

Estimated cost burden to respondents is \$75,677. (1450 hours/2080 hours per year times \$108,558 per year average per employee = \$ 75,677.) The cost per respondent is \$2,703.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC-521" Payments for Benefits from Headwater Improvements".
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.:* 1902-0087.

The Commission is now requesting that OMB approve with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* The information is used by the Commission to implement the statutory provisions of section 10(f) of the Federal Power Act (FPA). The FPA authorizes the Commission to determine headwater benefits received by downstream hydropower project owners. Headwater benefits are the additional energy production possible at a downstream hydropower project resulting from the regulation of river flows by an upstream storage reservoir.

When the Commission completes a study of a river basin, it determines headwater benefits charges that will be apportioned among the various downstream beneficiaries. A headwater benefits charge, and the cost incurred by the Commission to complete an evaluation are paid by downstream hydropower project owners. In essence,

the owners of non-federal hydropower power projects that directly benefit from a headwater(s) improvement must pay an equitable portion of the annual charges for interest, maintenance, and depreciation of the headwater project to the U.S. Treasury. The regulations provide for the apportionment of these costs between the headwater project and downstream projects based on a downstream energy gains and propose equitable apportionment methodology that can be applied to all river basins in which headwater improvements are built. The data the Commission requires owners of non-federal hydropower projects to file for determining annual charges is specified in 18 Code of Federal Regulations (CFR) Part 11.

5. *Respondent Description*: The Commission estimates that it will receive annually on average 3 filings per year.

6. *Estimated Burden*: 120 total hours, 3 respondents (average per year), 1 response per respondent, and .40 hours per response (average).

7. *Estimated Cost Burden to respondents*: The estimated total cost to respondents is \$6,263. (120 hours ÷ 2080 × \$108,558).

Statutory Authority: Section 10(f) of the Federal Power Act, 16 U.S.C. 803.

Deputy Secretary.

Columbia Gas Transmission Corporation; Notice of Compliance Filing

May 27, 2005.

Take notice that on May 25, 2005, Columbia Gas Transmission Corporation (Columbia) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, Eighth Revised Sheet No. 320, with a proposed effective date of May 8, 2004.

Columbia states that on February 10, 2005, it made a compliance filing to revise tariff sheets that, among other things, added new language to the minimum pressure and hourly flow rate provisions of its General Terms and Conditions. The Commission accepted the compliance filing on May 10, 2005, subject to additional modifications. The instant filing reflects those changes.

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.
