

multidisciplinary and integrated activities; and identify the expected outcomes and impacts from the proposed 5-Year Plan of Work.

3. Evaluation of Multistate and Integrated Research and Extension Activities

CSREES will use the Annual Reports of Accomplishments and Results to evaluate the success of multistate, multi-institutional, and multidisciplinary activities and joint research and extension activities in addressing critical agricultural issues identified in the 5-Year Plans of Work. CSREES will use the following evaluation criteria: (1) Did the planned program address the critical issues of strategic importance, including those identified by the stakeholders? (2) Did the planned program address the needs of under-served and under-represented populations of the State(s)? (3) Did the planned program describe the expected outcomes and impacts? and (4) Did the planned program result in improved program effectiveness and/or efficiency?

III. Annual Update of the 5-Year Plan of Work

A. Applicability

An annual update to the 5-Year Plan of Work is required each year to add an additional year to the Plan.

B. Reporting Requirement

The update to the 5-Year Plan of Work should be submitted on April 1 prior to the beginning of the next Plan of Work fiscal year (which begins on October 1 of each year).

IV. Annual Report of Accomplishments and Results

A. Reporting Requirement

The 5-Year Plan of Work for a reporting unit, institution, or State should form the basis for annually reporting its accomplishments and results. This report will be due on or before April 1 each year with the first report being due on April 1, 2008, for FY 2007. This report should be submitted using the same Web-based data entry system used for the submission of the 5-Year Plan of Work. The Web-based data entry system will mirror and include data entered by the land-grant institution in the 5-Year Plan of Work.

B. Format

This annual report should include the relevant information related to each component of the program of the 5-Year Plan of Work. Accomplishments and results reporting should involve two

parts. First, institutions should submit an annual set of impact statements linked to sources of funding. Strict attention to just the preceding year is not expected in all situations. Some impact statements may need to cover ten or more years of activity. Focus should be given to the benefits received by targeted end-users. Second, institutions should submit annual results statements based on the indicators of the outputs and outcomes for the activities undertaken the preceding year in the Program Logic Model for each program. These should be identified as short-term, intermediate, or long-term critical issues in the 5-Year Plan of Work. Attention should be given to highlighting multistate, multi-institutional, and multidisciplinary and integrated activities, as appropriate to the 5-Year Plan of Work.

Done at Washington, DC, this 31st day of May 2005.

Joseph J. Jen,

Under Secretary, Research, Education, and Economics.

BILLING CODE 3410-22-P

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

South Kona Watershed, Hawaii County, HI

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: Pursuant to section 102(2) (C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the South Kona Watershed, Hawaii County, Hawaii.

FOR FURTHER INFORMATION CONTACT: Lawrence T. Yamamoto, State Conservationist, Natural Resources Conservation Service, 300 Ala Moana Blvd., Rm. 4-118, PO Box 50004, Honolulu, Hawaii 96850-0050, Telephone: (808) 541-2600 ext. 105.

SUPPLEMENTARY INFORMATION: The preliminary feasibility study of this federally assisted action indicates that the project may cause significant local, regional and national impacts on the

environment. As a result of these findings, Lawrence T. Yamamoto, State Conservationist, has determined that the preparation and review of an environmental impact statement is needed for this project.

The project concerns alleviating agriculture water shortages and providing a stable, adequate, and affordable supply of agricultural water to farmers and other agricultural producers in the South Kona District of the Island of Hawai'i. Alternatives under consideration to reach these objectives include a full build-out alternative involving the installation of twelve wells on private and public lands that would provide the agricultural area of South Kona with 12 million gallons of supplemental irrigation water per day; a three-well alternative that would supply 3 million gallons a day to address near-term irrigation needs in the project area; a two well alternative that would supply 2 million gallons of supplemental irrigation water a day for near-term irrigation needs; and the no action alternative, which will consider no change to the current irrigation water sources for the watershed.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Natural Resources Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental impact statement. Meetings will be held at Yano Hall, County of Hawaii Department of Parks and Recreation, 82-6156 Mamalahoa Highway, Captain Cook, County of Hawaii on Tuesday, June 21, 2005 from 1-3 p.m. and at MacFarms of Hawaii, Picker Shed 89-406 Mamalahoa Hwy. at the 84 mile mark, from 6-8 p.m. to determine the scope of the evaluation of the proposed action. Further information on the proposed action or the scoping meeting may be obtained from Lawrence T. Yamamoto, State Conservationist, at the above address or telephone number.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

Dated: May 23, 2005.

Lawrence T. Yamamoto,

*State Conservationist for Hawaii & Director
for the Pacific Basin Area.*

DEPARTMENT OF COMMERCE

International Trade Administration

[A-122-838]

Notice of Preliminary Results of Antidumping Duty Administrative Review and Partial Rescission: Certain Softwood Lumber Products From Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 7, 2005.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on Certain Softwood Lumber Products from Canada for the period May 1, 2003, to April 30,

2004 (the POR). We preliminarily determine that sales of subject merchandise made by Abitibi-Consolidated Inc. (Abitibi), Buchanan Lumber Sales Inc. (Buchanan), Canfor Corporation (Canfor), Tembec Inc. (Tembec), Tolko Industries Ltd. (Tolko), Weldwood of Canada Limited (Weldwood), West Fraser Mills Ltd. (West Fraser), and Weyerhaeuser Company (Weyerhaeuser), have been made below normal value. In addition, based on the preliminary results for these respondents selected for individual review, we have preliminarily determined a weighted-average margin for those companies that requested, but were not selected for, individual review. If these preliminary results are adopted in our final results, we will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on appropriate entries based on the difference between the export price and constructed export price, and the normal value. Furthermore, requests for review of the antidumping order for the following thirteen companies were withdrawn: Age Cedar Products, Anderson Wholesale, Inc., Bay Forest Products Ltd., Coast Forest & Lumber Assoc., Coast Lumber, Inc., Duluth Timber Company, Les Produits Forestiers Latierre, North Pacific, Usine Sartigan Inc., Council of Forest Industries, Specialites G.D.S. Inc., BC Veneer Products Ltd., and Edge Grain Forest Products. Because the withdrawal requests were timely and there were no other requests for review of the companies, we are rescinding the review for these companies. See 19 CFR 351.213(d)(i). Interested parties are invited to comment on these preliminary results and partial rescission.

FOR FURTHER INFORMATION CONTACT:

Daniel O'Brien or Constance Handley, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1376 or (202) 482-0631, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 3, 2004, the Department published a notice of opportunity to request an administrative review of this order. *See Notice of Opportunity to Request Administrative Review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation*, 69 FR 24117, (May 3, 2004). On May 28, 2004, in accordance
