 87.109, Station Logs.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 3.

Estimated Time Per Response: 100 hours.

Frequency of Response: Recordkeeping requirement.

Total Annual Burden: 300 hours.

Annual Cost Burden: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The rule section is necessary to require each fixed station in the International Aeronautical Mobile Service (IAMS) to maintain a written or automatic log in accordance with the provisions of the International Civil Aviation Organization (ICAO) Convention. The log is necessary to document the service fixed stations, including the harmful interference, equipment failure, and logging of distress and safety calls where applicable. The information is used by the Commission during inspections and investigations to insure the particular station is licensed and operated in compliance with applicable rules, statutes, and treaties. If the information were not collected, documentation concerning station operations would not be available, and the fixed stations in the IAMS can not comply with treaty requirements.

Federal Communications Commission.
